Walker, of the purchase storage supply division of the army, is being sent to Salem, Or., to hear complaints of prune growers on prices, the present arrangement of pay, cost and slight profit. Los Angeles Has About 40 Unwelcome Guests

Los Angeles, Feb. 6.—Los Angeles today was host to the party of about 40 Russians and alleged I. W. W. agitators who were deported from the Charter Oaks district last yesterday.

Fulfilling reports circulated at noon yesterday, about 150 orange growers and representatives of associated industries went to the so-called "Russian house" at Charter Oaks, informed the Russians they would not be tolerated longer in that district, loaded them in to auto trucks and brought them under guard to Los Angeles.

A number of women, said to have been four, were among those deported, but not a grower in the district seemed willing to discuss the matter.

Legal action against the ranchers of the Charter Oaks district, who deported the alleged I. W. W. agitators late yesterday was being planned by the deported men and women today, Attorney J. Ryckmann, representing the striking orange pickers announced.

The sheriff's office declared it had been informed the strikers were not deported forcibly, but had agreed to leave if the ranchers would furnish the transportation.

Number Of Arrests Of German Citizens Was

By Webb Miller (United Press staff correspondent) American Headquarters in Germany, Feb. 5.—Two hundred and twenty-one German citizens have been tried in American military courts during the past week. Of these 198 were convicted. This is a big increase, due largely to more drastic enforcement of regulations. Heavy fines were imposed.

Fourteen women, convicted of associating with American soldiers, were fined from 100 marks (\$23) upward and sentenced to as much as a month's imprisonment.

One German dealer was fined for using the American flag for commercial purposes. He sold stationery on which the American and German flags were crossed. Three of the convictions were for disseminating enemy propaganda among the troops.

Standard Oil Man Says Gas Is Running Short

New York, Feb. 6.—A world shortage of gasoline waits just around the corner for the motor propelled world, according to Mark L. Requa, Standard Oil official, who has been directing the oil division activities of the fuel administration.

The only preventive, Requa believes, is an engine that will burn crude oil. The American Society of Automotive Engineers, in session here today, is considering this problem, put up to it by Requa and his associates. J. E. Pogue, who has been devoting his attention, for the government, to oil conservation, is scheduled to tell the engineers that but 50 per cent of the petroleum produced in this country is being utilized, that because burning engines, while a great help in conservation, will not solve the difficulty, and that much higher prices for gasoline are ahead unless the crude oil burning engine comes to the rescue.

Director Of Emergency Fleet Denounces Strike Of Seattle Shipworkers

Philadelphia, Feb. 6.—The Emergency Fleet corporation will not deal with the Pacific coast strikers until they return to work and submit their grievances in the proper manner.

J. W. Slaughter, director of publicity of the corporation, said Charles E. Pies, director general, made this statement before departing for Washington late today.

Slaughter said the director general was firm and would not recede from the stand he had taken, as published in Pacific coast newspapers.

Pies, according to Slaughter, said he would call a conference immediately upon the men's returning to work, but until they did so he would have no dealings with them.
