FOOD TO BE SHIPPED TO NEEDY EUROPE

Herbert Hoover and Secretary Baker Putting Mammoth Program Into Effect.

Washington, Nov. 11.—An enormous food reserve will be collected in France under direction of the quartermaster general of the army, Herbert Hoover, announced today. Hoover and Secretary of War Baker will put into immediate effect a mammoth program for sending to Europe quantities of food to meet the dire needs. When armistice negotiations are sufficiently carried out to permit distribution, Serbia, Southern Austria, Montenegro and other sections, where there is a distressing need, will be supplied from the quartermaster general's stock.

Chairman Hurley of the United States shipping board will leave at the same time for Belgium. The purpose of his trip has not been made public. He had been ordered to an officers training school at Camp Lee, Virginia. He has been stationed at New Brunswick, N. J.

From Vladivostok, Siberia, Private Earl LeRoy Jenks of Co. B, 31st infantry writes, "I have been in this army little over five months and am now located at Vladivostok, Siberia. Have also seen little of Japan, but believe there is no place like the old U. S. A."

Chauncey Bishop was confined to his home today by a slight cold. Inquiry at his home made late this afternoon said there was nothing serious, merely one of the colds that is usual at this time of the year.

Now that everything is wide open and the city has resumed its accustomed ways, the public library will again open and close at the usual hours. For the past week or so it has been open to its patrons only in the afternoons.

At a meeting of the vestry of St. Paul's Episcopal church Saturday evening, the Rev. C. H. Powell of La Grande, Oregon, was chosen as rector. As the state council of defense and the fuel administration could not agree, it seems that the flurry as to when gasoline may be sold is all over. Through the efforts of these two war bodies, an effort was made to restrict the sale of gasoline. But as they were not working in concert, there seems to have been a general mix up between the two and the leading gasoline companies. As the situation now stands, it seems to be up to the dealer as to whether he wants to sell on Sundays and after six o'clock in the evenings.

KAISER FARED BADLY IN TODAY'S PARADE

Model of Famous Liberty Bell and Tank Were Unusual Parade Features.

For the big demonstration this afternoon at 3 o'clock, Salem again demonstrated that it is good for all kinds of celebrations. At 2:30 o'clock the streets were lined solid with people waiting for the big parade. And they were not disappointed for never in the history of the city was there such a parade with so great a conglomeration of noises.

One of the usual floats was that of a tank, shooting savagely from a gun in the rear, only in this instance the big gun happened to be a six-inch stove pipe. Six staid citizens carried a casket in which the kaiser's remains were supposed to be resting. The Loyal Legion of Lumbermen and Loggers were once again prominent with their big saws and big noises. Judge Bingham of the circuit court carried a flag while the young lady employees of the court house assisted in carrying a large United States emblem.

The Elks were there in number, following the casket in which the remains of the kaiser were supposed to be resting. It was a joyous occasion. Among the enthusiastic marchers were members of the Grand Army of the Republic. And then there was the 100 Stuyten boys all in uniform and with them the float with a bell the size of the famous Liberty bell, and the Stuyten bell was proclaiming liberty as did the famous bell of Revolutionary times.

The kaiser fared bad as from several floats he was found with a rope to his neck. The fire department boys were all on hand as well as representatives from several business houses.
