HIGHWAYS COMMITTEE VOTES BOND ISSUE OF TEN MILLION DOLLARS

To Be Financed By Auto License Tax And One Cent Per Gallon On Gasoline.

With but one dissenting vote, the senate committee on roads and highways last night voted in favor of introducing a bill providing for a \$10,000,000 road bond issue, to be financed by doubling the automobile license tax and placing a tax of one cent a gallon on gasoline and distillate.

On motion of Senator Lachmund, the committee also tentatively approved a provision that no royalties should be paid for pavements, and that bids shall be accepted only on plans and specifications prepared by the state highway commission.

These provisions are aimed at the patented pavements and at paving concerns which are always presenting their own specifications as a basis for their bids.

Another feature tentatively approved by the committee was that the money be spent first in completing the Pacific highway, from the north to the south boundary, of the state, and the highway running from Portland to the Idaho line at Ontario, and next in building secondary trunk lines and last in building feeder roads.

Smith of Coos Opposed.
 Senator Smith of Coos county was the one who opposed the \$10,000,000 bond bill, as he insisted that \$6,000,000 was enough. He declared that the people of the state would not vote for a \$10,000,000 bill, and that prompted Senator Rittner to say he was prepared to attach an emergency clause to a \$10,000,000 bonding bill, as he deemed it the patriotic duty of the legislature to provide funds for a large road building program as a means of furnishing employment to returning soldiers.

This same thought along patriotic lines was expressed by Senators Hurley and Norblad and Orton, while Senator Handley favored the proposed size of the bond issue but on purely road building business basis. He said the soldiers were not looking for jobs building roads.

The committee will invite the house committee on roads to meet with them in joint session to consider road legislation, and members of the highway commission and the state engineer will be asked to come before the committee for the purpose of furnishing all the information and suggestions possible.

State House Notes

 In the Corporation department the Graham-Watt Clothing company, of Astoria filed articles of incorporation for \$25,000. There will be 250 shares of stock at \$250 each.

The Inter-State Garage of Portland filed articles of incorporation with \$1,000 stock. Shares will be \$10 each.

The company will operate a steamboat service on the Willamette river, lease docks, operate vessels and have authority to carry on a river transportation business. The articles of incorporation also permit the company to purchase real estate and dispose of personal property. The articles of incorporation provide for a capital stock of \$1,200.

Slight Expansion In Today's Stock Market
 New York, Jan. 16.—The evening Sun financial review today says:

There was a slight expansion in business in today's stock market, but it was an expansion due to increased activity in a limited number of specialties rather than to any reflection of greater interest in the general list.

Even Bethlehem Steel B, which has moved contrary to the rest of the group gained more than a point; Crucible Steel went up two points and Sloss Sheffield, three. Baldwin Locomotive was likewise strong, though the other equipment shares were either merely firm or actually weak, American Car and Foundry for example.

Trading Was Brisk In Portland Yards
 North Portland, Jan. 15.—Monday and Tuesday brought 130 cars of stock to the Portland union stockyards. Trading on Monday was exceptionally brisk, cattle prices as a whole just about holding their own with both seller and buyer satisfied with returns, the cattle were a good lot in all grades.

The hog market was more than well supplied with 4900 head. The supply was considerably in excess of the demand and the market fell to \$17 as the top, this was quite a drop from \$17 and the market fell to \$17 at W. W. Edgington of Gold Hill, Or. But Tuesday the bulk of the hogs were sold.

Lack of "jazz" has prevailed in the sheep market for the last few days; the market remaining generally steady with the exception of a bunch of 257 prime lambs selling at \$13.75 Monday which were of a very good quality. Indications show a good market for some little time to come.

Newspaper Correspondents Called Into Conference

By Fred L. Ferguson (United Press Staff Correspondent.)

Paris, Jan. 16.—The peace delegates decided today to call newspaper correspondents into conference for an "interchange of views." It was believed that the recent "secrecy" order would be brought up and it was predicted that it would be materially modified.

French newspapers protested today against the conference's "secrecy" ruling, though it is understood it was made at the suggestion of the French government. The press suggested the conference's attitude was that "those who made war do not need to know how peace is made."

"The communiqué says nothing, and consequently I know nothing," declared Charles Snelio, "a special writer."

"What are we going to do about it? The correspondents, trusting to the native candor of President Wilson, believed a peace of the public was a public matter and that it was essential that the interests of the nations be discussed by the nations themselves. They believed this all the more so, before leaving America, Wilson promised Senator Orton that all discussions of the conference would be placed before the public and repeated this promise at every opportunity. But Wilson committed himself lightly. The chancellors of old Europe taught him that without the censor, there is no salvation."

Action On Martial Law Request In Argentina

By James I. Miller (United Press Staff Correspondent.)

Buenos Aires, Jan. 16.—Senate action was expected today on President Irigoyen's request that martial law be declared throughout Argentina for a period of 30 days.

The house of deputies already has passed a resolution endorsing the president's action, but the senate was unable to vote yesterday or last night through lack of a quorum. Several senators have declared they will not vote for the measure unless the government satisfies them it is an absolute necessity.

The feeling continued in some quarters that Irigoyen fears worse trouble in the interior than was experienced in Buenos Aires. Opposition of the anti-radicals to the government was reported to be growing. Rumors that an attempt might be made by this faction to overthrow the government persisted.

Meanwhile, the city was quiet and business was returning to normal. The ports strike, which was distinct from the general strike, was still in effect, however. It was believed this period might be the proverbial calm before the storm. Minimum estimates today of the casualties in the recent fighting here were 1000 dead and 2000 injured.

Charges Against Senator LaFollette Are Dismissed

Washington, Jan. 16.—The senate today dismissed charges of disloyalty against Senator LaFollette, Wisconsin.

The senate adopted a resolution proposed by Senator Dillingham, Vermont, dismissing a resolution of the Minnesota Public Safety commission, which asked that LaFollette be tried and expelled from the senate because of a speech he made at St. Paul September 20, 1917. The Minnesota commission alleged that LaFollette's utterances were disloyal.

The vote was 50 to 21.

Senator Pomerene, Ohio, urged that the senate direct the privileges and elections committee to conduct a full inquiry upon which to base action. Pomerene said the senate owed it to LaFollette as well as to the country either to exonerate him completely or to expel him or censure him.

Belgic Carrying 49th Infantry Arrives Today

New York, Jan. 16.—Carrying 3276 American troops, the White Star liner Belgic arrived here today from Brest.

Among the units on board was the 49th infantry, complete, composed of national army men from all sections of the country. This regiment was organized at Syracuse and was in command of Colonel Guy A. Pomeroy, casual company 433, Kansas.

Lieutenant Murray K. Guthrie, Minneapolis, returned a full fledged American ace. He was officially credited with bringing down six Hun planes.

Homier Knudsen of Chicago, choir director for Billy Sunday, who has been with the Y. M. C. A. in France, also returned on the Belgic.

The past 24 hours have shown the heaviest continuous rain and wind storm of the season, a 40-mile gale howling up from the south ever since last evening. Consequently the navigation of pleasure boats on the streets of Salem, together with the chasing of umbrellas, has been one continuous round of comedy.

SENATE PASSES BILL

(Continued from page one)

ams, a former member of the state highway commission. He declared that Oregon was not given a fair allotment of funds for building roads in forest reserves, and that this state's share should be increased from its present \$257,000 to about \$1,500,000 a year. His plan was to enlist the cooperation of other western forest reserve states and each send two men to Washington to lobby for a bill allotting these states more funds. He said the legislature should make an appropriation which would provide for maintaining two men in Washington two years, and said this money might well come from the state highway fund.

GOT 117 EGGS INSTEAD OF THREE

Says One Subscriber

Any poultry raiser can easily double his profits by doubling the egg production of his hens. A scientific tonic has been discovered that revitalizes the flock and makes hens work all the time. The tonic is called "More Eggs." Give your hens a few cents worth of "More Eggs," and you will be amazed and delighted with results. A dollar's worth of "More Eggs" will double this year's production of eggs, so if you wish to try this great profit making write B. J. Reeder, poultry expert, 451 Main street, Kansas City, Mo., who will send you a package of "More Eggs" Tonic for \$1.00 (prepaid).
