

SOCIETY

By CAROL S. DIBBLE

Mr. and Mrs. C. A. H. Fisher will celebrate their golden wedding anniversary with a delightful dinner party this evening at their home, 1211 Broadway. Mr. and Mrs. Fisher were married in Adrian, Michigan, and for the last thirteen years have made their home in Oregon.

Two of the guests at the celebration this evening, Mr. and Mrs. George Newton Claxtar, were present at the wedding fifty years ago. Congratulations from the many out of town friends, have been pouring in all day, taking the form of a postcard shower.

The table will be appropriately decorated in gold, with an art basket of daffodils and pussy-willows as a centerpiece. The evening will be spent in a variety of diversions, cards being the principal amusement.

Circling the table beside the honored couple will be Mr. and Mrs. George Newton Claxtar, Mrs. Alice Sooy of Spokane, Washington, Mr. and Mrs. W. W. Fisher, Mr. and Mrs. P. C. Wilsey and children, Mr. and Mrs. Charles Dixon, Dr. and Mrs. E. E. Fisher and son, Miss Nina Cooke and Mr. and Mrs. E. J. Ward.

Mrs. Edith Knight Holmes, who is well known in the newspaper world as former club editor on the Oregonian, was a visitor at the legislature

yesterday. Mrs. Holmes who has held the position of club editor for the past six years, is now publicity director of the Oregon Dairy Council. She is at present writing a special series of articles on food and dairy products in the promotion and furtherance of the council's projects.

Friends of Reverend and Mrs. Robert Gill will be interested to know that Mr. Gill is temporarily filling the pulpit of St. Stevens pro-Cathedral in Portland. For the past year Mr. Gill, who holds the position of first lieutenant in the spruce division, has been acting as special lecturer to the men in that branch of the service, under the auspices of the Chautauque bureau. His headquarters are in Portland which enables him to fill the position at the cathedral.

Mrs. Gill and children, Robert and Mary Alice, have joined him there.

Mrs. C. L. Hadley of Roseburg, who has been enjoying a short stay in Portland, stopped off for a few days visit in Salem over the week end with her sister, Mrs. W. H. Byars, at the Byars residence on North Commercial street. Mrs. Hadley and her husband were among the guests who participated in the recent celebration of the golden wedding anniversary of General and Mrs. Byars, after which Mrs. Hadley went on to Portland.

The Daughters of the American Revolution will meet Saturday afternoon at the home of Mrs. Seymour Jones, 855 Center street, at 2:30. The meeting has been called for a special purpose, that of electing delegates to the state conference to be held in Portland next month. The delegates from each chapter must be chosen by the first of the month, and as the regular January meeting of the Chemeketa chapter was postponed during the ban, an extra meeting has been arranged, in order that the delegates may be chosen by the aforesaid date. The annual election of officers will also be held Saturday, Mrs. James G. Heitzel, chapter regent presiding.

Mrs. N. E. Hargrove and daughter left for Corvallis yesterday to spend a few days with friends.

Mr. and Mrs. William Prunk left yesterday for Concomly for a short visit with Mrs. Prunk's parents, Mr. and Mrs. Charles Cooder. They will be joined there by Charles Woodcock of Portland, a brother-in-law of Mrs. Cooder. Mrs. Cooder also expects as her guests shortly, her sister, Mrs. Jane Cooder, and her brother, Lester Moore, of Wichita, Kansas, and is planning for their entertainment this summer an extensive sight seeing tour including Crater Lake and various points of interest along the coast.

Among the Willamette students who have returned to resume their studies after the enforced holidays, are the following girls at Dew Drop Inn, Miss Esther Eyer of Walka Walla, Miss Eunice Rush of Drain, Ore., Miss Laura Ruggles of Vancouver, Wash., Miss Fay McKennis of La Grande, Ore., Miss Mildred Stevens of Spokane, Wash., Miss Mable Stanford of Cashmere, Wash., Miss Liela Ruby of Gresham, Ore., and Miss Genevieve Sievy of Milton, Oregon.

Friends of Miss Sylvia Reil, who passed last year in Salem, making her home on the Wallace road with Miss May Gregory, will be interested to hear that she is studying in New York city this semester, taking a course of special work. Miss Reil has been spending the fall and early winter in Boise, Idaho, later going to her home in Michigan for the holiday season.

Salem dramatic circles and friends in general of Mrs. Noble Holmes Parsons of Portland will find special interest in the anticipated production of her play "In a Dresden Garden," the first reading of which was given last week in Portland by Mrs. Parsons at the home of Mrs. Charles E. Curry.

Mr. and Mrs. Harold Sawyer and Miss Genevieve Thompson were present and have pronounced the work a brilliant bit of writing. Mrs. Parsons, who is widely known in connection with the University of Oregon extension courses, not only wrote the play, but also cleverly planned all details of stage arrangement, costumes and color effects which greatly added to the pleasure of its first reading. The further disposition of the work, which carries a romantic setting and embodies a delightful touch of realism in character and plot handling, will be of great interest to the many friends of the writer.

Colonel and Mrs. P. A. Ramsey and children are visiting at the home of the colonel's aunt, Mrs. George G. Bingham, at her home on Mission street, and his sister, Miss Nellie Ramsey.

Colonel Ramsey has been in the marine corps for twenty three years. He is at present at Mare Island, previous to which he was one of the commanding officers in Washington, D. C. He was formerly stationed at Camp Donning.

Mrs. Keith Powell (Alice Bingham) is enjoying a sojourn in San Francisco, where she has gone to join Lieutenant Powell, who is awaiting his discharge at Camp Fremont. Lieutenant Powell was among the fortunate ones, who went overseas, having but lately returned from France.

The Women's auxiliary of St. Pauls church will meet Thursday afternoon at the home of Mrs. Joseph Baumgartner, 210 Center street.

DAILY HEALTH TALKS

GOING BACK TO NATURE

(By Dr. W. Lucas)

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Myxopile, leaves of Aloe, root of Jalap, into little white sugar coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is. All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

ASK CO-OPERATION

(Continued from page one)

posts and it was figured that the mortality was from 1 to 20 per cent. In Marion county alone there was packed last year 18,000,000 pounds of fruits and berries for which there was paid just in the vicinity of Salem \$2,500,000.

As to why the O. A. C. did not help in fighting fruit pests, Mr. Paulson said they had money to investigate only certain pests and their funds were not available in case of emergency.

The Marion county fruit interests, Mr. Paulson told the committee, included 7000 acres prunes, 1000 acres walnuts, 1500 acres Loganberries, 400 acres pears, 400 acres peaches and 1,500 acres apples.

BILL PREVENTS

(Continued from page one)

element. Kubli, who has a bill of his own with Senator Dimick, didn't want the Gordon bill hitched on to his. It was finally decided to call up the red flag bill for final passage Wednesday morning. A number of Portland labor men were in the house during the discussions.

Unemployment Meeting Proved Only Fizzle

New York, Jan. 28.—One thousand unemployed discharged soldiers, sailors and marines planned to stage a demonstration before the city hall this afternoon for the purpose of demanding of Mayor Hylan and the aldermen that they take immediate steps to provide them with suitable jobs. Arrangements for the demonstration were made by the newly organized Soldiers', Sailors' and Marines' Protective association. Officials of the association declared that it had been organized to get the returning fighters a "square deal."

Approximately 100 soldiers, sailors and marines attended a meeting of the association held last night in the People's House, which became riotous and was dispersed by military police and naval guards.

ALL TO REITERATE CHARGES

Topeka, Kan., Jan. 28.—Governor Henry J. Allen announced today he would appear before a congressional committee shortly to reiterate his charges of unduly heavy losses in the 35th division. Allen had charged also that the division, largely Missouri and Kansas troops, had not had proper aerial and artillery support.

ECKMANS
Calcerbs
FOR THROAT AND LUNGS
A Calcium compound that will bring relief in many acute and chronic cases. Prescribed in hospital form, a home remedy highly recommended by science. Contains no harmful drugs. Try them today. 50 cents a box, including war tax.
For sale by all druggists.
Eckmans Laboratory, Philadelphia

ACTIVITIES IN HOUSE OF REPRESENTATIVES

Roads and highways will come in for another public meeting this week, when the outsider who may be wondering what it is all about, will have another chance to learn more of the big road problems of Oregon.

All sorts of statements are being made as to the cost of paving, what the state highway commission is paying and what counties are paying. At the meeting Thursday evening any one who has anything to say will be welcome to say it, but it is pretty well understood that a statement must be backed up with positive proof. There must be proof of a statement and no talking just for the sake of getting some one in bad.

As State Highway Engineer Herbert Nunn has been attacked, he along with the highway commission have been invited to take part in the discussions.

There is a feeling among members of both the senate and house ways and means committee, that the testimony presented at this Thursday night meeting should be in the way of expert testimony and not by any one who might take a fling at general conditions or any one party and have no figures of an expert nature to back it. It is thought that members of the highway commission will attend the meeting.

A soldiers' land and settlement bill was introduced in the house by Representative Sheldon providing for a fund of \$25,000 with which to acquire land for homes of returning soldiers and sailors. Also to afford useful employment for soldiers and to give them an opportunity to acquire homes in Oregon. The bill provides that an Oregon Land Settlement commission of five members be appointed by the governor.

Representative Ideman of Portland presented bills calling for two commissions and one special board. One commission is to be known as the state board of immigration and the other the Oregon conservation commission. The board that he asks to be created is to be known as the State Board of Examiners for voting machines.

Union labor came to the front again in the house when E. E. Smith of Portland, the labor delegate, introduced a bill declaring that labor unions are lawful organizations, and also providing that courts shall issue no restraining order prohibiting strikes.

Bills passed by the house late yesterday afternoon were: Giving lands in irrigation districts not adjacent to a district but receiving water from a common source, the right to be included in a district. Giving the state highway commission the legal right to sell obsolete equipment and place the proceeds with the state treasurer to the credit of the highway department. Right of the O. A. C. and U. of O. to sell worn out equipment. Providing that when plates are vacated in any town or city, that a record of same shall be recorded in the deed of records under special filing.

To prevent the claiming of a homestead of excessive value, the house passed a bill introduced by Hare, making the homestead exemption amount to \$3000. As the general understanding of the law now is, a homestead may be not less than one city lot nor less than a 20 acre farm. The proposed law is to prevent a homestead claim in amount exceeding \$3000.

Two small salary raises managed to pass the house, but it just happened that each were special county bills and as long as the county was to pay the extra raise, members were willing. Mr. Gallagher managed to have the county school superintendent of Malheur county get in on a raise of from \$1000 a year to \$1500. Mr. Stewart of Wheeler county succeeded in getting his bill through for the final reading raising the salary of the county clerk of Wheeler county from \$1200 to \$1500 a year. He said the salary was fixed 20 years ago and conditions were different now.

The Portland bakeries are apparently behind a bill introduced in the house by Hosford of Portland. The bill provides first that the weight of loaves of bread shall run from 1 1/2 pounds to five pounds and then the provision that no bakery shall accept bread or other baking products prepared as unsold, nor allow credits for bread returned unsold. If the bill finally goes through, no retailer can return old bread to the bakeries in the state and get credit for same.

Visiting day at the University of Oregon will be Saturday Feb. 1 and at the Oregon Agricultural college, Saturday Feb. 8. The two invitations were extended to members of the house.

Mayor Baker of Portland submitted to the house a letter showing that the state highway commission had offered soldiers work at \$3.50 a day and that a captain in charge of employment in Portland had advised the boys not to accept the offer. There is just developing a chilly feeling toward Mayor Baker of Portland and members of the house over the appropriation of \$100,000 for the relief of soldiers doing nothing in Portland. Ballagh of St. Helens said the house had had enough of Mayor Baker and suggested that no action be taken regarding his letter.

Chas. A. Park of the State Board of Horticulture, appeared before the ways and means committee last evening telling of its efforts to fight the tuber moth and that in its efforts last year, the board had run behind about \$375. Two years ago the board was allowed \$7500 and this year on account of fire blight and other diseases threatening fruit, the board

would need \$12,000. The committee made no recommendations.

Committees from the various Portland home institutions appeared before the ways and means committee last evening. The Florence Crittenden Refuge Home was represented by Mrs. Laura E. Bristol and the Waverly Baby Home by Mrs. D. C. Burns. Mrs. Burns said the Waverly Baby Home had cared for 171 babies during the past year and only five had died. They have a home worth \$50,000. It developed that the month cost of each baby was \$22, while the state was paying only \$10 of the expense. C. H. Dodd who had served on the Board for 30 years, said they had hopes of getting \$60,000 from the Russell Sage Foundation, but that the state should add \$60,000 and give them a decent fire proof building.

The Louise Home for wayward girls showed what great work it had been doing the past year, W. G. MacLaren speaking for the home. Here again the state while paying from \$8 to \$10 a month for each, receives double value for its money, as the home is maintained by donations. Mr. MacLaren said it cost the state just 50 per cent of the actual cost of keeping up the home.

DANDRUFFY HEADS
BECOME HAIRLESS

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

NURSE AWARDED CHEVRON

Juneau, Alaska, Jan. 28.—The American Red Cross has awarded a "special chevron" to Miss Margaret Nunnivall for her splendid work as a nurse in St. Stephens hospital at Fort Yukon, Alaska, which is said to be the most northerly hospital in North America.

The hospital is 10 miles inside the Arctic circle and is the only place in 50,000 square miles that affords medical help. The nearest doctor is 350 miles away.

The new flung mill at Malin in Klamath county is completed and will begin running in a few days.

EDITOR OF INDEPENDENT OPTIMISTIC ABOUT LEAGUE

Warns Against League of Government Rather Than League of Peoples.

By Hamilton Holt
(Written for the United Press.)
(Copyright 1919 by the United Press.)

Paris, Jan. 28.—The league of nations is now a fact.

We who have been working conscientiously to bring such a body into being feel it is a hundred per cent farther advanced than we dared to hope possible six months ago.

The meeting of the general peace congress Saturday was, in my opinion, the greatest political event since the birth of the United States. It was the birth of the United States of Nations. There were two outstanding things.

Oregon Boys Are Due In New York Soon

Portland, Or., Jan. 28.—The sixty-fifth regiment artillery, which includes approximately 1000 Oregon boys reaches New York this week and will be sent temporarily to Camp Dix, New Jersey, according to word received yesterday from Senator McNary by the committee on reception for Oregon soldiers, sailors and marines.

From Camp Dix the men will be sent to their homes in small detachments. Effort already has been made by the Oregon committee to have these boys routed through Portland on their journey to Camp Lewis.

Emory Olmstead chairman of the reception committee, received a telegram from Senator McNary yesterday, stating that the first information with relation to routing of Oregon boys via Portland will be issued by the war department February 1.

The soldiers, sailors and marines reception and welfare committee has assigned Colonel L. P. Campbell, commander of the Multnomah guard, to tabulating all information on the present location of Oregon service men.

First, the resolution setting forth the purposes of the league made clear that its initial purpose was the promotion of international co-operation. That is the vital spirit in which the league should be conceived, and, second, there was evidence everywhere we investigated—and we have been privileged to talk with the men upon whom the burden of this peace settlement is actually resting—the men doing the work—that formation of the league will be quickly accomplished and that its results will be sure and far reaching.

One Point of Danger. Just one point of danger presents itself. That is the possibility of the league of nations being made a league of governments rather than a league of peoples. In order to assure the latter, organization must be devised that will truly and continuously be representative of the peoples of the various countries. It is not a new thing for diplomats to reach decisions by conference or telegraph. What is wanted is an organization which the direct representatives of the peoples will meet in parliamentary sessions. This must be achieved on the legislative side of the league. For the executive side, prime ministers or similar officials are competent to function satisfactorily.

A bill appropriating \$10,500,000 for enlarging hospitals to be conducted by the public health service has been reported favorably in the house.

OVER-EATING
Is the root of nearly all digestive evils. If your digestion is weak or out of kilter, better eat less and use
KI-MOIDS
The new aid to better digestion. Pleasant to take—effective. Let Ki-moids help straighten out your digestive troubles.
MADE BY SCOTT & BOWNE
MAKERS OF SCOTT'S EMULSION

Fight to Win!

The Nation demands strong men—strong women and robust children. Wisdom suggests that every proper means of safeguarding the vital forces and building up of resistance, be utilized.

SCOTT'S EMULSION

affords definite help to those who are "fighting to win" against the inroads of weakness. Scott's, abundant in tenacious nutrient properties, builds up the body by Nature's methods.

Scott & Bowne, Bloomfield, N. J. 19-14

FRILLY FROCK FOR EIGHT

There are only so many days in one's life when one can wear ruffy things about one's knees and feel dressed up as a movie actress. That is why this rose colored frock of net and satin and roses came into existence. There is a bit of blue velvet to tie the bouquet to the girle of satin.

MONEY-SAVERS FOR ALL

These Durable Soles Cut Shoe Bills Down

"For use around cement plants and similar places where rough materials grind down soles quickly. I recommend Neolin Soles. They resist wear surprisingly. After working around the clinker department long enough to wear out two pairs of ordinary soles, my Neolin Soles are still as good as new," writes A. F. Miller, superintendent of The Peninsular Portland Cement Company plant in Jackson, Michigan.

It is remarkable how tough and durable Neolin Soles are. They are made so by Science—comfortable and waterproof, too. They come on new shoes in many styles for men, women, and children, and are available everywhere for re-soles. Wear them, and cut your shoe bills down.

Neolin Soles are made by The Good-year Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Soles, guaranteed to outwear all other heels.

Neolin Soles

Drink as much POSTUM as you care for.

Unlike coffee, which disagrees with many — you can drink as many cups of Postum as you care for with no fear of nervousness, sleeplessness or other annoyance to health, for Postum is pure and wholesome and contains no harmful element such as the drug "caffeine" in coffee.

Your grocer sells Postum.
