TREADWELL DETAINED

Washington, Dec. 26.—State department advices today confirmed the reports that Consul Treadwell is detained by the bolsheviks in Turkestan. While he has not been in jail, he is kept in his room and is not allowed freedom. The department is informed that Treadwell has not been ill treated so far.

PRISONERS REPATRIATED

Washington, Dec. 26.—All French prisoners will be repatriated within two months. Paris has informed French representatives here. Since the armis-

tice, 277,000 men have been brought home and less than 200,000 still are in enemy countries.

FOR VOLUNTARY SERVICE

Washington, Dec. 26.—Secretary of War Baker today requested congress for legislation to allow the continuation of voluntary enlistments in the regular army.

The war department soon expects to be releasing men at the rate of 200,000 a week, Baker explained in his letter to the house military committee.

Major-General Johnston Tells About Creditable Work of Oregon Soldiers

Many Men Of 91st Division Have Been Given Medals Attesting Their Bravery.

Official word of the splendid account given of themselves by the Oregon soldiers in France, who are a part of the 91st division, is contained in a letter received today by Governor Withycombe from Major General William H. Johnston, commanding that division.

This division is one of the 30 combat divisions designated to remain in France for further training and possible service, points out Major General Johnston.

"It is marching cheerfully toward its new field of duty," he adds.

"I cannot with it injustice refer to the creditable service of any individual, as mention of the exploits of any would be unfair without reference to all," he continued. "No letter could well recount all the heroic and meritorious acts under hostile fire because of which it has been my very agreeable duty to recommend the award of the Medal of Honor to a few, and of the Distinguished Service Cross or Distinguished Service Medal to others.

Creditable Record.

"It gives me pleasure to assure you, and through you, the people of the state of Oregon, that representatives of that state have contributed towards the creditable record established by the 91st division since it was called to participate in the recent advance of the armies of the United States and the allies. Your citizens' sons, after one year's training, did not hesitate to attack western divisions of the Prussian Guard in the Meuse-Argonne offensive, before the general retreat of the enemy began. They continued to attack until withdrawn by the corps commander to rest and replace casualties.

"The same spirit animated them when they advanced through Belgium to expel the invader. I feel sure the same courage and efficiency will characterize their service in the future, should any orders require action. Finally, I believe that all, when discharged to resume the pursuits of peace, will be more valuable citizens of the state of Oregon because of their service in the army and their contribution toward the restoration of peace throughout the world."

Gives Account.

Major General Johnston gives an account of the movements of the 91st division, and says: "As citizens of the state of Oregon were assigned to the 91st division when it was organized at Camp Lewis, Washington, August, 1917, and received their military training at that place prior to departure overseas in June, 1918, it gives me pleasure to furnish you the following information concerning the service of the 91st division since its arrival in France, July, 1918.

"The division, less 160th field artillery brigade, received additional training while billeted in Haute-Marne department, with headquarters at Montigny-le-Roi, until September 9, 1918.

"The 160th field artillery brigade was sent on arrival to Clermont-Ferrand, Puy-de-Dome department, for additional training. I have not since rejoined the division and I have no information as to its service.

"Proceeding by ferry rail and marching to the vicinity of Pagny-sur-Meuse and Void, Meuse department, this division was a part of the reserve of the First American Army, General J. J. Pershing, during the action at St. Mihiel salient, September 12-13, 1918, but was not employed to support or re-enforce divisions then in the first line.

Made Great Advances.

"Proceeding by bus and marching for several nights, the division reinforced by the 58th Field Artillery brigade, and certain units of French field artillery, participated in the initial offensive between the Meuse river and the Argonne forest as a portion of the Fifth Army corps, Major General Geo. H. Cameron. The advance was made from Forêt de Hesse, just north of the Clermont-Verdun highway, and east of the celebrated hill of Vauquois, at 5:30 o'clock, September 26. The division (less 58th Field Artillery brigade) was relieved from the front line October 4, and placed in reserve of the Fifth Army corps. On October 6th, the 181st Infantry brigade was returned to the line and fought under the 1st division and 32nd division until relieved to rejoin the division, October 12.

Fought in Belgium.

"Proceeding by rail and marching to Belgium October 16-20, the division, reinforced by the 53rd Field Artillery brigade, 28th division (Pennsylvania N. G.) was assigned to duty in the Group of Armies of Flanders, commanded by the king of Belgium, Major General Dep'nte, chief of staff. In that group it was assigned to the French Army of Belgium under Major General DeBoisoudry and to the 7th Army corps (French) under Major General Massenet, advancing in line with French, British and Belgian troops as the enemy was driven eastward through Belgium.

"Its most active service in Belgium was had during the advance from the Eys river to the Scheidt river, October 30-November 4, capturing the city of Audenarde, November 1. Later, it was attached to the 30th Army corps (French) under Major General Penet. With such corps it advanced west of the Scheidt river towards Brussels, until the advance was interrupted by armistice, November 11."

AIR MAIL ROUTE PRACTICABLE

San Diego, Dec. 26.—An aerial mail route between San Diego and San Francisco is practicable, Lieutenant S. H. Sharpe declared today. Sharpe led a party of aviators who charted a route between the two cities, arriving here late yesterday.

The aviators were guests at a luncheon given by the chamber of commerce today. They expect to start on the return trip to San Diego late today.

OLD-TIMERS TELL HOW WORK WAS FURNISHED MEN AFTER CIVIL WAR

But Government Land Is More Scarce Now Than In Old Days Of '65.

Topeka, Kan., Dec. 26.—As the Kansas boys begin to come back from the war, and the problem of placing them on the Kansas farms, already pretty thickly populated, is considered, the boys' fathers are telling how it was done when they returned from the war, following demobilization of the Union army.

The conversation usually leads to the conclusion that there is no land left in Kansas for settlement by the returning soldier who has little besides his strength and determination as capital.

There is some land still unhomesteaded in the extreme western part of the state, but it is not suitable for farming, and it is not suitable for a living man who needs to farm for a living could afford to do the irrigating. It would have to be undertaken with public money, and it is fairly certain that there won't be a lot of public money available for the purpose when the boys get home, as they already are getting home.

Will Reabsorb Soldiers

The farms from which most of the Kansas boys went will reabsorb most of them without much difficulty, just as most of the rest of the country will reabsorb most of its quota of soldiers, leaving the unemployment problem not much worse than it was before the war, without the use of public money, and it is fairly certain that there won't be a lot of public money available for the purpose when the boys get home, as they already are getting home.

When the boys came back from the civil war, Kansas was practically all virgin prairie, and the homestead law offered the returning troops such inducements to take up claims in the new country that they swept into the state like a flood. Kansas had sent to the Union army more soldiers than she had voters, without the use of an inscription. When those who were left alive from the 16 Kansas regiments returned, they were accompanied by tens of thousands of strangers who had fought for the Union.

Many Returned East

The Kansas state historical society estimates there were 150,000 war veterans in the state in 1885. Other thousands had come and gone during the 20 years between the close of the war and that date. Many had been chased back east during the first few years of their settlement by armies of grasshoppers that foraged the country much more thoroughly than any of the boys in blue had foraged the invaded south.

Kansas was distinctively a soldier state. With the energy and enthusiasm of returning conquerors who had been given a chance, they broke out the prairie, built roads, made their humble homes, and turned a desert of coarse grass into a garden empire. The land some of the late comers paid \$5 an acre for now sells for from \$250 an acre up. There were no bolsheviks among those returning soldiers, and nobody worried about the social, economic, or industrial unrest that might follow their demobilization. There was land enough for all, and the terms were most liberal. Their only unrest was that caused by rain dripping through their shanty roofs.

Many Old Soldiers

In 1881, when the old soldier rule was practically complete in Kansas, 99 per cent of the legislators was composed of old soldiers, and the same class of citizens held practically all the city and county offices in the state. The old boys have retired from most of the public offices now, and are ready to turn them over to the new returning army. Meantime the men who were too young for the first war and too old for the last one, and perhaps had their hands in the little Spanish-Philippine episode, have been helping the old boys hold on till the young fellows get back from Germany.

GREY WILL SEE WILSON

London, Dec. 26.—Viscount Grey, former secretary of state for foreign affairs, will lead a deputation from the league of nations union which will call on President Wilson at the American embassy Saturday.

SAFE, GENTLE REMEDY BRINGS SURE RELIEF

OLD-TIMERS TELL HOW WORK WAS FURNISHED MEN AFTER CIVIL WAR

For 200 years GOLD MEDAL Haarlem Oil has enabled suffering humanity to withstand attacks of kidney, liver, bladder and stomach troubles, and all diseases connected with the urinary organs, and to build up and restore to health organs weakened by disease. These most important organs must be watched, because they filter and purify the blood; unless they do their work you are doomed.

Weariness, sleeplessness, nervousness, dizziness, backache, stomach trouble, pains in the joints and lower abdomen, difficulty when urinating, rheumatism, sciatica and lumbago all warn you of trouble with your kidneys. GOLD MEDAL Haarlem Oil Capsules

are the remedy you need. Take three or four every day. The healing oil soaks into the cells and lining of the kidneys and drives out the poisons. New life and health will surely follow. When your normal vigor has been restored continue treatment for a while to keep yourself in condition and prevent a return of the disease.

Don't wait until you are incapable of fighting. Start taking GOLD MEDAL Haarlem Oil Capsules today. Your druggist will cheerfully refund your money if you are not satisfied with results. But be sure to get the original imported GOLD MEDAL and accept no substitutes. In three sizes. Sealed packages. At all drug stores.

POSES SCOUR ARIZONA FOR ESCAPED CONVICTS

Phoenix, Ariz., Dec. 26.—Poses headed by sheriffs of four counties are scouring the border for J. C. Wunder and Emmet Daniels, convicts who escaped from the Florence, Ariz., penitentiary Monday night, induced two girls to take a joy ride with them in a stolen automobile and then made their escape in the direction of the Mexican border.

A note dropped by Laura Foreman, 17 years old daughter of a Florence cattleman, one of the kidnaped girls, asking help, is the only clue the officers have. A strict border watch is being kept between Nogales and Douglas.

NEGRO SOLDIERS LOOT.

New York, Dec. 26.—Seventy-five negro soldiers, members of the quartermaster's corps and the Fifteenth infantry, are under heavy military guard at the army building in Brooklyn today after having looted several saloons and starting a near riot late last night. The saloon men refused to serve men in uniform whereupon they helped themselves. Police were called but being unable to cope with the situation they notified the quartermaster's department, which sent military police to quell the negroes.

TACOMA TRAGEDY.

Tacoma, Wash., Dec. 26.—After slashing the throat of his sweetheart, Annie O'Toole, with a pocket knife in the girl's room at the Pacific avenue hotel today, Private James Carner of the 142nd Spruce division walked to the railroad tracks nearby and inflicted serious wounds in his own throat. He was rushed to a hospital where it was said he will recover.

Carner attacked the girl, who is not seriously hurt, following her refusal to marry him, she told the police. Carner's home is at Corveta, Okla., and he had been working in a spruce camp near Preese, Oregon.

START RETURN TRIP

San Diego, Cal., Dec. 26.—Two Mathers Field airplanes, now at the North Island field, will start on their return trip to Sacramento Saturday, it was announced at the army headquarters today.

LEGAL NOTICE.

SHERIFF'S NOTICE OF SALE

Notice is hereby given, that by virtue of an execution duly issued out of the circuit court of the state of Oregon, for the county of Marion and to me directed on the 10th day of December, 1918, upon a judgment and decree duly rendered, entered of record and docketed in and by said court on the 3rd day of December, 1918, in a certain suit then in said court pending, wherein B. F. Ramp, as executor of the last will and testament and estate of Mary A. Ramp, deceased, was plaintiff and Henry H. Vandevort and Emma Vandevort, his wife, and John S. Beall and Elma H. Beall, his wife, and R. W. Foster, unmarried, were defendants in favor of plaintiff and against said defendants by which execution I am commanded to sell the property in said execution and hereinafter described to pay the sum due the plaintiff of \$2000, with interest thereon at the rate of 7 per cent per annum from the 3rd day of August, 1916, until paid and the further sum of \$150.00 attorney's fees together with the costs and disbursements of said suit taxed at \$24 and costs and expenses of said execution. I will on Saturday the 18th day of January, 1919, at 10 o'clock

EXECUTOR'S NOTICE

Notice is hereby given that the undersigned, by virtue of an order of the county court of Marion county, Oregon, duly made and entered of record on the 11th day of December, 1918, was appointed executor of the estate of John A. Darby, deceased, and that he has qualified as such. All persons having claims against said estate are hereby notified to present the same, duly verified as required by law, at the office of Smith & Shields, attorneys, 403 S. 4th Street, Marion, Oregon, within six months from the date of this notice.

Dated and first published this 19th day of December, A. D. 1918.

W. L. NEEDHAM, Sheriff for Marion county, Oregon. By O. D. Bower, Deputy. 1-16

NOTICE OF HEARING

Notice is hereby given that the final account of Inella Darby, administratrix of the estate of John Darby, deceased, has been filed in the county court of Marion county, Oregon, and that the 6th day of January, 1919, at the hour of 10 o'clock a. m., has been duly appointed by said court for the hearing of objections to such final account and the settlement thereof, at which time any persons interested in said estate are hereby required to appear and show cause, if any they have, why said final account should not be allowed and approved by said court. Dated November 27, 1918.

LUELLA DARBY, Administratrix of the estate of John Darby, deceased. 1-3

IN THE COUNTY COURT

of the State of Oregon for Marion County

In the matter of the estate of Henry D. St. Helen, deceased. Notice of hearing of final account.

To all persons interested in the estate of Henry D. St. Helen, deceased: You are hereby notified that on the 3rd day of December, 1918, Elizabeth I. St. Helen filed in this court her final account as executrix of the estate of Henry D. St. Helen, deceased, and that said final account will be heard by this court on Monday January sixth 1919, at the hour of ten o'clock a. m. of said day or as soon thereafter as the court can hear same, in the room of the county court at the court house in Salem, Marion county, Oregon, and you are hereby cited to appear at the time and place above designated and show cause if any exist why said final account should be discharged from her trust.

Dated this 3rd day of December, 1918

W. M. BUSHEY, County Judge.

Donald W. Miles, Attorney for executrix, U. S. National bank bldg., Salem, Or. 1-3

VIEW OF TREVES WHERE PRESIDENT WILSON SPENT CHRISTMAS. (c) Underwood & Underwood

A BIT OF POPULAR SCIENCE

Odd Things In Scientific Circles

By A. Scientist

Camera Built Like a Pistol.
WELL-KNOWN manufacturing company has done much in recent years to introduce a camera which is designed especially for the purpose of the aviator. Its appearance is entirely unlike anything which has preceded it in the camera line, for it resembles a large pistol and is handled in much the same manner as the weapon. It is supplied with a sighting apparatus, trigger and a hand-hold, and when it is desired to make an exposure the instrument is held in the same manner as a pistol. The trigger operates the mechanism of the shutter, and because of the ease in handling the operator is enabled to sight and focus with ease from his somewhat restricted location, and with greater assurance that he will get exactly the result he desires.

Mined 600,000,000 Tons of Coal.
Last year the United States mined 600,000,000 tons of coal, the greatest production ever witnessed in the world. Of this amount we wasted 150,000,000 tons, or 25 per cent, through inefficient use.

Detachable Sleeves.
In our climate some rapid changes of underclothing are demanded by the variety of weather which we experience, often jumping from one extreme to another in the course of a few hours, and under these conditions the presence or absence of sleeves on the underclothing means much. A new design of shirt for women principally has detachable sleeves so that the sleeves may be donned or dispensed with in short order and without much inconvenience.

Texas.
The state of Texas is assisting in the reclamation of 2,000,000 acres of overflow lands which lie along the principal rivers, but which have heretofore been of little value. Protection against overflow will increase their value tenfold.

Telephone Discount.
When a telephone subscriber in Lincoln, Neb., goes on a vacation, or otherwise has no use for his phone for a temporary period of more than 30 days, the company will, upon request, make a special discount rate during the discontinuance of service. This is half the regular rate, and a valuable feature is that when a disconnect rate phone is called the call is taken by an information operator, who states that the party called is away from home and tells where he is staying, also when he expects to return, this information being kept in a card index in the exchange.

Electro-Chemical Works.
A syndicate of French-American capitalists is said to be establishing a company for the purpose of erecting electro-chemical works in the Telemarken district of Norway.

Spectacles Help Hearing.
The ear trumpet has been combined with the spectacles, so that this useful article will hereafter answer a double purpose for those whose ears as well as eyes are in need of a little assistance in the performance of their functions.

The frames of the spectacles are made slightly heavier, and on each of the side bows these is mounted a miniature ear trumpet, with its mouth exposed to the front, while the narrowing end is turned into the ears of the wearer.

Use of Cotton Thread.
The use of cotton thread was a wartime measure to conserve the linen. The change occurred during the activities of Napoleon Bonaparte.

Scabbard on the Ice Pick.
In order to be effective, the ice pick must be sharp and, therefore, an effective ice pick is always a source of danger around the household. Children obtaining possession of it are more or less liable to injure themselves or their companions, so that the ice pick is barred from some domestic establishments, notwithstanding the fact that it is an extremely useful piece of kitchen furniture. In a new device of this character the dangerous point is sheathed within the handle when it is not in actual use.

Stronger Than Steel.
That rubber is in certain respects stronger than steel is indicated by a unique test made at the Diamond tire factory. A sand blast under enormous pressure was blown on a piece of rubber and a piece of steel. The rubber actually outwore the steel three to one.

Ancient Iron.
In the Old World the art of smelting ores was discovered about 1,200 B. C. It has sometimes been suggested that iron tools and weapons may have been made at an earlier period from meteorites, and recently a considerable amount of evidence in behalf of this hypothesis has been presented by Mr. C. F. Zimmer.

He has compiled a list of the known iron-containing meteorites, nearly all accumulated within the past century, and he shows from these alone about 250 tons of iron might be obtained. Of this amount more than 99 per cent is malleable, consisting of a nickel-iron alloy.

Electric Shoe Drier.
An electric shoe drier is now being introduced in shoe-shining parlors, money maker, says Popular Science, for which is a time saver, and therefore it can be employed to dry one shoe while the attendant is polishing the other. It is provided with a small motor-driven fan that forces a strong blast of air through a tube-like mouth directly onto the shoe. The drier is held in place by an iron arm that can be quickly attached to the foot rest. Current is obtained through a cord from any light socket. The little machine weighs only two pounds.
