HOUSE APPROVES RISE IN SALARY OF WARDEN

One Must Register Thirty Days Before Special June Election To Vote.

The voting machine is not a buried relic, even if the original bill providing for such was passed in 1913 and not found of special practical value by the commission appointed at that time to investigate.

By a majority of one vote, the house passed a bill providing for the creation of a state board of examiners for voting machines. If this board should find one that really works, it is optional with the county court to adopt one. Leoney and Martin voted in favor of the voting machine and Hughes, Weeks and Jones against it.

Polk and Lane counties are authorized to levy a tax of one tenth of a mill to pay bonuses on poppers, moles and vray diggers, or to buy poison to produce the proper effect on such, in a bill passed by the house. The levy is to begin this year. Sculpin are to be redeemed at the rate of five cents each. The bill reads "authorized, directed and empowered" to levy the one tenth of a mill. This is the same levy that has been in force in Marion county for several years, bringing in something over \$4000 for sculpin.

The doctors in the house had introduced a bill that threatened to interfere with all but the old line regulars, although on its face the bill appeared quite innocent. About the same time a bill had been introduced regulating the practice of naturopaths, or naturopathy. The naturopathy bill had been laid on the table but its friends were insistent on its passage, claiming that in years past, every time a new drugless practice appeared, the old line doctors fought it. To prevent the naturopath bill from passing, it was finally agreed to withdraw all bills interfering with those using drugless methods and other practices. Hence, there may be no doctor bill pass this session.

No Soliciting in Schools

No soliciting from the pupils in a school will be permitted. A bill that had already passed the senate, went through the house yesterday providing that no teacher is to be permitted nor any one else, to solicit any contributions in a school or taking any donations of money or other things of value from pupils or to sign any paper to be presented to the school directors of the district.

Attorney General Brown will have \$7000 to distribute among his three assistants instead of \$5700 as in the past. The bill got through the senate and after several serious hitches in the house, managed to get through yesterday.

When the veterans of the late war want to meet, it shall be the duty of the custodians of any armory or military meeting place to allow the veterans to meet, free of charge. A bill with these provisions passed the house, and as it is military in its nature, will probably become a law.

Part time schools are to be established in districts where there are 15 pupils between the ages of 14 and 18 years who are employed. All children between the ages of 10 and 18 years must be legally employed or in school. If employed, they must attend five hours of the week if they have not acquired the ordinary branches in the first eight years of their school life. The state board of vocational training is to establish the rules for the part time schools.

County Treasurer Gets Increase

The county treasurer of Marion county has had his salary raised from \$120 000 to \$1800, or at least such a bill has passed the house. The house was willing to pay the deputy in the office of Superintendent Smith \$75 a month, but the senate amended by providing that the county court should decide the salary as well as fix the traveling expenses of Mr. Smith.

For the coming special election June 3, one must register 30 days in advance, if not already registered. The old law was that one might register 15 days in advance of a special election. Big things are up for the people to decide at this June 3 election.

The old scheme of going to a labor agency and getting transportation to some point, and then refusing to work cannot be worked any longer. A bill has

Nearly five thousand of our boys in khaki and blue are coming back to work. We shall, of course, make a place in our organization for every one of them, but we wish to do it without throwing out of employment the men who took their places and have worked faithfully for us ever since. This is not going to be so easy for us as some others, because the government designated ours as an essential industry during the war, and we actually increased the efficiency of our organization after our boys left to join the ranks.

OUR EARLY--DELIVERY DISCOUNT PLAN

If you will take delivery of a Mogul or Titan tractor now we will reward your co-operation as follows: To those who will accept delivery of a Mogul or Titan 10-20 on or before March 8th we will give an Early Delivery Discount of 5 per cent from the price of the tractor. (This amounts to \$61.25 in the case of the Titan 10-20 and \$56.25 on the Mogul 10-20.)

After March 8th the following discounts will be given:

- For delivery during the week of March 10 to March 15, inclusive 4 per cent
- For delivery during the week of March 17 to March 22, inclusive, 3 per cent
- For delivery during the week of March 24 to March 29, inclusive, 2 per cent
- For delivery during the week of March 31 to April 5, inclusive, 1 per cent

This discount will go a long way toward paying the fuel bills of your tractor during this season.

By taking advantage of this Early Delivery Discount, you will not only be helping yourself, but will enable us more easily to put back to work our army of returning boys without breaking up our present organization.

You will find that you need a few weeks to get acquainted with your new tractor. The man who has his tractor can become familiar with it, so that

We can, however, give steady work both to our present help and to the returning soldiers and sailors, if we can bring about an immediate increase in tractor productions. In order to do this we must move forward to the farm some thousands of tractors that are ordered for delivery at various dates up to May 1st, and we shall also have to ship a large number of tractors that farmers intended to order later this season, but could just as well take now. To these farmers who are so situated as to be able to take advantage of it we make the following proposition:

when the first day of good plowing weather dawns, he will be able to get in the field without a moment's lost time. That in itself is a very good reason for taking early delivery.

Go to your dealer and tell him that you will accept immediate delivery of your Mogul or Titan 10-20 horsepower tractor, so he can make up his carload shipments without delay.

INTERNATIONAL HARVESTER COMPANY OF AMERICA, CHICAGO, U. S. A.

In this country these tractors are sold by Charles R. Archard Implement Co., 200-210 State St. Salem, Oregon

passed both the senate and house, providing that it shall be a misdemeanor to attempt any such thing.

The salary rise for the new warden of the penitentiary passed the senate several days ago when the senators were killing every salary bill in sight. When the bill appeared in the house there wasn't a murmur and it went through. Besides his house rent and such, the warden of the state penitentiary will now receive \$3000 a year. The old law provided for a salary of \$2000 a year.

The bill of Senator Pierce authorizing assessors to secure statistics as to land devoted to agriculture or horticulture in the state was killed by the house. Also the bill exempting veterans of the Civil war from taxation on property of the value of \$2500.

Prices In Today's Market Advanced All Along Lines

New York, Feb. 26.—The New York Evening Sun Financial Review today says: Today's stock market more than justified those who refused to have their bullish faith impaired by the setback of yesterday, which strictly speaking was not a setback at all, merely a breathing spell to be expected following a week or so of continuous progress upward.

Today's prices advanced all along the line with the rubbers and motors leading. Steel went up a point or so. The equipments and coppers were strong. American Beet Sugar, Continental Can, the shipping issues, American Sumatra and Kelly Springfield which ran up to 114, and others were spectacular.

Former University Professors Rob Safe

Oakland, Cal., Feb. 26.—Two former instructors in psychology and criminology at the University of California applied their theories to practice last night, according to East Bay police. The result is that one of them, Thornton Fredrich Rollins is dead, and the other, Westphal Dow, is in jail.

The police announced this afternoon that Dow had confessed that he, with Rollins, planned to rob the safe of the Western Motor company.

This confession came after Rollins in a dying confession, had implicated Dow.

P. W. Aiken, bookkeeper of the company, who was arrested, was later released when the police had assured themselves he had no connection with the crime.

Dow and Rollins, were recently honorably discharged from the army. Rollins was shot through the abdomen by Policeman Peters when the latter surprised him in the act of robbing the safe.

May Ask President To Avert Telephone Troubles

Springfield, Ill., Feb. 26.—President Wilson will be asked to adjust difficulties of telephone workers of the northwest who have voted to strike, according to a decision today of the executive committee of the International Brotherhood of Electrical Workers.

The executive committee will set to

day on a referendum strike vote of telephone linemen, switchboard operators, and electrical workers in Washington, Oregon, California and Nevada.

Alleged refusal of Postmaster General Burleson to answer the demand caused 15,000 western workers to vote for the strike. Approval of their action by the central committee will probably lead to immediate action, it was said.

TEMPS ISN'T WORRYING

Paris, Feb. 26.—"The home affairs of the United States are none of our business," declared the Temps in discussing President Wilson's Boston address.

"We will not try to know if the campaign in the United States against the covenant is really against the league of nations, or if it is only the pretext for a fight between political parties.

"We wish and confidently wait for America to ratify the league."

Seattle Middleweight Won Decision Over Jimmy Darcy

Seattle, Wash., Feb. 26.—Mickey King, Seattle middleweight, copped the decision over Jimmy Darcy, Portland gladiator, in their four round mix at Crystal Pool here last night.

Darcy clocked King a couple of hard smashes on the jaw in the first round but the Seattle man refused to dive. In the second King began inflicting tactics that wore down the Portlander.

BOLSHEVISTS CONTROL LISBON

Madrid, Feb. 26.—Bolshevists have been in control of Lisbon since Saturday according to travelers reaching Madrid from that city today. This was the first news received here of

the reported new outbreak owing to strict censorship in Portugal. The government is said to have agreed to dissolve parliament.

Barricades were thrown up in the streets and fighting continued until Sunday.

London Papers Praise Wilson's Boston Speech

London, Feb. 26.—London newspapers generally were unflinching in their praise of President Wilson's speech at Boston.

The Post was the only newspaper which attempted to throw cold water on the address.

"We tried, not with complete success to blow the foam off the divine breaker of eloquence with which President Wilson refreshed the dry city of Boston," said the Post.

Other newspapers commented as follows:

Daily News: "Every pacific interest in Europe is with President Wilson in his appeal to his people. We do not think the appeal will be in vain."

Mail: "President Wilson appealed to the best instincts of his countrymen. The alternative of the United States returning to its isolation is unthinkable."

Chronicle: "If President Wilson succeeds in carrying his people with him in this crusade, he will have rendered his second great service to mankind—as great as that of bringing the United States into the war."

Telegraph: "President Wilson's words are a challenge to humanity which will ignore them at its peril."

Times: "The policy of isolation is something to which America cannot return."

HOLD RANCH HAND.

Modesto, Cal., Feb. 26.—Rufus Craig, ranch hand arrested here on information furnished by the authorities of Klamath Falls, Oregon, will be taken back to that city tonight by Detective Morley, who arrived here today with extradition papers.

Craig is accused of threatening to kill B. Y. Landers, a former employer. He was released on a writ of habeas corpus yesterday and re-arrested a few minutes later for the purpose of holding him until the arrival of the Oregon officer.

FEEL MISERABLE FROM THAT COLD?

Colds and coughs are quickly relieved by Dr. King's New Discovery

Nobody should feel "perfectly miserable" from a cold, cough or bronchitis attack for very long. For it takes only a little while to relieve it and get back on the road to recovery when Dr. King's New Discovery is faithfully used. It soon loosens the phlegm, relieves irritation, soothes the parched, sore throat, brings comfort.

Half a century old and more popular today than ever. 60c and \$1.20.

Make Your Bowels Behave

Make them function with gratifying precision. If regulation of the diet does not relieve their torpidity, Dr. King's New Life Pills will. They are perfect bowel trainers, cleanse the system surely, comfortably. 25c.
