### DIED

**HANSEN**—In this city, Sunday, February 2, Mrs. Peter Hansen, aged about 55 years. Death was the result of an automobile accident. The funeral services will be held at the Bigdon chapel Wednesday afternoon at 2 o'clock and the burial will be at City View cemetery. She is survived by her husband, five sons and one daughter. The daughter and one son reside in Salem, two are at Camp Lewis where one of them is lying seriously ill, one is in the navy service and located at Manila, while another has just returned to New York from service in France.

Mrs. Hansen is very well known thru out this section as she was born and spent a large part of her life in Salem. She was the daughter of Mr. and

Mrs. Ben Strang, one of the pioneer residents. Fourteen years ago she was married to Peter Hansen and has since made her home in this city.

**COOK**—In this city, Sunday, February 2, Arthur J. Cook, aged 76 years. The funeral services will be held in the United Brethren church this afternoon, Rev. Frank Neff conducting, and the burial will be in Lee Mission cemetery.

**BARTRUFF**—In this city Sunday, February 2, Joseph, six year old son of Mr. and Mrs. Jas. E. Bartruff. The funeral services and burial will be in the Murphy cemetery, Rev. Foster conducting.

**Albers Case Went To Jury Late This Afternoon**

Portland, Ore., Feb. 4.—That Henry Albers, who has been on trial in federal court for ten days for alleged violation of the espionage act, made all

the seditious statements as charged by the government, was practically admitted by John McCourt, attorney for the defense, yesterday afternoon.

His plea to the jury was that he was too drunk to realize what he was saying and that the government had failed to prove the defendant's intent of hampering America in the war. Henry E. McGinn made the closing argument for the defense this morning. United States District Attorney Hancy replied this afternoon and the case is expected to go to the jury late today.

A masked bandit entered the office of Frank Cator, an insurance broker in San Francisco, and compelled Cator to hand over \$180 in currency.

Passports to Europe for Mildred Morris of Denver and Clara Wold of Kottland, militant suffragettes, have been cancelled by the state department.

Klamath county in 1918 spent \$40,102.70 for good roads.

## STRUGGLE BETWEEN PRUSSIANS AND SOUTH GERMANS CONTINUES

Plans For National Assembly  
At Weimar Precipitating  
Trouble.

By Frank J. Taylor

(United Press staff correspondent)  
Weimar, Germany, Feb. 4.—The struggle between the Prussians and South Germans for control of the new German republic increased in scope and intensity today as preparation continued for convening the national assembly here today.

This factional fight had developed a new plan for breaking up the geographical divisions of the old empire and forming all of Germany into a completely federalized republic, as opposed to the original plan of organizing new states into a small loosely constructed confederation. At present, the Prussian population controls the country. This condition would be augmented, rather than depreciated, by splitting up Prussia into several states because of the increased voting power it would give them. The socialists are back of the new scheme for a wholly centralized government. They are naturally opposed by the Pan-Germans, Junkers and conservatives, who are essentially pro-Prussian.

It is not clear yet whether the movement will gain sufficient support from the south Germans, who are proud that they are "different" from the Prussians and wish to retain their individuality as well as government.

The Bavarians regard the choice of Weimar as meeting place for the national assembly as a victory over the Prussians indicating a possibility of rebuilding of the capital here.

But Berlin holds the belief that Weimar was selected only because it is quiet and safe from bolshevist demonstrations. Berlin even expects the assembly to adjourn to that city within a fortnight.

## Banish Pain

THERE is no use talking—no one can work or play when they are not feeling well and strong. Life, without health and strength, is a mere painful, pleasureless existence.

One of the most important conditions of good health is to keep the kidneys normal and active. When weak or deranged, they do not filter out of the blood the impurities that should be eliminated from the system. When these impurities remain, the blood becomes poisoned and pain and suffering result.

## Foley Kidney Pills

aid and assist Nature. They strengthen and invigorate weak or diseased kidneys and help them keep the blood stream pure and clean, banishing backache, rheumatic pains, stiff or swollen joints, sore muscles, and other symptoms of kidney trouble.

W. R. Fox, 195 W. Washington St., Noblesville, Ind., writes: "I suffered for years with kidney trouble, and after having tried other remedies for the same, I purchased a bottle of Foley Kidney Pills and took them. They not only did me more good than any other kidney remedies I ever have used, but they positively cured my kidney trouble. Other members of my family have used them with similar results."

J. C. PERRY, Druggist

## SENATE FAVORS

(Continued from page 1.)

passed by the senate today. But Senator Strayer secured the change he desired in the salary to be paid water masters by the various counties. The original bill provided for a salary of \$5 a day for the time actually employed, while the amendment provides that water masters shall be paid an annual salary of not to exceed \$1,800 a year, the exact amount to be fixed by the county court and the state engineer.

**German Language Question**  
The question of teaching the German language in the public schools bobbed up in the senate again today and caused some queer antics. It was connected with a divided report from the committee on education on senate bill 191, which was introduced by Senator Dimick at the request of the superintendent of public instruction. The bill amends the present law relating to the subjects for the teaching of which the superintendent of public instruction may issue teachers' certificates without requiring the applicant to take an examination, providing the applicant makes a satisfactory showing as to her qualifications. The amendment eliminates the German language and adds Spanish and French. Senators Smith of Coos, Baldwin, Gill and Patterson reported in favor of the bill, and Senator Jones reported against it. A motion was made to substitute the minority report for the majority report, and it was carried by a rising vote of 14 to 13. Those who had opposed banishing the German language from the schools supported the motion.

**Gets Third Reading**  
Then a motion was made to adopt the minority report, which would have indefinitely postponed the bill. A roll call was demanded, and the result was a vote of 14 for the motion and 16 against. This left the bill without any recommendation, one way or the other, from the committee and it automatically took its place on the calendar for third reading tomorrow. Senator Jones declared that the reason the superintendent of public instruction wanted the change was so he could favor his pets by granting

them certificates to teach without taking an examination.

The roll call vote on the question of adopting the minority report on the bill was as follows:

Yes—Bell, Eddy, Howell, Huston, Jones, Laehmann, LaFollett, Moser, Nickelson, Norblad, Porter, Smith of Josephine, Strayer, Thomas—14.  
No—Baldwin, Banks, Dimick, Eberhard, Farrell, Gill, Handley, Hurley, Orton, Patterson, Pierce, Rittner, Shanks, Smith of Coos, Wood, President Vinton—16.

Senate bill 94, by Huston, providing that the seller of milk may be present with his own cream tester at the time his milk is being tested by the purchaser, was passed by the senate.

The senate passed house bill 140, by the Douglas county delegation, which relates to livestock running at large in Douglas county.

Senate bill 94, by Pierce, was killed by being indefinitely postponed. The bill provided that all public work must be done by public employees on force account.

Senate bills 81 and 18 also were killed by being indefinitely postponed. Senate bill 81, by Parrell, provided penalties for the stealing of automobiles or for taking machines of others for joyrides, or for stealing robes or other equipment from a machine. Senator Moser explained that all these offenses were covered by laws now on the statute books. Senate bill 18 provided for uniform limited partnerships.

**Increase Judges Salaries**  
While a number of senators were decidedly suspicious of senate bill 110, which was introduced by the Multnomah delegation and increases the salaries of the circuit judges of Multnomah from \$4000 to \$5000 a year, the bill passed the senate yesterday afternoon by a vote of 21 to 6, and three senators absent.

Senator Smith of Josephine pointed out the possibility of this bill being an entering wedge for a general increase in circuit judge salaries thru out the state. He said a few years ago the salary of circuit judges was \$3600 a year, while in Multnomah county the salary was increased to \$4000. It was but a short while then until a bill was put through increasing the salary of all circuit judges to \$4000.

"Pretty soon they will come in and ask to raise the salary of all circuit judges to \$5000," he said. "If you want to raise salaries, why not come in with a square bill and raise them all."

Senator LaFollett opposed the bill, and wanted to know how many of the Multnomah delegation intended to run for circuit judge next time.

Senator Dimick pointed out that the state had more judicial districts than

it knew what to do with, and suggested that a few of them be consolidated. He pointed particularly to the Lake county district, where he said the judge had practically nothing to do.

The district was created, he stated, because W. Lair Thompson, former president of the senate, wanted it. It was Dimick voted for the bill, saying he did so because the Multnomah delegation wanted it and Multnomah county was going to pay the increase in salaries.

**Defended Bill**  
Senators Banks and Moser defended the bill, asserting that so long as the increase in salaries was going to be paid by Multnomah county the rest of the state should not object.

The senate killed senate bill 8, which provided for taxpayers of any district voting on the question of appropriating not to exceed \$80,000 for boring oil or gas wells.

Senate bill 103 also failed to get enough votes to pass, but Senators Handley and Moser served notice that they would move to reconsider the vote today. The bill increases the amount of household furniture and tools and implements which shall be exempt from attachment for debt.

The following bills were passed by the senate:

S. B. 70, by Bell—Providing for the payment of attorney's fees in connection with litigation over the partition of lands.

H. B. 65, by Dodd—Amending the mechanics lien law to include the work of digging or boring wells.

H. B. 59, by Sheldon—Authorizing the state highway commission to create an emergency fund of \$30,000 to be used in paying off men who quit work suddenly.

H. B. 109, by the committee on education—Making Washington's birth day a school half holiday and providing for appropriate exercises in the public schools.

**Danger Of Paralysis Of Business In Tacoma Past**

Tacoma, Wash., Feb. 4.—Danger that Tacoma industries and business houses might be paralyzed by a general strike in past, it was believed here today, and householders need have but little fear of being deprived of the more important necessities of life.

Assurance that the city will continue to be fully supplied with light, power, water and gas service was given today when the latest return from the voting on a general strike became known.

The outside electricians, including all men employed in the city power plant, sub-stations and power lines, turned down the general strike pro-

posal by a vote of 87 to 20.

Their action took away from the promoters of the general strike proposal one of the most powerful weapons which they had hoped to use.

Other unions which are reported to have voted last night against the general tie up are the cooks and waiters, barbers and laundry drivers.
