JOURNAL WANT ADS PAY

MARION COUNTY WAS OPPOSED TO RAISE

Accordingly, Other Delegates In House Have Formed Little Combine, Rumored.

And now it develops that Marion county got sat down on yesterday in the house because the Marion county delegation would not line up with the salary grabbing bunch and vote all sorts of salary raises.

Under the leadership of Denton Burdick, chief opponent of Seymour Jones for the speakership, rebellion broke out when the Marion county delegation refused to vote solid in favor of raising the salaries of the supreme judges. Marion county was openly termed the tightwad county and the delegates not good fellows, voting too often against salary raises.

When Speaker Seymour Jones advised the soft pedal on all sorts of salary raises, Denton Burdick and his followers got sore. They want to put the governor on a \$7500 salary and from all reports, the governor is willing. Then they want to buy a governor's mansion and while the going is good for salary raises, push up a few pegs for the secretary of state and the state treasurer.

Open the throttle wide for the big fellows at the state house when it comes to salaries is the motto of the insurgents. And just to teach Seymour Jones a lesson and ally the Marion county delegation, the combine voted solid yesterday morning not to pass the gopher and mole bill for Marion county. About \$350 worth of time was spent in the house administering the spanking to the Marion county boys.

Having practically told them where to head in, the house later in the day unanimously passed the gopher and

mole bill for Marion county. The insurgents didn't give a centennial for moles or gophers but they did want to take a crack at the so called "tight wads" from the county.

It is rumored that under the leadership of Denton Burdick, a combine has been formed in the house to run its affairs and relegate Speaker Jones to the simple job of presiding and announcing the vote.

The whole scrap arose from the fact that Speaker Jones advised the boys to go slow on handing out salary raises.

But as the matter now stands Speaker Jones is still in the saddle and there is a suspicion that the "insurgents" who were so willing to start something are now eating out of the speaker's hand and have promised to be good.

TRY THIS IF YOU HAVE DANDRUFF

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need, his simple remedy has never been known to fail.

The demand for Oregon goats was never so great as now, is the statement of U. S. Grant of Polk county, president of the National Mohair Association.

German Government Is Prepared For Spartacans

Berlin, Feb. 5.—(Delayed.)—The government today was understood to have completed its plans for meeting the nation-wide attempt of the Spartacans to seize control, scheduled for tomorrow (Thursday).

Aided by soldiers' councils, the Spartacans are expected to begin a coup simultaneously in Berlin and Weimar with demonstrations in other centers. A movement is already under way to strike at the national assembly and the present government which have been moved to Weimar. Soldiers' councils have seized the telegraph facilities in Eisenach and Erfurt. In that district a large force of Spartacans and mutinous soldiers were reported yesterday to be marching on Weimar from Otha, 30 miles to the west.

Meanwhile the Spartacans are reported to have been completely routed in Bremen.

LITTLE BUSINESS

ping board over the Macy award. Thus far, Seattle labor leaders have fought a losing battle for their attempts to obtain general walkouts at Tacoma, Portland and San Francisco have failed. The shipworkers at Portland and San Francisco, have remained at work. The shipworkers at Tacoma are striking.

Interest was divided today between plans of labor leaders and the attitude of Mayor Ole Hanson, one of the picturesque figures of the northwest.

Hanson declared that not only would order be maintained, but he would operate the city utilities, keeping the city lighted and the cars running, if necessary. A mass meeting at 3 o'clock this morning however of the carmen's union voted unanimously to join the walkout.

The mayor, who is of vigorous action declared that if necessary he would swear in 10,000 special police to maintain order. He issued a call for volunteers to substitute for strikers and keep the city utilities running. Hanson was elected largely through the labor vote.

State Will Interfere. Olympia, Wash., Feb. 6.—"Immediate and ample protection of life and property" will be furnished by state authorities if the necessity arises out of the strike situation.

Governor Lister last night made his first statement concerning the strike as follows:

"I am keeping in close touch with the situation in Tacoma and Seattle in connection with the general strikes called for tomorrow at 10 o'clock. I hope it will not be necessary for the state authorities to take any action for the protection of life and property but if necessity arises that protection will be ample and immediate."

Union Labor Statement.

Seattle, Wash., Feb. 6.—At the request of the United Press the Daily Seattle Union-Record, official organ of the unions of this city, made the following statement of the position of the organized workers:

"The strike of 30,000 miscellaneous workers in sympathy with the 30,000 shipyard workers already out comes as a last resort to break down the autocratic opposition of General Manager Piaz of the Emergency Fleet corporation to a local settlement of the arable. Piaz has assumed an absolutely

indefensible position and by virtue of his control of sources of publicity has succeeded in misleading a large part of the nation into a complete misunderstanding of affairs. The Macy board has jurisdiction only in case of failure of local workers and employers to reach agreement. Piaz has prevented negotiations for a local agreement by declaring he would stop shipments of steel to local yards.

Contrary to reports sedulously circulated there is no revolutionary significance to the strike though if a settlement is not soon reached it has revolutionary possibilities. The entire matter is one of adequate wages for the men who made the success of the American forces in Europe possible by furnishing them the ships.

Not General in Tacoma.

Tacoma, Feb. 6.—With the exception of the shipyard workers, a general strike had not materialized at 11 o'clock, a hour after the cooks and waiters in some eating houses and some of the laundry work-

the time set for the walkout. Streets were still running, lights burning, newspapers printing and other industries operating as usual.

No Attempt to Seattle. Washington, Feb. 6.—No action will be taken by the department of labor in the general strike at Seattle until three commissioners, watching developments, report.

This was stated at the department this afternoon when press reports told that the threatened strike was on.

San Francisco Strikers.

San Francisco, Feb. 6.—"No attempt will be made to conciliate the 2500 bollermakers who struck in Oakland today," said R. N. Brotherton, representative on the coast of the Macy board.

"The men are unjust in their demands," he said. "The only way to end the strike is for them to return to work on the present terms."

This attitude of the shipping board is understood to apply also to striking shipyard workers in Seattle and Tacoma.

It Wasn't a Goose

That laid the golden eggs. It was a hen—a hen that kept on laying even when eggs were a dollar a dozen, as they have been this past winter. And

The COUNTRY GENTLEMAN

knows how she did it. What's more, it tells. It tells about "The New Way to Get Eggs"—from the back-yard flock as well as on the big poultry ranch. It tells about "Longer Days for Laying Hens"—by electric lighting the hen-house. It tells about "Beginning with the Incubator" and about "The Baby Chick's First Six Weeks."

These are only a few of the poultry articles THE COUNTRY GENTLEMAN will have this spring—all full of practical, money-saving suggestions that you can profit by. And there's "The Poultry Calendar" in addition, appearing weekly and packed with poultry advice adapted to every season.

Besides poultry, a year's subscription to THE COUNTRY GENTLEMAN—52 big issues—contains more than 500 articles on progressive farming from every other angle. For only \$1, I'll see that it comes to you every week. It will save you \$100.00 during the year ahead. Can you afford to be without it?
