**CITY WILL AID RED CROSS IN FLU CASES**

Beginning Monday, Salem Hospital Will Be Used For Influenza.

At a special called meeting of the city council last evening, it was unanimously voted to aid the Red Cross in handling emergency cases of the influenza and to render financial assistance.

There is still a demand for nurses and last evening Red Cross headquarters at Seattle was telegraphed for two more. Up to last night the Red Cross had been unable to supply the demand.

The emergency hospital near the Salem hospital now has 13 patients, the capacity of the building.

Yesterday 17 new cases were reported bringing the total number of quarantined houses up to 186. It is thought there is an average of two to each house.

**Use For Emergency Hospital.**  
Acting upon the suggestion of Dr. E. E. Lee Steiner, the state board of control today extended to the city the use of the Salem hospital as an influenza hospital, beginning next Monday, at which time the state will receive possession of the property from the Salem Hospital association.

Dr. Steiner informed Mayor Albion of this offer today and it is expected that this will greatly relieve the situation for hospital accommodation for "flu" patients.

The present "flu" emergency hospital is filled and more than 20 other patients are clamoring for admittance.

The state will provide more beds for the Salem hospital so that 50 or more patients can be cared for.

The Spa will serve special chicken dinner from five to eight Sunday evening.

**CITY FATHERS WON'T BOTHER LAW MAKERS ABOUT FLU TROUBLES**

However They Will Take Jurisdiction Over Hangers-On, Known As "Thurd House."

The city council feels that possibly the state legislature is bigger than the council and for that reason is not inclined to tell the law-makers just what they should or should not do. This developed at a special meeting of the council held last evening at the call of Mayor C. E. Albion.

There is one thing the council feels competent to tackle and that is what is commonly known as the "Thurd House." This includes hangers-on and the general collection of folks who have jobs with the legislators and those who make their headquarters in the corridors to button hole legislators in favor of some special legislation. It is this crowd that the council feels it is entitled to tell to "move on."

As to whether the members of the legislature would bring any cases of influenza, Dr. P. L. Utter, chairman of the health board thought it was a 50-50 proposition with the law-makers taking away as much as they brought in.

To co-operate with the Red Cross in securing nurses, a committee was appointed consisting of Paul Johnson, Otto Wilson and Dr. P. L. Utter. There was also a feeling that the 100 or more school teachers who are not very busy at present might be utilized as a force to assist in combatting the present troubles. That is, they might receive cases and occasionally help families in trouble. It was suggested that a conference be held with Superintendent John W. Todd in regard to utilizing the teachers.

While conditions were not thought to be so bad in Salem and really slightly improving, attention was called to the fact that while the public wants everything thrown wide open again, such a condition would bring the people here from Stayton, Independence and Silverton where the influenza is raging.

It is probable that the board of the Salem hospital will take some immediate action regarding the building of at least a temporary structure on the hospital's property adjoining the present location of the sanitary hospital. The board will decide between building just a temporary structure or one that could later be used as headquarters for nurses when the city decides to build a real up to date hospital.
