The Plants Will Close Because Of Inspection

Eugene, Or., Feb. 25.—The six mills of the Oregon Tie & Lumber company of this city will be closed on March 1, according to announcement today of the management, until there is a more favorable attitude on the part of the railroad administration toward the tie cutters of this district. More than 150 men will be thrown out of employment. The mills of the company are located at Wendling, Bear Creek, Bellefontaine and Alder, three mills being located near Bear Creek. In addition the company operates hewed tie camps at Roseburg, Willamette, Oakland, Isadore, Cottage Grove, Veneta, Bellefontaine and Alder, and all will be closed.
The reasons that have made this action necessary lie not in the price received from the railroad administration, but in the system of inspection that throws out 30 per cent of the output, according to the management, although the tie men say they are now producing ties that are 40 per cent better than they produced several years ago.

LEWIS REPLIES TO ATTACKS ON LEAGUE

Declares Monroe Doctrine Will Be Strengthened Rather Than Violated.

By L. C. Martin
(United Press staff correspondent)
Washington, Feb. 25.—Opposition to the league of nations "is a personal and political attack on President Wilson, made by men who have nothing to offer in place of the plan they assail," Senator Lewis, democratic whip, declared today in a speech to the senate opening the defense of the league plan.
In reply to the specific objections raised against the league plan, Lewis said:
"It is asserted by the opposition that it violates the principles of the Monroe doctrine, which guarantees the countries of South and Central America from aggression by European countries. Section: Ten Deals With This."
"It was to prevent this very assumption that section ten of the charter pledged all of the governments in the league to resist aggression on any state or government. The words of this section ten are taken from the spirit of the resolution passed by the Hague peace conference in 1907, resolving to preserve the Monroe doctrine in any treaty of, or alliance of world nations for world peace."
Lewis said that the fear Europe will outvote America is groundless, since with the eleven American Republics lined up together, the nations of this continent could outvote Europe nine to five on any American policy.
Instead of Great Britain and her colonies working against the United States, Lewis said the colonies at least would vote with this country on Japanese naturalization or kindred subjects and England, he asserted, would not oppose her colonial children.
"The document on its face refutes every attack," said Lewis.
"Now, I protest against our opponents assuming to create the political issue by crying 'nationalism' against the object of the league. I oppose their design in trying to convince the American people that the spirit of democracy was against nationalism of America for internationalism of the world."

Washington, Feb. 25.—Democratic leaders in the house want President Wilson to call an extra session of congress within 30 days after the end of the present session, March 4.
Necessity for outlining a permanent merchant marine policy will be one of the first arguments.
Others will be necessity for permanent railroad legislation and impossibility of passing adequate army legislation in the week remaining of this session.

DON'T USE CURLING IRON! HERE'S A BETTER METHOD

Thousands of ruined heads of hair bear striking testimony to the injurious effects of the heated curling iron. The continuous use of such instrument invariably—makes dull, dry, shrivelled hair, with split, broken, uneven ends. If more women only knew it, the hair can be kept beautifully wavy, soft and fluffy—without any harmful result whatever—by the occasional use of plain liquid silmerine. A small quantity is applied before doing up the hair, using a clean toothbrush for the purpose, drawing this down the full length of the hair. The curly effect is quickly acquired and lasts quite a considerable time. It is so natural looking, and the texture and lustre of the hair are so improved, that the woman who adopts this simple method will never go back to the atrocious waxing iron. A few ounces of liquid silmerine from the druggist will last for weeks. The liquid is agreeable to use, and it leaves no gummy, greasy or odorless trace.

Supermen Are Busy Fixing Yank's Shoes

Coblenz, Feb. 2. (By Mail).—From fighting American soldiers in the Argonne to voluntarily repairing shoes for these same Americans is a long jump. Several score discharged German soldiers have made it.
In their withdrawal from the Rhine the German army left behind about 30,000 pounds of shoe leather, and a large quantity of shoe machinery. Maj. Lewis Landes of the salvage department conceived the idea of using the leather and machinery to repair the foot gear of the troops in the occupied territory, thereby saving the shipping space necessary to ship the shoes to France and back again. So he set up a big repair shop with about 100 German employes here in Coblenz. About half of these are demobilized soldiers, who were glad to get work, even at repairing the shoes of their enemies.

The King-Smith department store at Sheridan has passed into the hands of the Miller Mercantile company of McMinnville.

Agitation has begun at Hood River for the annexation of the Mosier fruit district, now part of Wasco county, to Hood River county.

Leader Of French Army Band Straight From The Front—Comes With Musicians

With everything subsequent to patriotism, really good band music has become a rarity even at fairs and exhibitions during the past two years. Musicians had to fight like other men. There has been no time for artistry; poet and mechanic alike have felt the pull of civic duty and marched away. For the past two years there has been a dearth of the good bands which formerly tormented the country. War claimed these organizations as it has claimed much that has hitherto been held indispensable in the communal life. Therefore we hail the coming of Captain Fernand Pollain and his French Army Veterans as both a musical treat and patriotic event.
As these men were sent over by the French government to help us in war activities now that peace has come, no little interest attaches to their coming to Salem Armory on March 5th. Captain Pollain, up to a few months ago, has been giving some of these same soldier-musicians military orders in the field and only when too severely wound-

SORE THROAT

Colds, Coughs, Croup and Cystitis Relieved in Two Minutes
Is your throat sore?
Breathe Hyomei!
Have you a cough?
Breathe Hyomei!
Have you a cold?
Breathe Hyomei!
Have you a cystitis?
Breathe Hyomei!
Hyomei is the one treatment for all nose, throat and lung troubles. It does not contain any cocaine or morphine and all that is necessary is to breathe it through the little pocket inhaler that comes with each outfit.
A complete outfit costs but little at druggists everywhere and at D. J. Fry's and Hyomei is guaranteed to banish croup, cough, colds, sore throat and bronchitis or money back. A Hyomei inhaler lasts a lifetime and extra bottles of Hyomei can be obtained from druggists.

ed to be of further service at the front did he consent to come to America as conductor of the French Army Band veterans. Most of the men with him have been wounded in action and carry service stripes as well as musical diplomas. Each man past master of his own particular instrument the French Army Band veterans excel over all other military bands, and in addition, every member is not only a fine musician but a hero.

Their music isn't mere crashing of trumpet and sibilant. Like the perfect blending tones of a great organ, the effect of their ensemble of unusual instrumentation is rich and beautiful in tone, and replete with delicacy of feeling. In their rendition of martial music there is shading and depth of a kind that ordinary bands do not possess, for the French Army Band is France's best, and intense patriotism is to them a thing not only felt but expressed in

THE HEROIC SACRIFICES OF FRANCE

Never in the world's history has any nation ever sacrificed so heroically of its blood and treasure than has France in the present world conflict. Her great peasant population have suffered and died for democracy with undying fortitude. America also owes those people a great debt of gratitude for a perfect remedy for stomach, liver and intestinal disorders which it is reported has already saved many American lives and prevented thousands of surgical operations. Geo. H. Mayr, for years a leading Chicago chemist, imports and sells it in this country under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry, Capital Drug Store, and druggists everywhere.
