McGILCHRIST & DIRECTOR

BUSINESS DISTRICT TO LOOK LIKE CHRISTMAS

Merchants Will Spend \$200 In Street Decorations—Favor 6 O'Clock Closing.

The business section of the city will soon take on a holiday appearance with 17 blocks decorated with Christmas trees, holly, decorated lamp posts and the front of stores festooned in all sorts of holiday green.

At a meeting last evening of the Business Men's League of the Commercial club, representative business men agreed to go down in their pockets and each contribute \$5 towards giving Salem a really distinct holiday appearance.

It was figured that about \$200 would be necessary with which to purchase fir trees and have them planted in cement blocks along the streets of the business district on Commercial street from Ferry to Chemeketa, on Court from Commercial to High street, on Liberty between State and court and on State between Commercial and High street.

In addition to the fir trees that will adorn the business section, business men agreed to do their utmost to decorate their stores both outside and inside with holly and fir branches.

A committee appointed by chairman C. S. Hamilton, consisting of E. H. Choate, Wm. Gahldorf and Hal D. Patton was out this morning soliciting decoration funds from merchants and everywhere found the most willing cooperation.

In regard to closing hours before Christmas, the general feeling was that very little business if any would be done after 6 o'clock in the evenings. With this view the larger merchants of the city will not remain open even for the Monday and Tuesday nights before Christmas. The feeling is that people favor early closing and will support the merchants who close early.

Alleged fake advertising came in for some attention and William Gahldorf was appointed a committee of one to confer with the district attorney in regard to the advertising laws of the state.

PORTLAND BREAD IS KNOCKING AT DOOR

Seems Home Made Bread Will Have Some Competition --League Opposes.

The ever big problem of urging Salem folks to patronize home industries came before the Business Men's League at the meeting last evening at the Commercial club.

This time it is that of patronizing home industries in the way of buying Salem bread and not that made in Portland. It seems that a Portland bakery is about to make an attempt to corner some of the bread business of the city and just as a means of breaking in is willing to give away a lot of coupons for free bread. Then the women who get the free coupons are supposed to call at the grocery stores and make

Indoor Golf Playing To Be New Sport In Salem

Golf players who are anxious to keep in swing, yet not quite so anxious to play in the "soft" Irish weather so common about this time of year, will now have a fine chance to swing their clubs safe from overhanging clouds and the moisture of the Willamette valley.

At the annual meeting of the Country club last evening, held at the Commercial club, it was decided to establish indoor golf playing. This is done by securing a room in the business district, putting in a sloping floor and with a canvas at one end, smash away at the balls, with the assurance that the balls will return to the player, thus eliminating the expense of an in-door course.

To create interest in golf a turkey tournament will be held next Sunday. The turkey will be five and according to some low scores made last Sunday, the player that wins one of the national birds will also have to be up and accounting.

Officers elected for the Country club last evening are as follows:
 Homer H. Smith, president.
 Curtis R. Cross, vice president.
 W. H. Burghardt, secretary.
 T. A. Lavesley, director.

The links are said to be in fine shape and everything points to a most prosperous golf year. It was also voted to hold the regular New Year's dance.

Frank Finch Found Dead At Own Hands In 'Phone Booth

Portland, Ore., Dec. 11.—When Miss Nellie Johnson of Barton, Ore., stepped into a telephone booth here yesterday evening she changed her mind about calling for a number, for she found a dead man in the compartment.

Frank W. Finch, aged 45, local grocery clerk, had chosen to suicide in the booth, located in the interurban depot of the Portland Railway, Light and Power company. He wrote this note before using a revolver:

"I do this to protect my dear, darling family. Will society help them and God forgive me."

Finch leaves a wife and five children.

Little Interest Manifest Today In Money Market

New York, Dec. 11.—Little interest was manifested in the money market today. Commercial paper was discounted

HOW TO USE VICK'S VAPORUB IN TREATING SPANISH INFLUENZA

The Influenza Germs Attack The Lining Of The Air Passages. When VapoRub Is Applied Over Throat And Chest The Medicated Vapors Loosen The Phlegm, Open The Air Passages And Stimulate The Mucous Membrane To Throw Off The Germs.

In Addition, VapoRub is Absorbed Through and Stimulates the Skin, Attracting the Blood to the Surface and Thus Aids in Reducing the Congestion Within.

CALL A PHYSICIAN—GO TO BED—STAY QUIET—DON'T WORRY

There is no occasion for panic—Influenza itself has a very low percentage of fatalities, not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally patients in a Run Down Condition—Those Who Don't Go to Bed Soon Enough, or Those Who Get Up too Early.

Spanish Influenza, which appeared in Spain in May, has all the appearance of grip or la grippe, which is swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

THE SYMPTOMS

Grip or influenza, as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—these is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe cold.

THE TREATMENT

Go to bed at the first symptoms, not just for your own sake, but to avoid spreading the disease to others—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Quinine, Asperin or Bayer's Powder, etc., may be administered by the physicians, directions to relieve the aching. But there is no sure or specific for influenza—the disease must run its course, but nature herself will throw off the attack if only you keep up your strength. The chief danger lies in the complications which may arise, influenza weakens the bodily resistance that there is danger of pneumonia or bronchitis developing and sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong stay in bed four days or more, according to the severity of the attack.
