

I AM GLAD TO ENDORSE PERUNA

Glad to Try Anything

"Three years ago my system was in a terribly run down condition and I was broken out all over my body. I began to be worried about my condition and I was glad to try anything which would relieve me. Peruna was recommended to me as a fine blood remedy and tonic, and I soon found that it was worthy of praise. A few bottles changed my condition materially and in a short time I was all over my trouble. I owe my restoration to health and strength to Peruna. I am glad to endorse it."

PLAN UNDER WAY FOR COUNTY Y. M. C. A.

Carl J. Hollingworth is in the city today from Portland in the interest of the Y. M. C. A. county work program which is being promoted throughout the northwest at this time, upon the direct request of the government, which looks with such favor upon this department of Y. M. C. A. work that it has requested the organization of 1 thousand counties in the United States as rapidly as trained secretaries can be secured to take charge of the work.

Mr. Hollingworth is a special field secretary for western Oregon, working under the direction of John H. Rudd, of Portland, state secretary for county work in Oregon and Idaho. His special mission at this time is to "feel" out the sentiment toward the county

work program in the counties in his district in order that the work of organization may be centered on those counties which are ready to back up the program. For, as he explains, the work can only proceed as fast as competent secretaries can be found and trained for the work.

"The county work program is designed especially for the boys and young men of the smaller towns and the rural communities," explained Mr. Hollingworth. "Through this program we hope to bring to these communities the benefits and privileges of the Y. M. C. A. which have for years been enjoyed by the boys and young men of the larger cities.

"We do not, however, expect to come into these communities with the intention of erecting an expensive building. Neither do we expect to install any elaborate equipment. The county work program of the Y. M. C. A. requires neither building nor equipment. Yet the results attained in the counties of eastern and middle western states, where the program has been in operation for a number of years, have been such as to merit the support of every person who has at heart the welfare of the boys and young men of the community.

"The county work program is four-fold, dealing with the religious, educational, social and physical activities of the community. The success of the program depends in large measure upon the personality of the county secretary, which is one reason for the difficulty in filling these positions. The

STATE OF OREGON Proposals for Supplies

The Oregon State Board of Control will receive sealed bids on December 11, 1918, at 2 p. m., for furnishing supplies to the various state institutions, consisting of dry goods, clothing, furniture, brooms, brushes, hardware, brooms, drugs, stationery, crockery, plumbing, etc. for the semi-annual period ending June 30th, 1919. Specifications and schedules will be furnished upon application to the secretary, at Salem, Oregon, also from the Industries and Manufacturers Bureau, Chamber of Commerce, Portland, Oregon. Each bid to be accompanied by a certified check representing 10 per cent of the whole amount of bid, payable to the Oregon State Board of Control, which shall be held as a guaranty of the faithful performance of the contract. The board reserves the right to reject any or all bids or to accept any part of a bid.

R. R. GOODIN,
Secretary, Oregon State Board of Control,
Nov. 29, 1918, Dec. 4, 1918.

county secretary must, in turn, look to a volunteer trained leadership for the active prosecution of his varied activities.

"The county work program does not pretend to take the place of any organization at present engaged in promoting the interests of boys and young men. To the contrary, it cooperates with the schools, churches, the home, farm organizations and every other existing agency. Its work is largely performed through groups or club organizations and its program covers every form of activity that will make for a well-balanced manhood.

"The program is financed by voluntary subscription—it being estimated that a \$3,500 annual budget will cover every expense connected with the work in a county. The county organization is under the supervision of a committee of farmers, business men and professional men with a trained secretary who is employed to give his entire time to the work."

Mr. Hollingworth was unable as yet to state whether or not an organization would be attempted in this county, this depending altogether upon the response with which his advances are met. He expects to spend several days in this county in consultation with a number of men who are in touch with the situation and whose judgment will determine future efforts toward an immediate organization.
