**Costs Marion County \$82 Day To Care For Its Poor**

The county of Marion is paying out each year about \$30,000 for the indigent of the county and for widows' pensions, Judge Bushey said today.

Ten years ago, the poor of the county was costing it not quite \$8000 a year, but since the 1913 legislature passed the widows' pension bill, the cost to the county has been gradually mounting.

Judge Bushey did not attribute the increasing bill of the county for its poor to the widows' pension bill but to the fact that so many indigent people have come from the east and have become wards of the county.

The widows' pension bill was first passed in 1913, later repealed and a new law enacted by the 1917 legislature. If a widow has no property in excess of \$500 and has children, by the law she is entitled to some support for every child under the age of 16 years, until the maximum reaches \$40 a month. For the first child, the widow is allowed a pension of \$10 a month and for other children at the rate of \$7.50 a month, up to \$40 a month. In payments of the widows' pension bill and for its poor, the county is paying out more than \$82 a day.

**PVT. D. R. OLIVER  
IN THE BIG FIGHT  
Went All Through The Argonne Forest; Helped Capture Machine Gun.**

The following letter from Private Busl D. Oliver to his father, John L. Oliver of rural route 1, Salem, tells of how some of the boys feel in France. The letter is dated Nov. 24, 1918, and is as follows:

"As every soldier is supposed to write to his father, I will write again, although it has not been many days since my last letter.

"I have been marked duty so will be back to my company in a few days, that is, if they have not been filled up with replacement troops since I have been gone.

"Base hospital No. 17 is located at Dijon, France, and is in the central and southern part and is a city, about four times as large as Salem. The annex were I am in out about three miles. I suppose you read of the great American drive on the Argonne forests front and the Verdun front. That was where I was. It was rough and heavily wooded country and a hell of a place to fight but we did not give any ground to them.

"The division I am with is a New York bunch of the 77th division. You probably have read of the lost battalion which was cut off from the Americans for a few days. It was part of our division on the Argonne.

"The fourth day of the big drive two fellows and I captured a German machine gun and 6000 rounds of ammunition. I got the goggles worn by the gunner and a piece of the gun but when I stripped off my pack and started for the first aid station.

"When we came across the Atlantic we were 12 days with 14 ships in our convoy. One cruiser and one torpedo boat destroyer were with us all the way but when we were out about 300 miles from the English coast, a convoy of 14 cruisers, submarine chasers and torpedo boats met us. So we had plenty of protection. Those little submarine chasers would work back and forth in front like a bird dog hunting for China pheasants and they kept it up until we landed at Liverpool.

"From Liverpool we went to Winchester, England, and from there to Southampton, England, and then crossed the English channel on the Howard an old Pacific coast steamer and landed at Le Havre, France, and then it was one little camp to another until I am resting easy at last.

"I have been detailed to help in the hospital pharmacy. I do not know how long we will remain in France. It may be for two or three weeks or it may be for two or three months. Some of the fellows in class B and C are leaving today for somewhere, maybe the U. S.

"We have a big white frost here nearly every morning which makes a fellow step lively. Well, must close as it is dinner time. Will have roast mutton, brown gravy, baked potatoes, creamed corn, lemon pudding, bread and lemonade, which I will do justice to."

**FRANCE IS TRAINING  
MEN INJURED IN WAR**

**Mutilated Soldiers Are Taught In Schools To Earn Their Livelihoods.**

New York, Dec. 25.—How France, with the aid of benevolent Americans, is making it possible for men mutilated in the war to earn good livelihoods and be independent of charity, was told here today by Bernard J. Shoninger, former president of the American Chamber of Commerce in Paris. He is in America for a brief stay.

Shoninger, as president of the Union of Foreign Colonies of France had much to do with starting the schools for mutilated soldiers. He says about 1,700,000 Frenchmen were severely crippled in the war.

Schools were started throughout France for these cripples while the first of the men were waiting for their artificial limbs to be fitted," said Shoninger.

**Return to Occupations.**

"We tried as far as possible to have the men returned to his former sphere of activities if his physical condition would permit. Often he felt that he could not return to his former occupation. One example of this is a tailor whose right arm was amputated. We talked him into trying to learn to sew with his left hand. After 4 weeks he could make a pair of trousers and in 2 months he made a suit of clothes and in 3 months he returned to Algiers, to reopen the tailor shop that he had closed when the war started.

"We graduated from our schools about 5000 for all of whom were found situations. We obtained a generous amount of money from America in the very beginning. Most of it thru the influence of Mrs. Edmund L. Baylies, chairman of American committee, and it was due to her efforts that several millions of francs were sent to France. It was Mrs. Baylies who interested Edward T. Stotesbury of Philadelphia, who founded one of our schools and has turned the money over annually to it since 1915, amounting to about \$75,000 a year for the running of that school alone.

**Regular Institutions**

"These are not small schools, but regular institutions comprising several buildings, for example, we teach all trades that would be used in any small country town or village, such as those of cobbler, carpenter, cabinet maker,

**MILITARISTS IN EXILE**

Berlin, Dec. 24.—The former Kaiser's chief supporters of militarism are, like himself, in exile. Ludendorff is hiding in Sweden, while Von Trepitz fled to Switzerland. Von Papen, former military attache at the German embassy in Washington is supposed to be in Constantinople and Hoyed, former naval attache in the United States has returned to a Baltic island.
