Easy to Make This Pine Cough Remedy. Thousands of families swear by its prompt results. Inexpensive, and saves about 50c. You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose. Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain granulated sugar syrup. To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and very pleasant—children take it eagerly. You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membrane—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Spleenitis, too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs. Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Grain Is Suffering From Freezing Weather. (Capital Journal Special Service) Victor Point, Jan. 7.—The repeated frosts are treating the grain cruelly. This weather also seems to be retarding the influenza germ. Keep away from the cities and their crowds now if you want to remain well. Take care of yourself—do not expose yourselves to avoidable dangers. It pays in the end, and that grand motto you risked seeing or that unnecessary business trip you made will profit you little if the epidemic lays her fatal hold on you.
