

At ARMORY 8 P. M. DANCE SATURDAY NIGHT At ARMORY 8 P. M.

BAN ON DANCING IS NOW LIFTED IN SALEM

Mayor And Health Officer Give Out Statement Having Been Authorized.

The one thing needed to restore the city of Salem to its normal condition of vivacity and attractiveness—at least in the estimation of the younger generation—is the lifting of the restriction upon dances. Gatherings of all kinds, together with the moving picture houses, have been in progress during the past two weeks, and as there has been no indication of a return of the influenza plague, it has been deemed safe to take off the ban on dances. The following is the official proclamation of the mayor and health officer:

Whereas, the mayor and common council of the City of Salem, acting as a board of health, have heretofore closed certain places, and have placed certain restrictions upon and proscribed certain regulations for other places and

persons, and have adopted and proscribed certain quarantine regulations for the control of the Spanish influenza epidemic; and, Whereas, the said common council acting as a board of health, has authorized and empowered the mayor and health officer to remove or modify said restrictions and regulations; now therefore, By virtue of the power thus vested in us, we do hereby proclaim and declare that the ban heretofore placed on public and private dances is hereby lifted; subject, however, to the condition and understanding that the managers of such dances shall remove from the hall any person exhibiting symptoms of Spanish influenza.

This proclamation is not to be construed as in any manner limiting or modifying the restrictions now and hereinafter in force, except as herein specifically set forth.

C. E. ALBIN, Mayor. J. RAY PEMBERTON, Health Officer.

Republicans Use Embargo For Furthering Interests

Washington, Feb. 6.—The British embargo on American goods will be

used by "high protection" republicans in congress as an argument for immediate revision of the tariff upward. Tariff legislation probably will be among the earliest measures presented when the republicans take the lead in congress. American industry must be helped over the readjustment period and then protected, the republicans argue. Tentative drafts of a new tariff law already have been made.

Believe Los Angeles Ship Workers Will Not Strike

Los Angeles, Feb. 6.—Although no announcement of the result of the strike vote being taken by Los Angeles district shipyard workers will be made before next Thursday, union leaders here today expressed the belief that the men would not strike.

INVESTIGATORS FIND

Repairs are badly needed in the flax room as the roof is leaking and the ventilation bad. The flax baling room is also in bad condition and the roof is in need of repairs. The report indicates that while the general structure of the penitentiary is in good condition, the same cannot be

said of the interior. It is thought that an appropriation of from \$25,000 to \$35,000 would be sufficient to make the penitentiary building a more desirable place to stay.

MINIMUM WAGE BILL FOR TEACHERS. \$75 FATHERED BY HOUSE

Mrs. Thompson Introduced Law To Increase Pedagogues Wages.

School teachers in Oregon scored a great victory this morning in the house of representatives when it passed almost unanimously the bill of Mrs. Alexander Thompson providing a minimum salary of \$75 a month. As schools are held eight months or more of the year in every district, even the teacher in the far distant rural district is now assured of at least \$600 a year.

Two years ago Mrs. Thompson had written in the laws of Oregon a bill providing that instead of six months as the minimum school, eight months should be the minimum. And today, she went one better for the educational interests of the state by securing the support of the house of her bill making \$75 a month the minimum wage. In her address in support of her bill Mrs. Thompson said: "While you have been trying to elevate the standards of teaching, you have never offered to raise the teacher's salary. Teaching has been a notoriously under paid profession. We have always been begrudgingly in paying those to whom we trust our children. American last year spent twice as much for showing gum as it did for its teachers and it invested more money in automobiles than it did in salaries for primary and intermediate teachers."

Relative Expenses. "The schools of Marion county in 1914-15 paid its teachers in the one and two room schools, an average of \$58.18 a month. Now it is paying an average of \$64.78. The average price of board five years ago to the teacher was \$15.50. Now it is \$25.38.

"In Polk county five years ago the average salary of a teacher was \$63.64. Now it is \$75.69. In Union county five years ago the teacher in the one and two room schools got on an average \$50.57 a month. In that county five years ago board averaged \$12.15 a month while now it is \$27.59.

"In Lane county for the years 1914-17 the teacher was paid on an average \$58 while now it is \$63. In LaGrande for the school year of 1913-14 the teacher was paid an average of \$72.23 while now it is \$84.52. Living five years ago at LaGrande cost \$22.50 a month while today the average is \$37.86.

"During the past five years the laboring man has increased his salary 40 per cent, due to his labor organizations while the school teacher has been increased only 5 per cent. I cannot understand why we in Oregon should pay a school teacher less than a man snowing dirt at \$4 a day."

By the time Mrs. Thompson had closed her address and presented her figures, there was a general scramble to get in the band wagon and vote for the bill. Smith of Baker, one of the spell-binders, got in first. "Where the sun shines 300 days in the year and the moss is not allowed to grow on our backs, we are doing well for the school teacher," exclaimed Mr. Smith. Mr. Elmore of Brownsville didn't like the insinuation of being a moss back and he referred to Methodist history and Willamette university to prove there was no such thing as a moss back in the Willamette valley.

Gallagher, the cyclone from Malheur county, was the second to climb in the band wagon, speaking for increased salaries. He said he often talked to Parent Teachers associations. "Do you want underpaid girls who cannot go into the business world to make a living by teaching your country schools?"

As no one attempted to answer the question Speaker Jones ordered a roll call. In favor of the bill 40 votes were recorded and as far as her personal efforts are concerned in the house the most important bill Mrs. Thompson has introduced received its approval.

FRENCH SACRIFICE FOR LIBERTY HERO!

Six millions of French sons have offered their lives that democracy might live. 30 million other French men and women sacrificed their all for the same purpose. America's debt of gratitude to France for this is very great. We also are indebted to her for an invaluable remedy for stomach, liver and intestinal ailments discovered by her penicillin, which it is reported has saved many American lives and prevented thousands of surgical operations. Geo. H. Mayr, for many years a prominent Chicago chemist, imports the ingredients and sells this remedy under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry, Capital Drug Store, and druggists everywhere.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color. These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.
