

# WRIGLEY'S

## Announcement:

To help meet the needs of the government, Wrigley's has discontinued the use of tin foil as a wrapping for **WRIGLEY'S JUICY FRUIT CHEWING GUM**

Hereafter all three WRIGLEY flavors will be sealed in air-tight, pink-end packages.

So look for

**WRIGLEY'S**  
in the pink sealed wrapper and take your choice of flavor. Three kinds to suit all tastes.

SEALED TIGHT—KEPT RIGHT

Be SURE you get Wrigley's—

**The Flavor Lasts!**

## CENSORSHIP PROBLEM FOR PEACE CONGRESS ASSUMES IMPORTANCE

Many Think That Policy Of Open Diplomacy Should Begin At Versailles.

By William Philip Simms.  
(United Press Staff Correspondent.)  
Paris, Nov. 21.—While Versailles is making its toilet for the peace congress, the problem of secrecy or no secrecy, censorship or no censorship, is taking on great importance.  
Senator Borah's statement that everything must be under the eyes of the public, is receiving much comment, especially as it is understood that President Wilson has the same sentiments.  
It is pointed out that the American censorship has been abolished, and the British newspapers are permitted to publish what is not allowed in France. It is now urged that there be an inter-allied agreement concerning what shall be published about the peace negotiations.

Opinions here generally incline toward secrecy on the ground that the Germans will exploit to the fullest extent the slightest lack of harmony. However, many declare the Wilsonian policy of open diplomacy ought to begin at Versailles.

## Stayton Electric Company Wants Raise In Rates

(Capital Journal Special Service)  
Stayton, Nov. 20.—There was a hearing before the public service commission and members of the city council at the city hall Monday to decide whether the Stayton Electric Light company is entitled to a raise in rates. Most of the evidence taken was to the effect that the company was entitled to a raise but should be compelled to give better service. It is said that if the increased rate is allowed the town will remove several of the lights from the streets. The general opinion of the townspeople is that the lights should be retained even if the price is increased.

Miss Cecilia Mielke is home from a visit of several days with Corvallis friends.  
Parties are at work tearing down the old Kearns building on Second street and cleaning up the lot. This should have happened long ago, as the building has not been used for years, and has been a fire menace and an eyesore to that part of town.

Separate Co. A met Monday evening with the intention of electing officers but it seems from reports circulating about town that there has been considerable wire pulling being carried on and a slate prepared without the knowledge of a large portion of the company. Consequently, no election was held, and is scheduled to come off next Monday night. In a company like this there should be no factionalism, but it seems that it has appeared in Co. A and caused considerable criticism and dissatisfaction.

An armature burned out on the dynamo at the electric light plant Sunday, and since that time electric juice has been a minus quantity in town, except the private plant at the woolen mills. Manager Taylor and E. C. Titus left Monday afternoon for Portland to see if another dynamo could be secured until the damaged one can be repaired. There are numerous motors in use in town, and a number of people are considerably inconvenienced by not having power.

Ralph Urban has built an addition to his auto repair shop.  
Mr. and Mrs. Horace Lilly, accompanied by Mr. and Mrs. Alexander, Mrs. Parry and son, Dixon, motored to Corvallis Sunday for a visit with friends.

Joe Sestak and family visited Philomath and Corvallis Sunday.  
Ben Gublen has moved into the M. Fuchs house in the east part of town.

Mrs. A. C. Thomas, who has been quite ill with influenza, is able to be about again.  
J. W. Bailey of Montague, Cal., arrived in town Tuesday for a visit with his sister, Mrs. A. Shepherd, and other friends.  
Karl Schaefer, an old and respected resident of Linn county, died Tuesday morning at his home, a couple of miles south of Stayton. He is the father of Chas. and B. A. Schaefer. The funeral service will be held Thursday morning, conducted by Rev. Warren of the M. E. church.

## Monmouth Is Behind In United War Work Drive

(Capital Journal Special Service.)  
Monmouth, Ore., Nov. 20.—Monmouth is experiencing some difficulty in raising the quota of \$14,000 allotted to the district for the United War Work Drive. Monday morning, the receipts had not been accurately totaled, it was estimated by Ira Powell, chairman of the Monmouth committee, that at least \$1,000 was needed to complete the quota.  
The Normal with a quota of \$2,000 which is not included in the quota of \$14,000 for Monmouth district, is well "over the top". President Ackerman reports this morning. With a student attendance of only one hundred and sixty-five, the average per capita was

## BELGIAN MONARCH RE-ENTER BRUSSELS

French Have Penetrated Fifty Miles Into German Territory Now In Budapest.

Paris, Nov. 21.—King Albert and Queen Elizabeth will make their formal entry into Brussels tomorrow, a Bruges dispatch L'Information stated today. The Belgian government was transferred from Bruges to Brussels today.

Advanced Fifty Miles.  
London, Nov. 21.—The Belgians, rapidly carrying out the reconquest of their country have advanced more than fifty miles from the line held by them when the armistice was signed.  
They have entered Turnhout, 24 miles northeast, and Harnthals, 18 miles east of Antwerp.

Both the Americans and the British have advanced about thirty miles, while the French have penetrated for 50 miles into German territory, occupying Saarbrücken.

The general line of the allies' advance about six dollars. Many were the ways and means employed by the girls to raise money for the cause. One enthusiastic girl who realized the necessity of doing more than her share, (for there are many who could ill afford to spare anything,) took her stand on the streets of Independence and blacked boots for the passers-by taking in \$12 one day and \$16 another day, turning in the entire amount besides her own individual quota of six dollars. Some of the girls did manicuring and shampooing for others, some washed windows, raked leaves off the campus, split kindling, darned stockings, sold cider and did many other various things in their efforts to raise money.

The high school is also well over the top, the sum given them to raise being \$70 and the amount raised over a 100.  
One of the most interesting and unique of the recent social affairs at the Normal was planned by the senior 11's for the entertainment of the student body. The arrangement and decoration of the rooms were handled in a creditable manner by the students of the class, the idea being to create an ideal lover's environment. The guests were invited to appear in couples representing famous lovers of the past, the costumes as well as the "stunts" performed, being the clue to the identity of the characters represented. Many persons of note from the realm of art, literature, music and history were entertained, and each couple furnished entertainment for the others. The there is not a man in the class, the "male" parts were well taken. The evening was a most enjoyable one.

One of the social events of last week was a dinner given in the domestic science rooms, prepared and served by one of the domestic science classes under the supervision of Miss Lucile Chase, head of the department. The table was covered with yellow carnations, mums and autumn leaves and the setting of the normal in colors. The guests were President and Mrs. Ackerman, Prof. and Mrs. Butler, Dean Todd, the Misses West, Taylor, Holmes, Anderson, Isobe, Parrot, Schutte and McIntosh. The dinner served as a demonstration of the efficiency of the class and also as a capitation.

## Come Mother, This Castor Oil Is What You Need—Don't Cry!

If you, mother, had to swallow the awful dose—Think back to your childhood days—Ugh! Give your children Cascarets instead. Cascarets taste like candy. Every child loves to take a Cascaret. Besides Cascarets act better on the little liver and bowels when the child is bilious, constipated, feverish and sick. Cascarets are delightful—harmless—cheap!

Each 10 cent box of Cascarets, the pleasant candy cathartic, contains directions and dosage for children aged one year old and upwards. When the little one's tongue turns white, breath feverish, stomach sour, there is nothing better to "work" the nasty bile, souring food and constipation poison from the child's system. Give Cascarets, then never worry.

Turnhout, Harnthals, Antwerp, Brussels, Jemeppe, Givet, Wancennes, Long-Ber, L'Eglise, Habay-la-Vieille, Arlon, Vitré, St. Alford, Kerdern, Eubach, Saarbrücken, Obernai, Neu-Breisach and the line of the Rhine to the Swiss border.

Occupation of Budapest by French is undoubtedly in compliance with the provisions of the Austrian armistice, which included right of occupying all strategic centers in Austria-Hungary.

London, Nov. 21.—The French occupied Budapest, capital of Hungary on Sunday, it was announced here today.

John E. Farris has sued J. M. Watson for \$188.82. He alleges they entered into an agreement Jan. 1, 1918, whereby Watson was to plant, care and harvest 40 acres of flax and they were to divide the proceeds of sale. That Watson bought seed of the state to the value of \$188.40 and that when he sold his flax to the state from the 40 acres, he was paid \$701.65 less the cost of seed, making his check \$543.25. That after deducting what Farris owed Watson, there was still due Farris the sum of \$188.82 and this amount he asks that the court should adjudge due him.

A divorce was yesterday granted Donald Eoff in her suit against Glenn E. Eoff. The mother was given the custody of the son and the father ordered by the court to pay \$20 a month until the boy become of school age, when the mother may apply to the court for an increase in the monthly allowance. The father's rights to visit the son will all depend upon whether he pays promptly the \$20 a month. A few months ago the circuit court denied Mr. Eoff a divorce. Mrs. Eoff then sued and was more successful.

In the divorce case of Laramie Leep Rogers against Sam G. Rogers, the court allowed \$100 suit money, which is to be paid before Nov. 25.

Supplies of grain held in elevators which will be available to meet the needs of this country, as well as to aid Europe are estimated at 114,941,000 bushels.

## Second Monmouth Young Man Killed At Front

(Capital Journal Special Service)  
Monmouth, Ore., Nov. 20.—Word was received a few days ago of the death of John Dalrymple, killed in action at the front. John was a brother of Jim Dalrymple, a citizen of Monmouth and an Odd Fellow. John formerly lived here, being employed on the Stump ranch. He is the second only of Monmouth's young men who have lost their lives fighting for democracy—let us hope there will not be another.  
Mr. and Mrs. M. J. Towne who purchased the Herman Guinn property on the city limits (southwest) have arrived from their former home at Gaffney, Douglas county, and taken possession. Mr. Towne expects to try his luck in the poultry business.

Friends of May Evans daughter of Mrs. W. J. Evans, will be interested to know that May was married on September 6, to Mr. Karl Fredrick Hoeft, a civil engineer and superintendent of the Royal Consolidation Mining company of Tabowie, Unankinko, Korea, the ceremony taking place in Seoul, the capital city. After graduating from the Normal here over a year ago, May went to Korea, where she has been teaching the children of the mining company, and incidentally several Japanese ladies of rank. Mrs. Evans has another daughter at Tabowie who has lived there for six years.

Miss Alice Constock left Sunday for The Dalles where she expects to do clerical work.  
Mr. A. J. Haley has purchased ten acres of land off the north end of the E. T. Evans farm south of town, the price being \$150 per acre. The land lies low but Mr. Haley will tile-drain it, when, he says it will be as good as any land. The tract is sown to wheat and corn.

A baby girl was born Thursday the 14th to Mr. and Mrs. Leonard Ingram. The Ingram came here recently from Corvallis. Mr. Ingram is employed as driver of the auto bus, for the Graham garage.  
Mrs. Eudelle Norgaard of Portland has been visiting the past several days with her parents, Mr. and Mrs. George Bethers.

Miss Bessie Sullivan who recently suffered an attack of influenza, followed by complications is still unable to get about and the Dr. has ordered that she remain home from school until next semester.

Wendell Van Loan has been making regular trips to Salem to have his eyes treated.  
Miss Rosa Parrott was a visitor in the capital city Saturday.

District Attorney Belt visited the high school Thursday and made a forceful talk in the interests of the United War Work Fund.

Mr. and Mrs. Wm. Riddell, Jr. went to Portland Friday in response to a long distance telephone call telling of the death of Walter Phillips, a brother of Mrs. Riddell. Mr. Phillips had an attack of influenza, but had apparently recovered when he was suddenly stricken with heart failure which caused his death. He leaves a wife and one child, a father and several brothers and sisters to mourn his loss.

Mr. Theodore Scheffer, of the U. S. Biological Survey in company with Mr. E. H. Gregory, Polk county agricultural agent, visited the Training School Friday in the interest of the campaign against the destructive mole and gopher. Mr. Scheffer explained methods of trapping and how to make traps that catch successfully all kinds of rodents. He told of the work done in other sections under the same plan and by way of enlisting the boys and girls in this service of eradication as a special incentive he mentioned the prizes offered in the contest which began Nov. 11 and ends Dec. 28.

Also the profit from the skins and the bounty for scalps. He demonstrated methods of scalping in a way to retain the skin in a marketable condition. Much interest was manifested among the youngsters, many of whom will take up the work.

A cafeteria dinner was served Saturday evening by the Domestic Science Department of the Normal in their rooms in the Training school basement.

## Hard Rubbing is Wasteful

It does more to ruin clothes on washday than daily wear all week.

Wash with Fels-Naptha. It's economical. Its combination of soap and naptha cleanses so quickly that there's little rubbing to do. And it's so much easier.
