Since '57!

THE great-great-grandfather of your Robert Burns cigar was made in 1857.

Heavy cigars, of intolerant nature, were then in vogue.

Robert Burns was one of the first to show smokers a way to take the "NG" out of "smoking"—and substitute "OK."

Judging from the way Robert Burns is making friends today, moderation in smoking is an idea that appeals to thoughtful men.

PEACH AGERAGE IN COUNTY IS 338

Tracts Are Mostly Of Small Size Planted On Average Of 111 Trees To Acre.

Although the peach crop generally attracts much attention in Marion county the fact is, from the stand point of acreage, it is the smallest in the county compared to other fruit trees. According to the census taken by S. H. Van Trump, county fruit inspector, there are in the county only 338 acres planted to peaches.

With peaches as the smallest acreage for fruit trees, next in acreage is pears with 358, then cherries with 412, then walnuts with 994, and apples with an acreage of 1335 in the county.

But when it comes to the number of trees, peaches rank second in the county. Apple trees rank first with 73,409, then peaches with 37,335, cherries with 35,089 trees, pears with 30,050 and English walnuts with 24,408 trees.

The corporations going into fruit raising have not seen fit to go into the peach raising game. In fact very few growers seem to feel encouraged enough to go into peaches during the past five years. Mr. Van Trump found only one two-acre tract in the county one year old, only two acres two years old, one acre that had been planted three years, ten acres that were four years old and one four-acre tract planted five years ago. All other tracts are more than five years old.

The largest tract found by Mr. Van Trump is one of 34 acres by L. L. Fink of St. Paul. The next largest is a 30-acre tract, the property of Dr. Or. of Wild. Third in size is one of 25 acres, Clyde La Follette owner. Two tracts were reported with 20 acres each. One of them is the famous peach orchard of Alex. J. Follette who frequently raises peaches when others are in hard luck. The other 20-acre orchard belongs to L. H. McKesson, planted 100 trees to the acre.

Smaller tracts are as follows: Brock Bros. of Silverton, 19 acres; Chas. Schmidt, 15 acres; George W. Overst, 15 acres; L. F. Townsend, 14 acres; Frank Derby, route 8, Salem, 12 1/2 acres; F. J. Chapman, route 8, Salem, 12 acres; E. E. Bengs, Marion, 12 acres; F. E. Evans, 8 acres; S. H. Van Trump, Gervais, 8 acres; T. L. Davidson, rural route 5, Salem, 7 acres, and Frank Flint, rural route 8, Salem, 7 acres.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. Watch the kidneys.

The kidneys are the most overworked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels, causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, high colored or scanty urine, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Go to your druggist immediately.
