- SILVERTON BANK'S GROWTH.** For the first time in its history the Coolidge McClaine bank has gone over the million dollar mark in bank deposits. The million dollar mark was reached just after the August 31st call was made but a little too late to be credited in the report at that time. The bank's total deposits as shown in the November call appearing in this issue of the appeal is \$1,129,327.95. The First National bank shows an increase in deposits in the November call over that of August 31 of nearly \$50,000. The bank's statement for November call appears in this issue. The combined deposit of the two banks reach the magnificent sum of \$1,577,357.58.—Silverton Appeal.

## NON-SECTARIAN SPIRIT OF Y. M. C. A.

By James Elvin.

On the broad veranda of the hotel one of the crack regimental bands was giving a concert, and the square in front was crowded with thousands of American and French soldiers who were enjoying the music. As we passed through the crowd the boy plucked my sleeve and he said to me, "Say, you're a Y. M. C. A. secretary and you have been very kind to me, but I guess you do not know that I am a Roman Catholic." I said to him, "Now, out of that stuff, because it doesn't make a bit of difference to me whether you are a Protestant, Roman Catholic, Jew, or Mohammedan, or any odd thing—-the fact that you are an American soldier and wearing an American soldier's uniform is all that is needed to make me, and all the workers who wear the uniform I wear, give the best that we have to you."

The soldier dying on the battle front does not ask whether he is dying for a Protestant, a Roman Catholic or a Jew. He is simply laying down his life for Americans, and the man or woman who refuses to give because he or she will not give to a Protestant, or to a Catholic, or to a Jew, is a pretty poor sort of a proposition.

They are dying for Americans, and there is only one thing for the people at home to say, namely: It is a great and inestimable privilege to give for the welfare and the comfort of American soldiers. Give and give liberally to the men that are giving so much for you.

## LETTERS FROM NORTH MARION COUNTY BOYS

### They Tell Stories Of The Fighting That Drove The German Home.

Mr. and Mrs. Geo. Colclazier have just received a letter from Lieut. Francis W. Banta of the 122d U. S. Infantry, now in France, who expresses himself very emphatically in regard to the "Boche." He says in part: "You speak of having a German (or Boche) as a soldier any church near by where they speak German and sing it at their meetings. I will tell you what we soldiers think of it. Every American soldier has seen enough of the dirty 'Boches' that if anyone speaks German in their presence it is hard on the speaker. I believe that not only is it possible for them to speak English, but they should be made to, or kept still. Any German allowed to live in God's own America should learn to speak America's language or get out. I only hope and pray that the patriotic people of Aurora have the guts to put a stop to such unbelievable things. The A. E. forces over here are known as the 'army of guts'—and though this word is not much used in the English language I vouch for it that it will be used after the war, to mean 'nerve.' Soldiers here, who speak 'Boche' before the war, don't admit it now."

Our boys are daily giving up their lives to wipe the 'Boche' menace from the face of the earth, and we cannot understand how any allied nation can tolerate the language and things that represent the great poison snake that makes up the Hun line on the western front—where loyal young manhood and innocent homes meet death and destruction. The worst is too good for such hostility.

May God grant us the privilege of doing our job right, in wiping the Boche power from the face of the earth so that our children will never have to do what we are doing today, and may this great struggle be a lesson to humanity and may peace reign over the world for all time to come. May the head of the monster Prussian militarism be crushed so completely that history will not mention it. I hope the Prussian despots who tried to crush the world and all human liberty may be made to suffer as they have made the heroic people of Belgium, France and Serbia suffer. All is going to be fine with a grand and glorious victory close at hand."

Chester Gray has written his sentiments, the Giesy sisters, from France that it is a strange country. He says: "I will always remember the wonderful times that we can hear from our camp from the little town which is only a short distance from us. We surely will have many things to tell you when we get back."

I was camped about three miles from Al Miller and did not know it. St. Agnes was the place. We saw a bunch of boys from Al's company and they told us about "Dutch." I am now working in the operating room. I got to see all the operations and find the work very interesting. I hope to get a chance to go up to the front. Our boys have been giving the Hun a—- but that is what we are here for, and the sooner we get them the sooner we come home. We are getting used to the French ways and manners, and don't mind it any more—only one thing I regret is that I can't speak French. We are picking up a little, but it is hard to learn anything."

Mrs. F. E. Mills of Meridia received a letter from her son, Lieut. F. M. Phelps, Co. 2, 365 Infantry, A. E. F., France. He says: "I was shot through both legs by a machine gun, just below the body, and fell into a shell hole where I remained in my blood and about 4 inches of water for 12 hours, after which they picked me up and now I am in a hospital in southern France where I will likely remain eight weeks longer. After which I want to get back and help lick the men who shot at me all day after I was wounded and helpless in a shell hole. Now don't worry as I am feeling fine and dandy and won't be a cripple. Oct. 12th—I am all out of danger now but am awfully tired as I have lain on my back for 17 days. But the doctor says he can soon take the rubber out of my legs and then I will soon be able to sit up a little."

Mrs. Diana Snyder has received a letter from Jack Rose, formerly of Butteville. He is in France with the A. E. F. He writes that President Wilson and General Pershing stand high in the regard of soldiers abroad. He also relates an incident that happened in his company that shows the methods used by the Germans to the very last. A number of German soldiers carrying a litter, and holding up their free hand and crying "knorred" in taken of friendship approached Rose's company, saying they were carrying a wounded American. But his company were wise and opened fire, wiping out the German outfit. They found that the "wounded American" was a German soldier with a machine gun hidden under the covering on the stretcher.

Fred S. Armstrong writes his parents, Mr. and Mrs. U. S. Armstrong that he passed through the "big drive" safely—without a scratch. But he adds that he got a pretty strong shot of gas and has been in the hospital for two weeks but will be back with his company again soon. He says: "I suppose you have read all about the big drive and know more than I can tell you. I would like to be home around Christmas but don't suppose I will be that lucky. I would write more but cannot see very well yet."—Aurora Observer.

## Former Dallas Man In California

(Capital Journal Special Service.)  
Dallas, Or., Nov. 16.—Word was received in Dallas this week by friends of P. E. Davis, formerly proprietor of the Dallas Furniture store on Main street stating that he was seriously ill at a naval hospital in San Diego with the influenza. Mrs. Davis left Dallas several weeks ago with his family for Southern California for the benefit of Mrs. Davis' health, having secured a transfer from Camp Lewis to a point in California as a Y. M. C. A. secretary. In a letter last week to Dallas friends, Mr. Davis stated that there were hundreds of cases of the disease in the hospital and that he had been assisting in taking care of the patients.

## Polk County Boy Killed in France.

John Dalrymple a Polk county boy was killed in the recent fighting on the French battlefield according to word received by his brother, James Dalrymple who resides on the J. B. Stump farm near Monmouth. John was drafted about a year ago and went across the ocean to France with the 91st division from Camp Lewis. The deceased was a native of Scotland and is the second brother of the family to meet death in the World War, another brother having been killed while serving with the British army and still another brother has gone through the fighting in Palestine without receiving a scratch. The Dalrymple brothers came to America from Scotland several weeks ago and both of them worked in this county on the Stump ranch.

## Judge Belt Postponed Court.

Circuit Judge Harry H. Belt has postponed the regular term of the circuit court for Yamhill county until the first week in December on account of the epidemic of flu which is raging in that city.

## Dallas Soldier Has Relapse.

In a letter to his parents, Mr. and Mrs. A. V. R. Snyder of this city Lt. Will Snyder who is stationed at an Artillery training camp at Camp Jackson, South Carolina, states that he has had a relapse from the attack of pneumonia with which he suffered for several weeks and is again confined to a ward in the base hospital at the camp.

## Another Dallas Minister Leaves.

Rev. W. S. Ploeman, pastor of the United Evangelical church of this city, leaves the first of next week for New York city where he will take a short course of special training for overseas work with the Y. M. C. A. Mr. Ploeman made application for work as a Y. M. C. A. secretary several months ago and has been patiently waiting a call. With his departure from Dallas the city is left with but one minister of the gospel, the Rev. Chas. P. Johnson of the Methodist church being the only remaining minister.

## Influenza Ban Lifted; Death Of Former Teacher

(Capital Journal Special Service.)  
Stuyton, Or., Nov. 15.—The ban on the flu has been lifted. There are no new cases in town and only a few persons suffering from the disease. The picture show will be open Saturday. School on Monday and Sunday regular services will be held at the churches.

Mrs. E. Small and daughter Martha left Thursday morning for their home in St. John, after a visit of several days with friends here.

Mrs. Wm. Nendel returned home Tuesday from Wapo., Wash., where she has been for several weeks taking care of some relative who was sick. The community was shocked Wednesday by the news that Darrel C. Davis, for a couple of years one of the teachers in the Stuyton schools, had been accidentally shot and killed Tuesday at Princeville. He was in a boat from which he fell, his gun exploding in the water, killing him instantly. He leaves a wife and one child, who will have the sympathy of their many friends in Stuyton and vicinity.

In the window at the Beauchamp drug store is a perfectly good German helmet. It was sent to Miss Anna Phillips by First Sergeant Bruce T. Brage, and was taken from a dead German on the battle field after the second battle of the Marne. It attracts considerable attention.

Wm. Kerber has purchased the Joe Mielke property, east of W. H. Holson's residence, and after giving it some repair will occupy it as a home.

W. M. Munkers and wife are the parents of a daughter, born the 9th.

Alfred Peterson and J. A. Henderson attended the celebration at Salem Monday in the Peterson car. When they prepared to return home they found the car gone. It was later discovered, but they were obliged to remain over night. It is supposed that some joy-riders got away with it.

The McManis postoffice was discontinued the 15th and the patrons of that office will be taken care of by Rural Route 2 from Stuyton and the rural route from Lyons. Since the rural route from Lyons was established about a year ago, the patronage of the McManis postoffice has been small.

The wind storm which visited this section Thursday night did considerable damage to telephone poles and several trees in town were uprooted. One large barn was blown down near the Bowman barn and badly damaged a very fine tree on Mrs. Trask's place. A very few slips to accompany packages to soldiers overseas have been received here, and unless they arrive soon it looks as if there would be a large number of the boys from this vicinity who will have to do without their Christmas packages. It seems that the government should extend the time.

Laurence Siegmund, who has been very low with pneumonia at Eugene, is reported improving. His father has returned home, but his mother is still with him.

A new cement walk is being laid along the Merrifield property near the water ditch.

## Flexible Springs Are A Big Help To Tires

"Next to intelligent care and reasonable driving, the most prominent factor in tire economy is flexible spring action," declares Lee L. Gilbert, distributor for the "Bear Cat Harroun Car."

Here is a lesson which Ray Harroun learned during the days he was engaged in designing and driving speed cars. He always has, I personally know, attributed a large share of his racing success to the fact that he learned the lesson well.

"Watch the rear end of a Harroun car as it passes over any rough road, and you will see that the rear axle does not dance, but remains on the road surface, thus avoiding the inevitable tire wear which comes when a wheel is thrown clear of the road surface, and then hits it again with increased rotary speed.

"Such an impact must grind an appreciable portion of the rubber off the surface of the tire every time it occurs.

"Freedom from this symptom not only increases the comfort of the passengers in the car but greatly adds to the life of the car's tires."

Charged with disrespect to the flag at Aberdeen, Monday, August Johnson, a pool hall proprietor, was roughly handled and forced to kneel and kiss the flag 100 times.

**GRANDMOTHER KNEW**

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plaster gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage Musterole in with the finger-tips gently. See how quick it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chubains, frost-bites, colds of the chest (it often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.

**Newspapers Seldom Seen On Front Trench Fighting Line**

Private R. V. Wagner is or rather was in October on the front trench fighting lines. In writing to Mrs. D. M. Wagner, 251 North High street, he says that on the front lines they very seldom see papers but that an airplane flew over them a few days past and dropped them a bundle of New York Herald.

As to his quarters, he writes: "We have a pretty good place to sleep in a dugout which the German had as they were in here three years ago. Gee, there sure are some big old gray boys around here. I wouldn't care with mine, for they keep you company at night."

"We've had rain for a week or more. I finally got out of the S. O. S. and have been up to the front for a week. You sure can see the guns shooting and see the airplanes fighting."
