The sum of \$18,000 has been appropriated for work on 25 miles of road in Cowitt county.

A wage bonus of \$240 for the year beginning next July, for government employees receiving \$2500 or less, was voted Saturday night by the house.

## HOW TO SAVE ON SHOES

"Out of curiosity I tried a pair of Neolin Soles," writes W. P. Mascartney of St. Louis, "and today, after five months of hard service I fail to notice any real signs of wear on them."

This statement points the way to real economy in shoes. What your shoes cost, by the year, depends largely on how the soles wear, and Neolin Soles do wear a very long time. Moreover, they are exceedingly comfortable and waterproof—scientifically made to be exactly what soles should be and so worn now by millions.

They are available everywhere on new shoes and for re-soles. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

## Neolin Soles

## COMMISSION SENDS LETTER ABOUT ROADS

### Enlarges Upon Reasons For Not Wanting 5-Year Control Of Railroads.

Supplementing a telegram sent by the public service commission a few days ago to Charles E. Elmquist, president of the National Association of Railway Utilities commissions, in opposition to continued governmental control of the railroads, the commission last night mailed the following letter:

"We wish to further state that owing to the flagrant abuse of the power granted by congress during the past short period of control, we are very apprehensive of the result of a further extension of such power:

"That the federal government, in order to secure priority and the utmost facility in the movement of troops, munitions and supplies during our preparation for and in the prosecution of the war, had the absolute right to assume control of the nation's transportation systems is unquestioned, but now that the war is over we have no hesitancy in pointing out the abuse of the power placed in the hands of the director general. To our minds congress did not intend to clothe the president with the power to indiscriminately initiate or increase rates. This should be apparent when we stop to consider the scope and obvious intent of the several measures. Discussion of the Overman bill in the senate indicates clearly that the authority granted the president to initiate freight rates was to be exercised only in cases of real and pressing emergency, such as arose directly during the war.

"Had No Public Hearing.

"Congress made ample provision for the betterment and rehabilitation of such roads as did not meet certain standards of efficiency before the 25 per cent horizontal increase was put into effect. This increase was made without the formality of public hearing; without the advice of the interstate commerce commission and state commissions, or without the consent of the several states, and against the protests of the shipping public, and this, too, in face of the fact that the interstate commerce commission and 47 state commissions have kept close supervision over railroad rates for years. This is an arbitrary exercise of power, in utter disregard of the people and state's rights.

"The laws creating state commissions prescribe the manner in which rate increases shall be made. Invariably applicant must justify the necessity for the increase by showing made

## THESE GERMANS KNOW WHO IS 'UBER ALLES'

### Prussians Compelled To Wait For Triumphal Procession Into Metz.

By Frank J. Taylor.  
(United Press Staff Correspondent.)

Metz, Dec. 22.—(By Mail.)—There is one group of Prussians that knows Germany is whipped, though reports persist that the majority do not realize it yet.

Two big machines full of sleek Prussian railroad men pulled up at the public square in Chateau-Salins, near Metz at the same time the French were making a triumphant entry into the city from the south.

A rugged old poilu halted the Prussians and covered them. They demanded to pass immediately, since they were on their way to Nancy to turn over the Alsation railroads to French railroad men. The poilu ordered them to halt and reported them to his lieutenant who in turn reported higher. Finally it reached the general in command.

He made his decision at once. "Give them a place where they can see well, and make them wait until the procession has passed. It will be a good sight for Prussian eyes."

The two cars full of Prussians were backed in the square facing the passing French warriors, who marched with victory in their movements to the time of martial French music. All the while the natives of Chateau-Salins were wild in their enthusiasm over the poilus.

The Prussians watched without wincing their way to Nancy and then commenting among themselves, but never to an outsider. As the old poilu put it, "No one knows just what they thought, but they at least know who won the war."

at a public hearing.

"That the action of the railroad administration in relation to our railroads was ill-timed and ill-advised may be gathered from the obvious predicament of our short line roads and the extreme handicap under which our many industries are laboring, owing to a greater proportional increase in rates than competitors more favorably situated with regard to distance from markets in the middle west and east.

"Couldn't See Irregularities.

"If the railroads are to continue under federal control for five years more it is hardly to be expected that the traffic directorate constituted as it is of men who for years have had control of the roads and who are responsible for the many discriminations which the people of the west have patriotically acquiesced in to this time, could ever be made to see the irregularities of many of the present rate relationships. A review of freight tariffs will disclose that many of the rate structures have been made for the benefit of particular favored localities, shippers or jobbers. If regulation by congress, state and interstate, have not yet eliminated all discriminations, it is follow to thing that an appeal to the very men responsible for these existing conditions will bring about any relief or betterments.

"We believe we are fully justified in opposing further extension of time of federal control of railroads by reason of our many futile attempts during the past year to secure recognition in behalf of the people of this state in matters of glaring irregularities and discrimination."

## ONE DAY INVOLVED IN SUPREME COURT CASE

### 15 Days Are Required In Advertising Bond Issue, But Only 14 Were Given.

L. the decisions handed down by judges of the supreme court this morning, there was one in which the question of one day was involved. The case was the Laysch Improvement Co. against the North Unit Irrigation district. In the opinion written by Judge Bean it noted that 15 days notice are required in an advertisement of a bond issue and in this case the notice was only 14 days, Judge Bean holding that the notice was one day short of a legal notice.

Other decisions handed down were as follows:

Henry Eldredge, appellant, vs. Mill Ditch Co. et al; appeal from Malheur county; suit in equity to enjoin and set aside execution sale of water rights and ditch property. Opinion by Justice Burnett; Judge Dalton Biggs reversed and case remanded.

In the matter of the estate of Andrew J. Sturdevant, deceased, Vivian J. Sturdevant et al, vs. Mark Sturdevant et al; appellants; appeal from Umatilla county; opinion by Justice Burnett; Judge Biggs reversed and case remanded.

Boulevard Drainage System vs. Effie J. Gordon et al appellant; Malheur county; suit to restrain defendant from turning excess water from irrigation into ditch owned by plaintiff; opinion by Justice Benson. Judge Dalton Biggs affirmed.

J. M. Wisdom, appellant, vs. William Arnold et al; appeal from Douglas county; suit to collect money for services alleged to have been rendered for defendant; opinion by Justice Burnett; Judge J. W. Hamilton reversed.

Helms Grooved and Dubber Co. vs. Henry Copenhagen et al, appellants; appeal from Multnomah county. Motion to dismiss appeal for an injunction and for citation for contempt denied in an opinion by Justice Bean.

M. VanTassel appellant vs. Jefferson county; motion to affirm judgment of

## DAILY HEALTH TALKS

The Many Mysteries of Nature  
(By L. W. Bower, M. D.)

You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiar strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant rhabarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for bachelors, headaches, weakening drains, bearing down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it.

Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knows, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial pkg. Tablets.

Judge T. E. J. Duffy allowed per curiam.

Emma G. Robinson, appellant vs. Grant Phagley, appeal from Multnomah county. Motion to dismiss appeal overruled; opinion by Chief Justice McBride; Judge Geo. R. Bagley, judge of lower court.

Petitions for rehearing were denied in Castano vs. City of Athena and in Miller vs. Fisher.

## Passengers On Rochambeau Repaired Ship's Machinery

Halifax, N. S., Jan. 21.—Passengers aboard the French liner Rochambeau who repaired the ship's machinery when it became damaged near this port are responsible for the fact that she was ready to proceed on her way to New York today.

The Rochambeau was forced to put in for bunker coal when her crippled machinery and bad weather delayed her. Mechanics on the passenger list went to work and got the engines in

shape to continue the voyage.

A new passenger arrived in mid-ocean when a daughter was born to Lieutenant and Mrs. T. M. Wilson of Tennessee.

The ship carries the 339th field artillery, mainly from Iowa, Minnesota and a number of war workers.

The national war labor board has ordered the Detroit United Railways to retain in its employ the women now serving as conductors.

The International Ladies' Garment Workers' union, with a membership of 35,000 in New York, Saturday authorized the calling of a strike.

Are Unheated Bed-Rooms Healthful?

Sleeping in unheated bed-rooms IS extremely healthful, PROVIDED that you take the chill out of the bed before retiring.

No matter what the temperature of the night, you can go to bed on your porch or in unheated bed-rooms, with windows wide open, the frost attacking the outside world, and your bed may be made "as warm as toast."

As a matter of fact, it is quite impossible to describe the sensation of sleeping out-of-doors on a frosty, crisp night, in a perfectly warmed and dry bed.
