TAXES ON 68 PER CENT OF VALUATION IN 1919

Ratio Fixed By Tax Commission Is Same For Next Year As This Year.

Public utilities in Marion county will pay taxes next year on 68 per cent of their assessed valuation, as that is the ratio fixed by the state tax commission for this county. The ratio is the same for next year as it was this year. The ratio fixed by the tax commission corresponds to the percentage of cash value on which other property in the county is assessed. The commission finds that property in Marion county is assessed on an average of 68 per cent of its cash value. The property of public utilities is assessed by the commission at full cash value and then they pay taxes on the basis of the ratio fixed for each county. Ratios have been tentatively fixed for all but three counties as follows, compared with ratios for this year:

WILSON EXPECTED IN PARIS IN DECEMBER

Miss Margaret Wilson Recently Pair Her First Visit To Paris Playhouse.

Paris, Nov. 22.—(By wireless to New York.)—President Wilson's official entry into Paris is expected to occur the second fortnight in December. At a reception in the Hotel de Ville, he will be presented by the city fathers with a gold medal bearing an inscription expressing the gratitude of "Paris to the sister republic" and to the latter's chief executive. King George and Queen Mary of Great Britain, who are expected to arrive in Paris on November 29, will be greeted with elaborate ceremony. The executive committee of the municipal council is planning the festivities. Miss Margaret Wilson, the president's daughter, paid her first visit to a Paris theater Wednesday night. She was preceded by an escort of American soldiers. When she entered the state box the audience arose and stood at attention.

Emergency National Prohibition Bill Signed

Washington, Nov. 22.—President Wilson yesterday afternoon signed the emergency agricultural appropriation bill with its legislative rider providing for national prohibition from next July 1 until the American army is demobilized. Unless the presidential proclamation under the food control act is rescinded, the prohibition amendment will affect only the manufacture of wine, for the brewing of all beer must cease December 1, under the president's proclamation. The manufacture of whiskey was stopped soon after the amendment entered the war. Under the amendment the manufacture of wine will cease next May 1, and, should brewing of beer be allowed to continue after December 1, it also would stop May 1 under the new law.

RED CROSS ENTERS BRUSSELS

Washington, Nov. 22.—Simultaneously with the German evacuation of Brussels, the American Red Cross created a new relief station and is now carrying on emergency relief work there.

GRAND JURY TO PROBE CHARGE OF WASTE AT PENITENTIARY, ALSO

Will Investigate Parole-Selling Scandal By Orders Of Governor Withycombe.

The probe of the state penitentiary, being made by the Marion county grand jury, will not stop with the parole-selling scandal. It will be broadened to include the entire management of the institution. The jurors, it is said, will seek information as to the part that politics has played in connection with the disturbances which have continually marked the present administration, and as to whether there has been waste and extravagance and, if so, who is responsible for them. This turn in the investigation developed last night when District Attorney Gehlbach received a letter from Attorney General Brown, pointing out that it is the duty of the grand jury to go into the entire management of the prison. You will remember, and the records will disclose, that while we were carrying out the instructions of the governor in making the investigation concerning the alleged barter and sale of paroles and pardons, many complaints were made to the committee, having relation to the administration of the affairs of the penitentiary. The making of an inquiry concerning the management of the penitentiary is beyond the scope of our instruction from the governor; our duty under the instruction was to make a rigid inquiry concerning the charge of extorting money from the inmates of the state's prison. Nevertheless, as law officers of the state, we cannot overlook the plain provisions of the Oregon code referring to the duty of grand juries to inquire into the management of public prisons. Governor Withycombe has stated that there has been extravagance and waste at the prison, and for that reason he has discharged Warden Murphy. It is said the grand jury will go into that question in detail and endeavor to fix the responsibility.

MODEL FARM PROJECT NEAR INDEPENDENCE

Land Settlement Commission Bought 60 Acres To Demonstrate Development.

As a demonstration for land development, the Oregon land settlement commission appointed by the governor has purchased a 60-acre farm near Independence which it will convert into a model farm, equipped with machinery and livestock, to be sold on an easy payment plan to some family which desires to engage in farming. Whitney L. Boise, of Portland, chairman of the commission, and others interested in the plan for breaking up the large land holdings in Oregon into smaller farm units, conferred with the governor yesterday afternoon about the matter.

STATE HOUSE NEWS

The state tax commission has fixed the following assessed valuation on the property of the four express companies in Oregon: American, \$203,749; Great Northern, \$83,280; Northern Express, \$103,503; Wells Fargo, \$272,548. During the past week 558 accidents were reported to the state industrial accident commission. Of that number two were fatal, as follows: F. Auterson, Portland, shipbuilding; Henry Promong, Portland, terminal facilities. The following fatality was also reported, same having resulted from a previous injury: S. Ota, injured Sept. 19, 1918, at Westport, died Nov. 11. Of the total number reported, 510 were subject to the provisions of the compensation act, 24 were from firms and corporations which have rejected the provisions of the compensation act, and 4 were from public utility corporations not subject to the provisions of the compensation act.

Court House News

In the case of O. E. Fletcher against the Fischer flour mills of Corvallis, the plaintiff in reply to the answer of the defendant, admits that he was to buy 1000 barrels of Snowfall flour at \$4.40 a barrel and that he had received 358 barrels. He says that he demanded delivery of the remainder of the 1000 barrels as was willing and did tender the money. That the mill people would not render him a true account for the first delivery of the flour. He asserts that formerly he had had trouble with them and that he had recovered damages on a suit in Multnomah county and that

EXTREMISTS USURP POWER IN GERMANY

Copenhagen, Nov. 22.—Usurpation of power by extremists in several German coast towns has caused the greatest panic in the Berlin bourse in three years. A Berlin dispatch says that representatives of German free states have been invited to a conference with Chancellor Ebert on Monday to arrange cooperation of federal and local administrations.

Political Leaders In Panic Over Possibility Of Approaching Crisis.

Ebert Attempts Trick London, Nov. 22.—German political leaders are reported to be in a panic over the possibility of an approaching crisis. A move to trick the extremists is seen in Chancellor Ebert's efforts to prove that the reichstag is still a legal body, while the extremists are summoning a general workmen's and soldiers' congress. Contributing to the general mixup is the fast developing third party, composed of Centrists, Conservatives and Pan-Germans.
