

Coming Events Cast Their Shadows

Prepare Now to Withstand the Crisis.

Do not participate with a shuddering dread the beautiful event of childbirth. You can avoid discomfort during the period and strain at the crisis by preparing your system and putting yourself in splendid condition to meet the time.

For just this purpose women all over the land, in every walk of life, have used for over half a century the time-honored and famous remedy, Mother's Friend. It is prepared to give the mother-to-be that direct help she needs. The muscles, nerves, tendons and cords are made and kept soft and elastic. Thus strain is avoided, and as a result nervousness, nausea, heart-beating and stretching pains are avoided.

The abdominal muscles expand easily and gently when baby is born. Naturally, pain is less and the hours are fewer. The system is prepared and the crisis is one of much less danger.

Write the **Bradford Regulator Company**, Dept. M, Lamar Building, Atlanta, Georgia, for their helpful Mother's Friend Book, and obtain a bottle of Mother's Friend from the druggist today. It is just as standard as anything you can think of.

And remember, there is nothing to take the place of **MOTHER'S FRIEND**.

GREAT PROBLEMS ARE

and Belgium silent for the first time in four years. Where, for fifty one months giant guns, poisonous gases and bursting bombs had wrought destruction, there was quiet today.

At the close of the unprecedented strife, Germany stood alone before the wrath of 32 civilized nations. Those twenty two were in arms, five others had severed relations with her government and two others—Russia and Rumania, she had embittered by enforcements of a vicious peace. Her enemies had called to the colors over 33,000,000 men during the conflict, determined to crush forever the power that had upset the peace of the world.

Her allies, Bulgaria, Turkey and Austria-Hungary, had left her when her strength began to weaken, and finally her own people, seeing at last the disaster their treacherous emperor and war lord had brought upon them, overthrew his reign and he has fled the country.

Twenty Four Nations Fight

In the kaleidoscopic events of the four years of war, 24 great nations participated in the fighting, over 33,000,000 men were in arms. Over 16,000,000 men were killed, wounded or gassed. More than one hundred billions of dollars was consumed in the struggle. Revolutions occurred in Russia, Austria-Hungary and Germany. Five monarchs and heirs were driven from the throne. The military dynasties of the Romanoffs of Russia, the Hohenzollerns of Germany, the Hapsburgs of Austria and King Ferdinand and his son of Bulgaria, tottered and fell. King Constantine of Greece fled before the wrath of his people. Emperor Charles of Austria-Hungary sees his dual empire a heap of ruins, and Germany revolting, is proclaiming republics within its own borders.

It was America's privilege to turn the tide of the war. Her entrance as a belligerent in April, 1917, has been followed by the shipment of over two million Yank fighters to Europe, loaning of over \$7,500,000,000 to her asso-

ciates in the war and expenditures of over \$20,000,000,000 during her 19 months in the fight. Her's also was the unique diplomacy directed at the Teuton militarism which brought on the conflict and which today had been swept from power by enlightened peoples. It likewise has fallen to her lot to establish, through President Wilson, the basic peace principles upon which an end of the struggle was found and which now will be threshed out at the peace table. That the president will attend the conference, wherever it is held, was declared by his friends today.

Announce Draft Plans Today

The war department proposed today to announce its plans concerning draft operations. That it would halt further drafting at once was the strong intimation in war department quarters.

Shipments of troops as division units ceased recently and while the department was not relaxing its war work, the recent shipments were only of replacement troops and service office supply men.

The exact nature of plans for the return of soldiers now over there has been concealed but it is known, in general, that the department proposes to return the men longest overseas, and those most needed in industries here, as the first shipments home. However, it now appears that there will be a big police job in Europe for some time to come and hence it is likely that a big percentage of forces now over there are booked to remain some time. In addition, there is the difficulty of providing tonnage for return transports quickly, besides the danger of dumping too many men suddenly on the labor market.

Boys are "Crazy"

Little is known regarding events at the extreme front lines where the men are dug in, in little "fox holes." Just as a unit commander started to telephone his forward lines that the
