

Children's Colds --- Danger!!

TO MOTHERS! Whatever else you do for your child's cold, feverish head or sore throat, remember to always rid the bilious liver, sour stomach and constipated bowels of the congested waste and toxin poisons. Always give Cascarets candy cathartic first thing.

Even cross, sick, cold-clogged kiddies needn't be coaxed to take candy Cascarets. Cascarets never disappoint the worried mother. Each 10 cent box of Cascarets contains directions and dose for children aged one year old and upwards.

The Oregon Social Hygiene society was represented by some of the big guns of the state. A. F. Fiegel of Portland said that Oregon had the lowest record in the United States in the cost of treating special diseases and that the government had adopted the plans of the Oregon hygiene society. France, Canada and even India had heard of the great results of the work in Oregon and had sent for information, Mr. Fiegel said.

Adolph Wolfe, treasurer of the so-

ciety, strongly urged the committee to give the society a fair appropriation declaring its work was really most important for the welfare of the state. Dr. J. B. Wise stated that 24 states had sent for the Oregon charts and literature and that Oregon was recognized as the pioneer in social hygiene work. W. F. Woodward had the figures to prove the efficiency of the society's work.

Taking into consideration the fact that the federal government would give \$7250 for state work, the committee figured that instead of the \$40,000 asked for, it would allow \$25,000.

George H. Himes, curator and secretary of the Oregon Historical society asked for \$19,000. The committee lopped off one secretary and special employee and allowed \$15,000.

A citizen of La Grand appeared before the committee asking money to build an armory at that place. Thinking perhaps that should this be granted there would be a dozen more armories to build, no action was taken.

HEALTH DEPARTMENT BILL IS WITHDRAWN

Problem Of School Books To Be Provided At Cost Will Be Discussed.

The big question as to whether it shall be the policy of the state of Oregon to publish its own school books and sell at cost was reported adversely by the committee on education consisting of Mrs. Thompson, chairman, Lafferty, David Graham, Brand and Richards.

The house did not agree with its report. In fact, the house felt the publishing of books for the elementary and high schools was to big a question to permit the committee to kill. Hence, after a discussion in which the best thinkers of the house took part the vote was in favor of a minority report and the big proposition of the state publishing its own school books will come up again for a general debate. The feeling in the house is favorable at least towards a fuller discussion of the subject.

The big consolidation bill creating a department of health was withdrawn this morning by Mr. Weeks. It seems that the committee on public health and morals has been having a pretty strenuous time with those whom the

Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with croup and you want quick help, try this reliable old home-made cough remedy. Any druggist can supply you with 2½ ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

bill proposes to abolish. Naturally the man who is about to be kicked out of a job registers the loudest holler. In this instance they registered such a loud howl and mournful cry that the committee laid down and decided to report adversely on the proposed department of health. Then Mr. Weeks who had been asked to introduce the bill, withdrew it this morning. The bill proposed the abolishing of the state board of health, state health officers, board of medical examiners, state board of barbers, board of pharmacy and half dozen others and merging them all into the state department of health. Now the doctors and such are resting easy.

The bill presented by the request of the war department commission on training activities on the sex problems was recommended for passage by the committee on public morals and health.

Chief Has His Tuning

The drug store clerk had his tuning this morning in the bill providing for nine hours a day labor and 54 hours a week. But he did not quite win out as it was intimated that the bill was presented at the request of the big drug stores in Portland to kill off the little ones in the suburbs. It will come up again. Smith, the labor delegate, spoke in favor of establishing hours for drug clerks.

The bill providing for an exemption of \$1000 in taxes for all who had served in any way of the United States was killed in the house this morning. There was just a suspicion that the bill creating special exemption from taxes might be unconstitutional. This is the bill that the auxiliary of the Spanish war veterans was interested in. If it had passed, it would have saved about \$30 taxes annually on an assessed value of \$1000 for residents of Salem.

While the bill creating a department of health was withdrawn this morning, the chances are that the one creating a department of agriculture will receive a favorable report from the committee to which it was referred. Of course, a favorable report is a long way from home and actual passing but if it ever does pass it would abolish the following jobs: Board of state fair directors, the board of horticulture, state livestock sanitary board, state veterinarian, the board of sheep commissioners, stallion registration board, standing committee of agricultural lime, state chemist, the state lime board and dairy and food commission, and his office. All these appointments and commissions would be merged in the department of agriculture.

IT RAISES THE DOUGH

Successful baking is assured when Crescent is used, because it raises first when moisture is added in the mixing bowl, and then again when heat is applied. The result of this double raise is deliciously light, wholesome, and easily digested bread, cakes and biscuits.

Crescent has been the established standard baking powder for a quarter of a century on the Pacific Coast. No better formula has been produced. The Crescent Cook Book is very helpful. Write the Crescent Mfg. Co., Seattle, for a copy. Grocers sell Crescent Baking Powder
