Itution of her problems. This could be brought about by the formation of a confederation like America, of all the Russian states.

"This Can Be Realized."

"This is not an unreasonable dream. The bolshevik control about a fourth of Russia proper and a sixth of Siberia, on the basis of population. The balance is composed of independent states which have thrown off the bolshevik authority.

"I believe it is possible to call a general election for a constituent assembly to include delegates from every part of Russia. England and France oppose this because it would restore Russia to her former international position. They opposed my going to America in September because they did not want America to know the truth about Russia.

"Forgetting War Aims."

"The victorious allies are forgetting their idealistic war aims. England and France already have agreed on the division of their spheres of influence in disintegrated Russia.

to help their comrade to his feet, instead of robbing his pockets.

"I appeal to America to remember the good side of Russia's part in the war as well as the unfortunate. Perhaps President Wilson's presence at the peace conference will prevent any brigandage."

Sheriff Reid Besieged With Calls For "Flu" Remedy

Spokane, Wash., Dec. 11.—Following his announcement yesterday that he would turn confiscated booze over to the health department to help fight the flu, Sheriff Reid was besieged with calls from people all over the city who asked anywhere from a pint to a gallon. He explained that only the health department would get the liquor.

13 YEAR OLD GIRL GAINS 34 POUNDS

Mable Montgomery recovers after long suffering by taking Tanlac.

"No one could see the wonderful change that has taken place in our little daughter during the past few weeks and doubt Tanlac being a grand medicine," said Mrs. H. W. Montgomery, residing at 2701 Bristol street, Omaha, Neb., recently.

"Mable is now thirteen years of age," continued Mrs. Montgomery, "and had suffered terribly for five years. One of her troubles was inflammatory rheumatism. Her feet and hands would swell very badly and at times she couldn't walk. She had no appetite suffered with frightful headaches and in place of growing she seemed to be losing ground. She was often in bed for several weeks at a time, and we had to keep her out of school all the past year. She was a very sick child, and although we spent lots of money for medicines nothing seemed to reach her trouble and we had begun to think she would never get well.

"One of our relatives urged us to give her Tanlac, and now you wouldn't take her for the same child. She has actually gained thirty four pounds and looks the picture of health, and to all appearances is perfectly well. She never complains of an ache or a pain nor a disagreeable symptom of any kind. She is brimful of life and ambition now, and enjoys life and play like other children. Soon after she began on Tanlac her appetite came back, and she increased in weight so fast that we were astonished, and the swelling, pain and headaches gradually disappeared. She is now able to enter school again, and we are more than grateful for what Tanlac has done for her. I have also taken Tanlac for loss of appetite, poor digestion and nervousness, and it has done me a world of good. I feel fine all the time, and am glad to say all I can for Tanlac."

Tanlac is sold in standard by Hubbard Drug Co., in Mt. Angel by Ben Goch, in Gervais by John Kelly, in Turner by H. P. Cornelius, in Woodburn by Lyman H. Shorey, in Salem by Dr. S. C. Stone, in Silverton by Geo. A. Steinhilber, in Gates by Mrs. J. P. McCurdy and in Stayton by U. A. Beachamp, in Aurora by Aurora Drug Store. (Adv.)

Wants Investigation Of Ordnance Department

Washington, Dec. 10.—Senator Poindexter, Washington, today introduced a resolution for investigation of the ordnance and quartermaster departments by the senate military affairs committee.

Hinting at questionable activities which he intimated might have delayed production of guns and shells for the army, Poindexter said that "if some traitors and spies had been executed in the early days of the war, the lives of better men might have been saved."

"I want to find out whether treasonable activities have anything to do with delaying manufacture," said Poindexter. "It seems strange American manufacturers, noted for their efficiency, could not have done better unless they were blocked by spies."

Poindexter read published statements to the effect that no American shells larger than three inch caliber had been shipped abroad, and that the supply of three inch shells was never large enough to provide an adequate reserve.

Regarding the quartermaster's corps Poindexter said he wanted to find out the quality and quantity of clothing and equipment on hand.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If Cross, Feverish Or Bilious Give California Syrup Of Figs.

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath sore throat, full of cold, give a teaspoonful of California Syrup of Figs, and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative" because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of California Syrup of Figs, then see that it is made by the California Fig Syrup Company.
