TRY YOUR OWN EYESIGHT

Hold this print at the distance at which you read your paper and see if you can read clearly and easily the following lines. If not, you are not up to others in eyesight.

As we grow older we need glasses to do our work well and to compete successfully with the younger generation. One of the reasons why the younger generation has an advantage over us is that it can see small things without effort. Those who cannot read this sized print with comfort, should get a pair of glasses with which they can. Our methods of eye examination are strictly modern, scientific and accurate.

DR. A. McCULLOCH, OPTOMETRIST 204-5 Salem Bank of Commerce Bldg.

In the last issue of the Journal was an item regarding Lemuel Esteb, a former Willamette university student who was reported among the wounded in the U. S. army casualty lists. It has since been learned that he is entirely recovered and is back with his regiment and stationed at Herschbach, Germany.
