GRIP, INFLUENZA

Hamlin's Wizard Oil a Reliable, Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and sniff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.

"Industrial Parliament" Averted Labor Crisis

London, Feb. 28.—The feeling prevailed in official circles today that creation of "industrial parliament" containing representatives of capital and labor, together with the miners' decision to postpone their strike until March 22, has temporarily averted the labor crisis. Nobody, however, was willing to predict that the situation has been eased up more than temporarily.

The final result of the move to reach an understanding on industrial problems it was said, depends upon the confidence shown by the laborites in the new "industrial parliament" and the ability of union leaders to prevent unauthorized strikes by more radical elements. The weakness of the situation, it was pointed out, is that the "parliament" has no real power and can only advise acceptance of its recommendations.

Relief From Floods Of Mill Creek Is In Sight

For the benefit of those living in the southeastern part of the city, there is at least some hope of relief from the waters of Mill creek, not immediately, but within a couple of years.

Acting on a resolution introduced by Representative Hughes of Marion county, a committee of three has been appointed to co-operate with the state engineer, a committee from the city council and with the county court to make a survey of the lands from the reform school to the city.

This committee will begin work within a short time and have everything in shape to make the proper recommendations to the next legislature.

LIVESTOCK MARKET

North Portland, Feb. 2.—At the union stock yards yesterday, cattle receipts totaled around 1700 with quality, generally speaking, very good; running much better in both receipts and quality than last Monday. They were particularly good. They sold up to 1 1/2 cents; other classes of cows sold at steady prices.

Top steers brought an advance of 50 cents, selling at 14 1/2c. Common steers sold at good, steady prices, well in line with previous sales the past week.

Quite a few bulls sold at 6c to 9c. Demand has been very good and quality considered, have sold well.

Cattle are in a strong position; sales are ready for all offerings. Fourteen cents have been the top.

Hogs—Receipts were 2400 head. They were a very even bunch of good quality porkers. "Valley" hogs sold well up with eastern Oregon hogs. Prices were advanced as much as 50c in some cases, the general hog advance was from 25c to 35c. Bulk of the sales were at 47.25.

Sheep—Receipts 1000. Sheep market is in a very healthy condition. Prices are steady with quotations, with an undertone of strength.

When Doughboy Charlie receives a gift of hamburger cheese and biscuits from "someone back home," as one of the incidents in "Shoulder Arms," the second million-dollar Chaplin comedy, he decides that it is a much more appropriate thing for the enemy than for an American hungering for cake and apple pie, with the result that it successfully performs the work of an artillery barrage in discouraging a pending Hun assault on the Allied trenches.

"Shoulder Arms" will be shown at the Liberty theatre on next Wednesday, Thursday, Friday and Saturday.

Dr. Robec will lecture this evening at 8 o'clock in the public library. The subject of the discourse will be "Self-determination of instability."

TO BE NO IMMEDIATE RETURN OF RAILROADS TO PRIVATE CONTROL

Director General Hines Announces This To House And Senate Committee.

Washington, Feb. 28.—There will be no "immediate or precipitate" return of the railroads to private ownership, Director General Hines announced today.

In a letter to the house and senate committee, Hines declared there would be no relinquishment of the roads "until there has been an opportunity to see whether a permanent program of constructive legislation is likely to be considered soon."

Hines conferred with the president relative to disposition of the railroads last night. He addressed letters to Chairman Smith and Chairman Martin of the senate committee on interstate commerce and appropriations respectively and to Representatives Simms and Sherry, chairman of the house committee on interstate and foreign relations and appropriations setting forth the results of the house committee.

Doesn't Recommend Step.

"As you are aware," the letters said "there has been some inquiry as to whether there might be an immediate or precipitate return of the railroads to private management. The railroad administration has indicated whenever this inquiry has been made that it would not recommend that any such step be taken."

"For your further information, I am glad to say that I have now discussed the matter with the president and he authorized me to state that not only will there be no sudden relinquishment of the railroads but further it is not his purpose to relinquish the railroads until there has been an opportunity to see whether a definite program of constructive legislation is likely to be considered promptly and adopted within a reasonable time."

Railroad administration officials indicated that the move today would be used by the administration leaders in congress to hurry through the bill providing an appropriation of \$750,000,000 which will be added to the revolving fund available for use in financing the roads. It was pointed out that unless this money is made available soon, serious trouble is ahead for the railroads and equipment manufacturers. Hines was understood to have given information of the present serious condition to the senate appropriations committee early this week.

Proceeding With Plans.

Railroad administration officials are going ahead with their plans for additions and betterments on the assumption that the addition to the revolving fund will be granted by congress. No contracts will be let however, until the money is actually available. Hines said that it was not the policy of the railroad administration to authorize extensions, additions and betterments, or further capital expenditures without the consent of the railroads affected. This rule will hold so long as the government controls the roads, he said, unless the proposed improvements are virtually necessary to the public interest in which case the railroad administration will use its authority to procure all improvements required to give pre-war service.

DEATH OF EVA COOLIDGE.

Eva Coolidge died at Silverton at 5:30 this morning, from an apoplectic stroke, after an illness of but eight hours.

The deceased had been a resident of Silverton practically all her life and was the daughter of A. L. Coolidge, a pioneer banker. She was highly esteemed and was prominent in all the affairs of the busy little city where she lived. In 1912 she was elected president of the Coolidge & McClaine bank and held that position up to the time of her death.

Of this well-known pioneer family only one member, Alfred Coolidge, a leading banker of Spokane, Washington, survives, a brother of the deceased.

SALEM MAN BUYS FARM

A deal was closed today whereby E. J. Bondsehu of Salem, became the owner of the 100 acre farm belonging to Porriue & Marsters, situated about 8 1/2 miles east of Roseburg, known as the old Stader farm. The deal was made through the Walker & Chapman real estate firm of this city.—Roseburg Review.

Great French Sacrifice Calls For World's Gratitude

The French have suffered and bled more than any other nation at war. Of her 36 million population, 6 million were placed in the trenches and have poured out their blood on the altar of Liberty. America will ever remember this heroic sacrifice. It is likewise not unmindful of the great service to the world rendered by the French peasants who have given it a perfect remedy for stomach, liver and intestinal disorders, which is reported to have relieved incalculable suffering, saved thousands of lives and prevented innumerable surgical operations. Geo. H. Mayr, prominent Chicago chemist, imports and sells it in this country under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

HOME INDUSTRY FACTS

Who can say—man or woman—"Bigger payrolls in Oregon mean nothing to me?" There is no one who does not benefit in some way from the circulation of payroll money. It buys necessities and luxuries. It adds to the joys and softens the sorrows of life—and in doing so travels through the whole community.

The way to make more of it in Oregon is to USE HOME PRODUCTS.

Russian Opponents Join To Oppose Allied Interference

London, Feb. 28.—Social revolutionaries have joined forces with the bolsheviks, the former opponents, to oppose allied interference in Russian internal affairs, it was reported in a wireless dispatch received from Moscow today.

The dispatch said that social revolutionary members of the old constituent assembly had arrived at Moscow for the purpose of negotiating with Premier Lenin. They issued a manifesto admitting the charge that the bolsheviks had accepted money from Germany are false. The manifesto concluded:

"Allied interference in internal Russia is becoming more definite. Although we do not agree with the bolsheviks on many points, it is our duty to call all citizens, workmen and peasants to cease civil war and unite against the common enemy."

Conflicting Price Movement Characterized Stock Market

New York, Feb. 28.—The New York Evening Sun financial review today says:

Divided sentiment, profit taking sales, short selling with pool operations in new directions combined to produce very conflicting price movements in today's stock market. The way in which selling was rested did not indicate an overbought state, for after moderate concessions in prices had been recorded offerings were well absorbed.

Alternate waves of strength and weakness developed in the afternoon trading.

Selling ex-divided 2-13, United States Steel showed a net loss of about a point during most of the session. Independent Steel shares, however, held firm. The shipping shares were all higher.

SILVERTON WON GAME

With a bunch of rosters comprising pretty much all of the high school and a lot of citizens of Silverton the basketball team went to Salem Tuesday evening and defeated the Salem high school team on their own floor. The Silverton boys piled up a score of 10 points before the Salem players found themselves, Gill finally capturing a free throw.—Tribune.

Expectant Mothers View Event Calmly

Time Brings Knowledge That by Use of Penetrating Remedy Suffering Is Avoided.

Thousands of women have found by the application of Mother's Friend, the penetrating external remedy, prepared especially for expectant mothers, that pain and suffering at the crisis is avoided and that in addition the months preceding the crisis are free from nervousness, nausea, straining and bearing-down pains and general discomfort. Mother's Friend makes it possible for the expectant mother to herself actually aid nature in the glorious work to be performed, and no woman should expect to give nature a helping hand. It will mean infinitely less pain and the hours of the crisis will be less. The period is one of calm repose and peaceful nights.

By the use of Mother's Friend the skin is kept soft and natural, and experienced mothers say that it is much better to keep your health and good looks during the period of expectancy than to try to regain them afterward.

Write the Household Remedy Company, Dept. G, Lamer Building, Atlanta, Georgia, for their interesting Motherhood Book, and obtain a bottle of Mother's Friend and begin its use at once.

Second M. E. Conference Begins Today In Portland

Portland, Feb. 28.—The second of three conferences in the Pacific northwest, preliminary to the opening of the \$100,000,000 Methodist centenary drive, started in Portland today and will continue until the evening of March 1st.

National leaders of Methodism, including the pastors of some of the largest churches in the east, will address the conference. The heads of world-wide Methodist societies are also here for the convocation.

"The conference ushers in the most gigantic religious effort ever made in America," declared Dr. A. L. Howarth, associate secretary of the centenary in the northwest, today. "New conditions must be faced and it is the intention of the Methodist church to face them. The centenary is not the sole object. The centenary is to be the beginning of a great religious renaissance which so many people have anticipated as a result of the war."

General March's weekly report on Saturday shows that 1,161,518 soldiers have been released from the army.

Doctor Findley To Return To Salem About March 12

Doctor Findley writes from Los Angeles, California, where he is taking a post-graduate work on the eye, ear and nose and throat, that he is enjoying the best work he has found since he was in Europe studying with the THEN admired German specialists. The courses are given by Chicago specialists who are enjoying the sunshine and flowers of California while Chicago winter is passing. Doctor Findley's letter reads in part as follows: "There are oculist and aurist here from almost every part of the United States taking this post-graduate work. Los Angeles is a delightful place at this time of the year for a convention of this kind. The sun has shown every day that I have been here with but little more than enough rain to lay the dust. From one to a half dozen airships may be seen in or near Los Angeles almost every day flying by or maneuvering in the air. The luscious oranges and other citrus fruits fresh from the trees are of course appreciated, yet I am anxious to get back to Oregon not only on account of my family and friends but for other reasons too numerous to mention. March 11th or 12th will find me back in my office and I shall be glad to be there."
