Expected That Bill Will Be Passed Calling For Special Election, June 3.

By unanimous vote, the senate today passed senate joint resolution 25, which refers to the people a constitutional amendment authorizing the issuance of \$5,000,000 of reconstruction bonds.

Under the provisions of a companion bill, introduced by Senator Eddy, chairman of the reconstruction committee, it is proposed to expend \$3,000,000 of the proposed \$5,000,000 for the construction of public buildings and for carrying out the soldiers' land settlement program.

The remaining \$2,000,000 is to be left as a reserve to meet any possible future emergency. It is expected that a bill will be passed calling a special election for June 3 at which time the proposed constitutional amendment will be submitted.

The companion bill, which is senate bill 296, was also passed by the senate today. Before being passed, slight amendments were made, one to include an item of \$20,000 for the completion of the armory at Marsfield and the other reducing the amount to be allowed for the soldiers' land settlement to \$750,000.

If the bond issues carries, Senator Eddy said it was not the purpose to have the bonds issued all at once, but to have them issued just as they are needed to deal with the unemployment situation and other reconstruction problems.

Senators Dimick, LaFollette and Wood voted against the bill. Another important bill passed by the senate today was senate bill 294, by Eddy, which authorizes the state industrial accident commission to expend \$400,000 of its accumulated surplus for building a hospital at Portland.

But if the reconstruction bond issue passes, the commission will use \$250,000 of its funds and \$250,000 will be taken from the bond issue.

Senators voting against the bill were Dimick, Farrell, Hurley, Jones, LaFollette, Strayer and Wood. The senate passed senate bill 12, by Hinson, which exempts the property of civil war veterans, up to the value of \$250, from taxation.

It also passed house bill 281, by the Clatsop county delegation, increasing the salaries of the officials of Clatsop county.

The senate killed joint amendment 18, which asked the president to use his influence in behalf of home rule for Ireland.

COUNCIL STILL DEADLOCKED

Portland, Or., Feb. 21.—The Pacific Coast Metal Trades Council's convention is still deadlocked over the proposed coast wide shipyard strike.

The collapse of the strike in the Oakland, Cal., district has weakened the cause of the radical delegates, as has the determined stand of the Emergency Fleet corporation not to consider the grievances of shipyard workers until they return to work under conditions existing January 31.

It is reported that metal trades delegates left the strike issue to the boilermakers last night and that the latter organization declined to be the "goat."

A definite vote is expected from the conference today.

New York, Feb. 21.—The Evening Sun financial review today says: In its essential characteristics, there is no difference between today's stock session and those which have immediately preceded it.

A good deal of profit taking went on but offerings were absorbed at advancing prices during the greater part of the session.

1,500,000 FRENCH KILLED

An Atlantic Port.—France in four years of conflict to preserve her own liberty and that of the world, according to Andre Tardieu, French high commissioner to the United States, has lost 1,500,000 men killed and as many wounded.

America owes France an enormous debt of gratitude for this heroic outpouring of her life's blood and also for the reported saving of thousands of lives in this country and throughout the world through the discovery by French peasants of a peristaltic remedy for stomach, liver and intestinal ailments, which, it is said, has relieved innumerable suffering and prevented thousands of surgical operations.

Geo. H. Mayr, prominent Chicago chemist, imports the ingredients and sells this remedy in America under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.
