### GERMANS DIDN'T CREDIT THEIR OWN UNTRUTHS

#### Begin To Believe Allied "Propaganda" That Hums Started War.

Berlin, Feb. 4. (By Mail).—German tribute to the effectiveness of allied propaganda is contained in the remark of an official in the foreign office to the United Press correspondent: "You folks have been so clever in your propaganda that Germans themselves are beginning to think that they have always been wrong in their views. It is convincing them of the direct opposite of what they believe."

The Germans always thought they had an effective and winning system of propaganda. Formerly it was effective, especially among Germans, though it seemed empty to others. Every German is a propagandist of something, and he expects everyone else to be the same.

A German usually does not believe in his own propaganda too strongly, but he expects to convince others of it.

The biggest propaganda point probably in Germany is the question of who is responsible for the war. Every German feels that he must talk to keep people from believing that Germany did start the war. It is one of the arguments sure to come, if you converse with a German long.

The people in Germany who believe that Germans and especially the military class deliberately instigated the war is constantly growing. Germans in general believe that this is due to the allied propaganda, which they blame for other new views that gain ground. They are amazed at the strength of this so-called propaganda.

Only one thing that the Germans never will realize is that the truth is the basic feature of the allied propaganda, and its principal source of strength. The reverse was true of German propaganda, generally speaking.

### Last Official Act Of Governor, Humanitarian

\*\*\*\*\*  
\* One of the last official acts \*  
\* of Governor Withycombe was \*  
\* of a humanitarian nature—the \*  
\* pardoning of J. L. Doak, who \*  
\* was confined in the penitentiary \*  
\* six months ago on a charge \*  
\* of forgery preferred by Port- \*  
\* land parties. As to the history \*  
\* of the case, several years ago \*  
\* Doak killed a brother and at \*  
\* the same time seriously injured \*  
\* another man in a shooting \*  
\* affray in Los Angeles. When \*  
\* brought to trial it was shown \*  
\* that he was mentally unbalanced \*  
\* and he was confined in an \*  
\* asylum at Patton, California, \*  
\* and also spent short times of \*  
\* confinement in other institu- \*  
\* tions. Finally he was discharg- \*  
\* ed as being sufficiently recover- \*  
\* ed as to be released. About \*  
\* six months ago he was extract- \*  
\* ed from California by Multnomah \*  
\* county officials, charged \*  
\* with forgery, and sent to the \*  
\* penitentiary. After the lapse \*  
\* of several months he showed \*  
\* unmistakable evidence of being \*  
\* unbalanced and was again \*  
\* placed in the insane ward. A \*  
\* short time previous to his death \*  
\* the governor's attention was \*  
\* called to the case, with the \*  
\* recommendation that Doak be \*  
\* released. Acting on this recom- \*  
\* mendation the governor grant- \*  
\* ed a pardon to the man, with \*  
\* the understanding that he be \*  
\* taken back to California and \*  
\* properly provided for there. Af- \*  
\* ter the funeral of Governor \*  
\* Withycombe, Dr. Steiner states \*  
\* that he will be sent to that \*  
\* state in company with other \*  
\* cases. \*

Washington, Mar. 5.—The war trade board, having lifted all restrictions on the export of pork and pork products, the food administration announced late today that no further grievances would be fixed.

The pork embargo is lifted effective tomorrow.

The food administration issued this statement:

"The United States food administration is officially advised by the war trade board that it has rescinded the regulations by which all application for licenses to export pork and pork products to European destinations must have attached thereto a certificate from the food administration to the effect that the commodities described have been sold for export at a price approved by the food administration."
