COMB SAGE TEA IN HAIR TO DARKEN IT

Grandma Kept Her Locks Dark, Glossy, And Youthful With Sage Tea And Sulphur.

The old time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youth-ful appearance is of the greatest ad-

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready to use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moiscover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulhpur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so atractive.

Market Finds Equilibrium **Despite Disturbing Factors**

insofar as it served to demonstrate that the market had found its equilibrium despite a number of unsettling and disturbing factors, but otherwise it was of no greater consequence. There was little or no trend to prices during the greater part of the session although the line of least resistance appeared to be upward and trading sentiment was fairly cheerful.

A number of strong spots developed, however, among them Studebaker, Distillers, Chandler Motors, Tobacco Products and the like. Today's stock trading was important number officers.
