### UNUSUAL SITUATION

(Continued from page one)

future of the men returned from France who may not be able to return to their former occupations. It failed to pass the \$100,000,000 Lane bill providing for the reclamation of land as homesteads for soldiers. The only material provisions made for the men of the returning army was the bonus of \$60 to each officer, enlisted and an nurse provided for in the revenue bill.

#### Repeal of Luxury Taxes.

The house passed a repealer of the semi-luxury taxes in the revenue bill, but the senate failed to act on it. This leaves the people to pay 10 percent on all articles of clothing over a certain price and many other "semi-luxuries" unless it is repealed before July 1st.

#### Prohibition Enforcement.

Present laws will have to be applied to enforcement of war time prohibition which becomes effective July 1. Special enforcement legislation failed to get through the senate judiciary committee. Senator Sheppard, dry law author, said today, however, that present laws should prove adequate.

#### Unemployment.

This question was presented to congress through hearings before the senate education and labor committee at which graphic figures were presented showing that the unemployment condition existing today will, if conditions run to form, be followed in a few years by another wave of unemployment. Senator Kenyon proposed a law to provide permanent means for meeting this situation, but it was assailed on the ground that its \$100,000,000 would be wasted. Congress did nothing about employment except to argue whether it was true that men were out of work.

#### ASSIGNED TO CONVOY

Washington, Mar. 5.—The war department today announced the following organizations assigned to early convoy:

157th, 370th and 639th aero squadrons; Fourteenth engineers; base hospital 83; companies A and E, 18th engineers; signal corps casual company No. 3.

## ROADS CAN BE BUILT FOR \$12,500 A MILE

### Each District Will Be Asked To Grade And Prepare Its Roads For Hard Surfacing

As one of the big problems of the present day is that of good roads and as Marion county is making an effort to secure market roads to connect with the great highways, the following recommendation of the special road committee appointed at the February 29 meeting are of interest:

One of the first recommendations is that each road district be required to grade out of its own funds, its own market roads, according to surveys made by the county court. This will be one of the conditions before the county court will consider paving a road.

This requirement is similar to that of the state highway measure that requires that counties grade the state highways within their boundaries before the state will pave same.

As to paving plants, the recommendations read: "The county court estimates that the maximum number of plants it could operate efficiently at first is four or five and that each one could pave five miles of road each year at a cost of \$12,500 per mile. This cost per mile for paving does not include the grading expense. We find that the county has some paving plants and that three more will cost \$112,500 and a fifth one \$37,500."

Money with which to build roads are estimated by the committee as follows: For 1920, there will be received by the county \$21,106 from the auto license tax returned to the county, \$43,000 from the one mill tax and \$175,900 from the general road fund, making a total of \$239,106. The first year of building 20 miles of road will be a little more expensive than others as there must be included the initial cost of \$112,500 for three paving plants. For the second and third years of building 20 miles each, the cost is estimated at the \$12,500 per mile rate.

One of the suggestions of the committee is as follows:

"We recommend that the county be authorized to sell ten year serial bonds to the extent of not less than \$200,000 when the funds are needed, or a special tax of 4.65 mills to raise the said \$200,000. This will provide sufficient funds for the 1920 requirements and provide a surplus to defray the miscellaneous expenses above mentioned."

If the bonds are to be retired at the rate of \$50,000 a year beginning with the sixth year, they will all be retired by the ninth year.

leading merchants and insist in forceful language that they must reduce the cost of living anywhere from 15 to 25 per cent. "And they can do it," he added, and later said that living costs could be reduced from 10 to 50 per cent.

His second proposal was that manufacturers should be asked to start repairs and enlargements immediately. "You will find in all your towns jobs for men if this is done," he said.

#### Ask Shipping Board's Policy.

He next recommended that the shipping board be called upon to announce its policy, pointing out that contracts on numerous steel ships were being held in abeyance on the Pacific coast while men were unemployed.

The railroad problem must be settled immediately. Piggott said, declaring business is not so much interested in what is done as it is in having something done.

He second congress for failure to appropriate money to finish the Alaskan railroad and for not acting on Secretary Lane's \$100,000,000 reclamation project.

#### "Make Them Do Duty."

"We must get after these senators," Piggott said. "We must make them do their duty."

"It is not necessary, at this time to reduce wages. We're going to take care of our returning labor on the Pacific coast and we're not going to do it by fighting labor."

Piggott praised labor on the coast and said that bolshevism is practically impossible because conditions here do not compare with conditions in Europe.

Ernest Trigg, a Philadelphia labor leader, followed Piggott and advocated home loan banks to aid home building and correction immediately of the schedule of freight rates on building materials which, he said, was designed to prevent their movement during the war.

Mayor Carmichael of Sacramento, Cal. advocated the formation of citizen's associations to aid in home building.

### Powhatan, Sierra And Santa Marta Arrived

New York, Mar. 5.—The transports Powhatan, Sierra and Santa Marta arrived today with a total of 4,997 officers and men aboard.

The Powhatan, which carried 2,530 men left Bordeaux on February 7 but was obliged to turn back because of an epidemic of influenza aboard.

The Sierra had 1,469 troops aboard which will go to Camp Merritt. She left Bordeaux on February 19 and was delayed five days by boiler trouble.

The Santa Marta, which sailed from Bordeaux on February 17, carried 98 casual officers and men.

Those on board the Powhatan were the Sixty Sixth regiment of coast artillery complete, and portions of the Forty Seventh regiment of coast artillery. The 35th field artillery and 336th field artillery.

Aboard the Sierra were the 312th ammunition train complete; detachment of casual company 34; Bordeaux convalescent detachments 72, 109, 110, 111, 112 and 114, three naval officers and 17 casual army officers.

## WORTH WEIGHT IN GOLD, HE SAYS

### Milwaukee Man Says Mother Suffered Eighteen Years—Tanlac Restores Her.

"If everybody in Milwaukee knew how much good Tanlac has done my mother there, isn't a one who wouldn't think just as I do—that it's worth its weight in gold," was the interesting statement made by Frank P. Passage, brakeman on the Chicago, Milwaukee & St. Paul railroad, living at 26 35th St., Milwaukee, recently. Mr. Passage's mother, Mrs. Minnie Passage, at the time she came to Milwaukee, four years ago, had been a resident of Shannon, Illinois, for fifty years and is beloved by all who know her.

"For eighteen or twenty years," continued Mr. Passage, "my mother has had trouble with her stomach and I can truthfully say that Tanlac is the only medicine I have been able to find in all that time to do her any good. Nothing she would eat agreed with her and she was subject to frequent attacks of acute indigestion. In a little while after eating, her food would sour and blast her up with gas and cause her to suffer for hours. At times this gas would press on her heart, almost cutting off her breath, and I actually thought she was going to die. She complained of awful pains thru her stomach and left side and would belch up sour gas for hours. I have often had to get up in the middle of the night and doctor her on account of this gas, and I don't believe she ever got a good night's rest on account of the pain she suffered. During the past year she lost twenty five pounds in weight, or more, and all her strength seemed to leave her. During the past six months she has failed very much faster. All she was able to eat was a little soup or milk and soft-boiled eggs and even this would hurt her. Her condition became so serious that on December the seventh I quit work in order to stay home and take care of her.

"One day I noticed a Tanlac testimonial in the paper which was so straightforward and convincing that I told mother I wanted her to try the medicine. She agreed and at the time she started taking it she had been down in bed for five weeks and couldn't stand on her feet but a few minutes, if she tried. Well, she has taken two bottles now and you may believe it or not, she is up doing all her cooking and housework and is just feeling fine. She is now sixty nine years of age, but I declare she gets around like one many years younger. She sleeps like a child, eats anything she wants and that gas and indigestion has stopped bothering her almost entirely. I have never seen such a change in anyone as Tanlac has made in mother. I am very grateful for it and she is feeling mighty happy herself. We can't say too much in behalf of Tanlac, and have been telling everyone in the neighborhood about it."

Tanlac is sold in Hubbard by Hubbard Drug Co., in Mt. Angel by Ben Goetz, in Gervais by John Kelly, in Turner by H. P. Cornelius, in Woodburn by Leman H. Storey, in Salem by Dr. A. C. Stone, in Silverton by Geo. A. Steelhammer, in Gates by Mrs. J. P. McVerry, in Stayton by C. A. Beachamp, in Aurora by Aurora Drug store, in St. Paul by Groceries Store Co., Inc., in Donald by M. W. Johnson and in Jefferson by Foshey & Mason.

## CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

### Look Mother! If Tongue Is Coated Give "California Syrup Of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste, and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative" and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When it's little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs," handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup company."

### LATE BULLETINS.

Sacramento, Cal.—Barkeep Scott exhibits a six inch fish that issued from the water tap. He dropped it hastily in a jar of alcohol to preserve it as an argument against drinking water.

Los Angeles.—A quiet wedding was solemnized here when Frank Burson, former ball player, and Mrs. Winnie Mills were married. The ceremony was written. Bride and groom are deaf and dumb.

## TO CALL GERMANS TO PARIS WITHIN WEEK AFTER WILSON COMES

### By Time President Arrives, Arrangement For Sending Food Will Be Made.

By Fred S. Ferguson.

(United Press Staff Correspondent.) Paris, March 5.—The Germans will be called to Paris to receive terms of the preliminary peace within a week or ten days after President Wilson's arrival, according to the belief expressed in certain official quarters today.

Conditions of the separate treaty were said to have been worked out to an extent where formal approval of Wilson, Premier Lloyd George and Premier Orlando would be obtained within a remarkably short time after they had undertaken discussion of the terms.

While the mechanics of the dealing with the German delegates have not been worked out, it was assumed that enemy emissaries would first be called to Versailles to receive the terms which they would submit to their government as was done with the armistice. After the German government had ratified the treaty the enemy delegates would proceed to Versailles a second time when the pact would be signed. In event this procedure is carried out, it is probable only a special committee will receive the German emissaries on their first visit, a plenary session of the conference being called when the signatures are affixed.

#### Find New Atmosphere.

President Wilson will find a entirely new atmosphere when he arrives here. Concern over what is going on in Germany will be topped among the anxieties, rather than individual desires and designs of the various nationalities. It is possible that arrangements admitting 270,000 tons of fats and cereals into Germany will be completed before the present recessus starts.

The French view that the allies are entitled to German money is appreciated, but it is pointed out, and the French realize that unless the German situation is relieved chaos is likely to result.

The reparations committee will have reported on the amount of contributions Germany is able to pay, probably between \$25,000,000,000 and \$40,000,000,000.

#### Reports Ready Soon.

In addition to the frame work of the military, naval and air terms of the preliminary peace being completed, the report of the committee on internationalization of ports and waterways will be ready and strong indications have been drawn up by the responsibilities committee.

The president will also find that any signs of hostility toward him have vanished. Attacks on the league of nations in the American senate have brought about the sharpest reproof here, with open expression that the league will be impossible without the United States as a member.

The Russia problem will still confront the allies, but the Americans and British are clinging to the principle that investigation is necessary to determine the true conditions in Russia and are maintaining their strong stand against intervention.

The dispute between the Italian and Jugo-Slavs doubtless will require early action.

Springfield, Ill.—Silo gin fixes may not comfort anyone after July 1. A bill here prescribes prison for him who tamper with the fodder fermenter for jag juice.

Worcester, Mass.—Worcester boys advertising a dance urged patrons to "come and park with Worcester's beautiful girls." No girls attended.
