It is impossible to hide your face every time people look at you. That disfiguring eruption robs you of your rightful beauty. It lowers your chance of success in life—it brings sidelong glances where there should be smiles. Have you tried Resinol? If you have not, there is still an excellent chance

of regaining that school-girl complexion you once were proud of. Rough, red, pimply skins, skins that itch and burn, break out in pimples that are painful and embarrassing, as a rule quickly yield to the soothing medication of this ointment.

## Rheumatism Back on the Job With its Old-time Fury

### No Let-Up In Its Torture.

Pretty soon you will be reaching for the liniment bottle again, for the millions of little pain demons that cause Rheumatism are on the war-path. Winter weather seems to awaken them to renewed fury.

But your Rheumatism cannot be rubbed away, because liniments and lotions cannot reach the disease. It is in the blood, and only a remedy that goes deep down into the circula-

tion, and routs out the disease germs, can rid you of this disabling disease. S. S. S. has given some wonderful results in treating Rheumatism. Being a purely vegetable blood remedy, it purifies the blood of every germ, and thus removes the cause of Rheumatism. Get a bottle to-day at your drugstore, and start on the right treatment that will get results. Free advice about your case can be had by writing to Medical Director, 26 Swift Laboratory, Atlanta, Ga.

## Woolens for Spring Wraps

### What Does She See In The Approaching Van of Fashion?

Tailored Suits of two distinctive styles—one, the straight box coat and the other a semi-fitted or belted suit. Skirts 50 to 60 inch width, none shorter than shoe tops with ankle lengths leading. Strongest color, blue.

Capes are the leading Spring wraps and are of various lengths from waist line to three-quarters the latter preferable.

Top Coats are loose back, narrow at hem, and, as the capes, have large kimono sleeves. Broad cloth is a favorite material.

Thus the lines are distinctly drawn. Those of conservative habits will probably lean to suits while the coats and capes will appeal to those who like characteristically smart and swagger models.

### SUITING SERGES:

Without a question the leading Suit Fabric this Spring. Good wool serges, however, are not over plentiful in the open market as the garment manufacturers have used up available stocks. This alone is a good indication of the coming popularity of this the most serviceable of all suiting materials. You will find here the best products of the Jamestown and Broadhead Worsted Mills—the leading American serge weavers. These come in navy, black, and grays, very reasonably priced.

### BROADCLOTHS:

The fabric without a peer for Spring wraps. Nothing can possibly equal the beautiful sheen—the rich finish—of our Broadcloths for the loose coat and cape.

Our line of Imperial broadcloths will please you—they are all wool and every yard is sponged and shrunk ready for use. All desirable colors are represented. Every yard is good, big value.

### SHEPHERD CHECKS:

These Shepherd Checks are splendid materials for Spring Dresses and separate skirts. With a little simple, tasty trimming, dresses from these materials are unbeatable for street wear and their serviceability is a big factor. We have on our shelves a great variation of checks, all of sterling quality, 42 to 56 inches wide, at from \$1.25 to \$2.25 a yard.

### NO STRIKE OF JEROME MINERS

Jerome, Ariz., Feb. 10.—There will be no strike of miners in the Verde copper district over the reduction of wages by the mining companies.

That was made practically certain today when the Central Labor Council announced the men would remain at work under protest pending the arrival of a federal mediator.

The statement said the union's contract with the government stands good until peace is signed and the men will abide by it.

Everything was quiet here today and the mines were operating at 90 per cent of their usual capacity.

### The Health Of The Future Generations

Depends to a great extent upon the care the mothers of our country give to their health. The subject of good health has never been given one half the attention on the part of the housewife that it should be given. It seems to have been the general idea that the only thing worth while was to perform the household duties in the most economical way, that a penny saved is a penny earned. This has in many instances led to sheer extravagance, in that the housewife has often done her work in a way that in reality represented the most expensive way of doing it, not only from the standpoint of dollars and cents but in the disastrous effect it has upon her health as well.

No woman can afford, if she has the proper interest in her family, to break down her health, wreck her nerves and shatter her disposition trying to save a few pennies doing her own family washing. The woman who does this work at home is not economizing, she is creating unnecessary expense and at the same time getting the work done in a way which is inferior to the way she may have it done at the laundry.

It is rank foolishness for any housewife to flatter herself into believing that she can do her own family washing better than the laundry can do it, she might just as well contend that she can light her own home better with the old kerosene lamp than she can with electricity. If the laundry was not fulfilling its mission it would be retrogressing instead of progressing, as it is at the present time, and as it is going to continue to do in the future. If it was more expensive to have the family washing done at the laundry than it is to do it at home it is hardly reasonable to assume that people with no more money than they have would continue to send the family washing to the laundry.

Stop doing the family washing at home and send it to the laundry. In doing this you will not only save money but you will conserve your good health and have the clothes returned each week in a much better condition than they would be were you to do this work at home.

## A Mother's Happiness Made Perfect

Of Utmost Importance That She Have Every Care.

The expectant mother's physical comfort should be our first thought, and all about her should see to it that her preparation for baby's coming be complete.

There is a most splendid remedy to prepare women for the greatest time in their lives, known as Mother's Friend. It is applied to the muscles of the abdomen, gently rubbed in, and at once penetrates to relieve strain on nerves, cords and ligaments. It makes the muscles so pliant that they expand easily when baby arrives; the hours at the time are fewer, and pain and danger at the crisis is naturally avoided.

Mother's Friend enables the mother to preserve her health and strength, and she remains a pretty mother by having avoided discomfort and suffering which more often than otherwise accompanies such an occasion when nature is unaided. Every nerve, muscle and tendon is thoroughly lubricated. Discomfort during the period is contracted, and the skin, after the crisis, is left smooth and natural.

Write to the Bradford Regulator Company, Dept. B, Lamar Building, Atlanta, Georgia, for the Mother's Friend Book, and obtain a bottle of Mother's Friend from the drug store today without fail.

### WANT STATE ROAD MONEY FOR PORTLAND TOURIST ROAD

Portland, Oregon, February 10.—An immediate appeal to the legislature and state highway commission for assistance in the construction of a hard-surfaced loop highway about Mount Hood, connecting at Hood River with the Columbia River Highway, is to be made as the result of a meeting at the courthouse yesterday, at which the Mount Hood Loop Road Association was organized.

Informal pledges to do their part by constructing the sectors of highways lying within their county boundaries

were made by speakers for Multnomah County and Hood River County, Clackamas and Wasco Counties may need state aid, but Clackamas has a roadway in good condition in the loop and Wasco desires a short spur from the loop, opening up a new commercial route into Central Oregon.

Aleck Scales says that it is a mighty old fashioned girl now a days that is not in the "pink" of condition. The worst of it is—the pink rubs off.
