

The Right Laxative For The Little Ones

The natural condition of a child is to be happy and carefree. When the girl mopes and is indifferent to school and study, or the boy is sullen and refuses to go out and play, the child needs a laxative to empty the bowels and stir up the liver.

But something should be given that will produce the result in as simple and natural a way as possible. Harsh cathartics and physics are neither necessary nor desirable.

Many mothers have found that the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr.

Caldwell's Syrup Pepsin produces a free movement of the bowels without griping. A very little is required, and it is pleasant to take. A few hours after its use the child will be its happy self again.

It is an excellent remedy for the mother herself, and for the other members of the family, in obstinate or occasional constipation, for the relief of headaches, as an aid in colds and fevers, minor skin eruptions and all disorders where the basis of the trouble is constipation.

The druggist will refund the money you pay for Syrup Pepsin if it fails to do as promised.

Dr. Caldwell's SYRUP PEPSIN The Perfect Laxative

PRICE AS ALWAYS

In spite of greatly increased laboratory costs due to the war, by sacrificing profits and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 6 years. Two sizes—50c and \$1.00.

FREE SAMPLES

If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. B. Caldwell, 468 Washington St., Monticello, Ill. If there are babies at home, ask for a copy of Dr. Caldwell's book, "The Care of Baby."

BIRD RESERVATION

(Continued from page one)

each hatchery, the bill provides an appropriation of \$5000.

A State Board of Vocational training is to be established in the bill that passed the house, to accept the provisions of congress for vocational training. The state board of education and four to be appointed by the governor will constitute the board. It is to take advantage of the Smith-Hughes act.

As the law now stands, when the viewers appointed by a county court in a new road contest decide to open a road, the owner of the land has no recourse in court or elsewhere. The bill that passed the house yesterday provides that if the owner of the land

is not satisfied with the decision of the court may be tried in court similar to any equity case.

The Afro-American league of Portland started a big fight in the house yesterday when a bill prepared by the league was up for indefinite postponement.

The bill provides that regardless of race, color or creed no one shall be discriminated against in any place of amusement or resort. Also that it shall be unlawful to publish or display any written matter or advertisement to the effect that any accommodations shall be refused on an account of race or color.

It was a bill introduced by the negroes of Portland to remedy conditions there. It was claimed that some Portland representatives refused to introduce the bill. When it was finally introduced and assigned to the health

and morals committee of the house, it was stolen from Mr. Elmore's desk.

After occupying the time of the house, in which all the oratorical spell binders broke loose, the bill was killed. Oregon is the only state in the union that has not ratified the amendment to the constitution granting equal rights regardless of race, color or previous condition of servitude.

A bill that makes its appearance at each session of the legislature is one taking away all the legal duties of the county judge and making him best chairman of the county commissioners. It provides that all the law business generally coming to the county court shall be transferred to the circuit court.

It was claimed that the average county judge knew but little about law and that Oregon was the only state in the union permitting its county judge to handle probates and other legal matters.

But the bill ran up against the men from the smaller counties that prefer their county judges shall continue on the job and handle matters as they are. Hence it was defeated.

The Marion county delegation voted as follows: In favor of transferring the law business of the county court to the circuit court—Weeks, Opposed, Hughes, Looney, Martin and Speaker Seymour Jones.

RHEUMATIC PAINS

Quickly Eased By Penetrating Hamlin's Wizard Oil

A safe and harmless preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for carache, toothache, croup and colic.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

Severe Atlantic Storms Delay Transport Arrivals

New York, Feb. 20.—Severe storms sweeping the Atlantic have delayed arrival here of eighteen transports carrying nearly 20,000 men.

Wireless reports last night and today stated that all the ships were weathering the gales, but that many would be several days overdue. Some have been forced to run for Bermuda for coal and repairs, the message said.

The steamer Henderson, due today with 1200 wounded, is heading for Bermuda according to a radio picked up by the battleship Kansas and relayed to the naval station here.

The President Grant wireless last night that she had heard distress signals from the small steamer Belg Bear which carries three casual officers and was going to her aid.

A message from the Woonsocket, which left Bordeaux January 27 and was due here ten days ago, said she had lost a propeller blade, but was proceeding to port under her own steam. Twenty one soldiers are aboard.

A HUNDRED-DOLLAR STAMP

A new feature of 1919 War Savings Stamp activities is the stamp of \$100 denomination, which will probably be placed on the market this month.

The \$100 stamps will be about the size of a Liberty bond and will sell for \$82.60 if put on sale in February. The price will increase 20 cents each succeeding month until the end of the year.

Picked Up On The Street

W. T. JENKS—“This week will see practically the last pound of prunes cleaned out of this part of the valley. There are some fruit of different grades still to be shipped out of Newberg, but there are no stocks left in the packers' hands in this city to speak of. The California shipping season is about done also, as reports in the trade papers show that here are very few prunes of the better grade to be found.”

F. E. DECKBACH—“There is a downward tendency in the whole line of dairy products now. Late reports show that condensed milk has gone off 75 cents a case. The high prices of the war period have shut off consumption to such an extent that the condensers have piled up a surplus of something like a million cases and they have to reduce the price in order to unload. There is also a drop of ten cents a pound in Portland in the price of Tillamook cheese, but the butterfat prices are holding up well.”

CHAPIN—“The Salem-Kings plant is giving special attention just now to increasing the acreage of spinach and beans—two companion crops that will be more extensively used the coming season. We are also going in strong on tomatoes and sweet corn, which are now departures. The farmers are coming across in good shape with the acreage in all lines, though we are not pushing the potato crop very hard.”

E. C. CROSS—“I have just returned from Portland where I have been looking over the rough draft of plans for the new packing house. Within a month I expect things will be lined up for actual operations. We will file our articles of incorporation this week.”

JUDGE BUSHEY—“Everybody in the county is in favor of road bonds all right until it comes to actually getting the money out of them. Then they are sure to be dead against the method adopted for raising money. If you get this across you have got to put up a mighty plausible story to the taxpayers and be ready to do a lot of explaining.”

My advice to you is to go slow in this bond issue.”

MRS. CHAPMAN—“I have been at work for several years, along with Mr. Chapin, of the Salem Kings plant, on this project of enlarging the agricultural department of the Commercial Club. It's been a pet idea with me and I am hoping it will be pushed, for it means more for the Club than any other one thing. I want the farmers and fruit growers of Marion and Polk counties to feel that this isn't an exclusive business men's organization, but one that concerns every man in any line of business. I am glad to say there has been a big increase in the rural membership since I took the office. The future of Salem depends largely upon the co-operation of the farmers.”

TRANS-PACIFIC TRADE

(Continued from page one)

ed to build eight freighters totalling 70,000 tons.

“The more the merrier,” said Dollar. “We are never afraid of clean competition. We have seen many steamship companies come and go. Every new line develops new business and helps the Pacific coast.”

The Dollar company is the biggest shipping concern now engaged in trans Pacific freight business. Dollar said his concern would equip to handle freight as cheaply as any other.

Freight rates are now \$12 over and \$10 back, he said. Normal rates are \$3 to \$5 per ton. The situation is settling to normal, he said, and he added he was glad of it.

During the war rates went as high as \$40 and \$50 a ton.

“But with normal conditions, many proposed freighters will fade away,” he said, “just as they did after the gold rush.”

The Journal Job Department will print you anything in the stationery line—do it right and save you real money.

Why Itch and Scratch With Burning Eczema?

Genuine Relief If You Resort to Sand and Sensible Treatment

There is a very common misunderstanding of Eczema and the various other forms of skin eruptions and irritations that cause so much pain and discomfort. Because the surface of the skin is the scene of the attack, and seems almost ablaze with fiery, burning and itching, these disorders are mis-named skin diseases.

The truth is that they are not really skin diseases, and that is why nothing but disappointment follows their treatment with salves and lotions applied to the surface of the skin.

These irritations, eruptions, boils, pimples, etc., are caused by a disease germ in the blood, which breaks out through the skin, and as long as the germ is in the blood, no cure can come from ointments and lotions, even if you apply them to the surface by the ton.

The rational and sensible treatment is S. S. S., the reliable blood

purifier, which promptly eradicates all disease germs from the blood. When you cleanse your blood of disease germs, the skin is promptly restored to its normal condition.

For more than half a century S. S. S. has been used with the greatest satisfaction for all manner of blood and skin disorders. This fine old remedy was first made by the Indians from medicinal roots and herbs of the forests.

S. S. S. is still made from the original formula, and it is guaranteed purely vegetable. It is an old blood remedy that contains not a particle of potash, mercury or other mineral. There is no finer tonic or system-builder, and a thorough course of S. S. S. will build up the general health and give new vigor to the entire body.

Get a bottle of S. S. S. from your druggist, and begin the sensible, rational treatment today, and you will experience genuine relief, as thousands of others have. If you want any special medical advice regarding your own case, you can obtain same without cost by writing to Chief Medical Adviser, 105 Swift Laboratory, Atlanta, Ga.

BAVARIAN MINISTER RESIGNS

Washington, Feb. 21.—The soldiers' and workmen's council of Munich has issued an ultimatum to the Bavarian government, according to dispatches received here today, demanding that it resign or agree to the following: Dismissal of a number of conservative officials.

Dissolution of the Bavarian army under control of the soldiers council, which would elect all officers.

The war minister, refusing to consider these proposals, resigned. A complete political upheaval is feared.
