H. R. PARKS, DIRECTOR OF MINES BUREAU, HERE

Interested In Chrome Ore Industry Which Has Developed As Result of War.

H. R. Parks, director of the Oregon bureau of mines and geology, was here today to enlist the co-operation of Governor Withycombe and Attorney General Brown in upholding the hands of Franklin K. Lane, secretary of the interior, relative to the fight being made by the steel corporation against the minerals control bill recently enacted by congress.

Mr. Parks is interested particularly, just now, in protecting the chrome ore industry which has developed in this state as a direct result of the war. This ore is used in the manufacture of steel, and under the provisions of the minerals control bill the secretary of the interior, who has been appointed administrator of the bill, can protect the industry by shutting down on imports of chrome ore. This would force continued use of the domestic product and give the men who made large investments for the purpose of developing chrome mines opportunity to recover the money they have expended.

Oregon is in position to turn out 50,000 tons of the ore next year, said Mr. Parks. The price has been \$60 a ton. This would amount to \$3,000,000 for this state.

WILSON IS BESOUGHT TO SAVE LUXEMBURG

Grand Duchess Will Take No Share In Government Of Her Country At Present

Washington, Nov. 26.—President Wilson's intervention in behalf of the grand duchy of Luxembourg was besought today in a telegram from the grand duchess. She asked that he save the duchy from the passage of German troops (probably meaning a detachment committed by them) and that he protect at the peace negotiations the rights of Luxembourg as a small, independent free nation. The message was referred to the Versailles council.

Washington, Nov. 25.—Publication of nearly 150,000 casualties of various kinds, remains to be made. Total publication to date amounts to about 85,000.

It is uncertain how soon General Pershing will be able to furnish the government the complete list of names on the casualty list.

They allege that \$2835 was furnished the Chinaman, which amount is still due and that he had contracted to sell 20,000 pounds of hops from the 1916, 1917 and 1918 crops at 11 cents a pound. They ask for \$14,560.00. Mr. Jette is included in the suit as he was to act as trustee for Kin Daw.

Also that the interests of Welch Bros. were inferior to that of the plaintiffs.

GOVERNMENT KEEPS

(Continued from page one)

In striking contrast to this was the action of the San Francisco labor council which Friday voted against a Mooney strike. The council's action, however, did not bind the machinists' union, which voted to strike December 9 and telegraphed President Wilson asking him to intercede once more for Mooney.

Claim Fickert "Framed" Case

Labor's claim for Mooney's life is based upon its firm belief that perjured testimony of Frank C. Oxman convicted him and that District Attorney Fickert "framed" the case against Mooney in an attempt to victimize union labor. They point to the recent dictagraph expose by John Densmore, representing Secretary of Labor Wilson as proof that Fickert "caused a condition of anarchy to exist in the hall of justice," quoting Densmore's report.

The grand jury investigation into Densmore's charges, which started last night, adjourned before any evidence was taken. It will resume Friday morning.

Densmore, in Portland, announced he would return to testify before grand jury.

But some says for the grand jury that it can save Mooney. It is purely an investigation into the methods of the district attorney and others.

Mooney will hang unless Governor Stephens acts, or, and this is considered a long chance, unless President Wilson steps in as commander in chief of the army and takes the case out of the state authorities.
