HOW RHEUMATISM BEGINS

The exerceiating agonies of rheamatism are usually the result of failure of the kidneys to expel poisons from the system. In a majority of cases rheamatism is an indication that uric acid has pervaded the system. If the irritation of these uric acid crystals is allowed to continue, incurable bladder or kidney disease may result. Attend to it at once. Don't resort to temporary relief. The sick kidneys must be restored to health by the use of some stering remedy which will prevent a return of the disease.

Impossible to Deal, With Russia
Russia is now the great unknown quantity in the world of international relations. It will be impossible for the peace conference to deal with the Russians in any spirit of finality. If a lengue of nations is formed at the conference, it cannot include Russia because whoever signs for the Moscow Convergment may have its authority. government may have its authority overthrown at home. To Further Own Interests

The German militarists are showing they do not fear to play with revolutionary fires, for the purpose of furthering their own interests. Germany is now in a desporate situation, where every possible way out is undergoing rigorous teats. The Russia road of excape is but one. The reports that Germany is encouraging the spread of revolutionary propaganda in Scandinavia, Holland and Switzerland are undoubtedly true. In a revolutionary Europe the Germans believe they would dominate international relations because of their own discipline and sense of order. If Germany were to expand of order. If Germany were to expand of order. If Germany were to expand of the cable lines is staggering. The whole move, he said, would appear to be a preliminary murch toward government ownership. Such action, he believes, would be a heavy expense to the government from which no good could come. "The proposal of the government is incomprehensible to me," said Mackay. "For illustration we have a cable 10,000 miles long from San Francisco to China and Japan and Manila. What in the world could the government do with that? The Central and South American Cable company has cables from New York, through the Panama cannal and away down the west shore of South To Further Own Interests Coming Out.,
