No Luck for Him

This child won't play or smile. He is real sick. His tongue is white, breath feverish, stomach sour. He fears he is in for a dose of awful castor oil, calomel or pills. How he hates them. He would rather remain sick. No! He won't tell mother! If his mother would only learn the value of candy "Cascarets." How children love this candy cathartic-how surely it acts on liver and bowels.

TO MOTHERS! Each ten cent box of Cascarets contains full directions for dose for children aged one year old and upwards. Nothing else "works" the nasty bile, sour fermentations and constipation poison from the tender little bowels so gently, yet so thoroughly. Even cross, feverish, bilious children gladly take Cascarets without being coaxed. Cascarets taste just like candy. Cascarets never gripe, never sicken, never injure, but above all, they never disappoint the worried mother.
