CITY NEWS.

Mrs. Frank Davis telephones the Capital Journal that she is still here and has not left the city. An article in yesterday's paper referred to Mrs. Davis as having a letter from a soldier waiting for her at the post office and that it could not be delivered as she had left town without giving the postal authorities her forwarding address.

Should see that the whole family take at least 3 or 4 doses of a thorough system cleaning medicine this spring. Now is the time. Today is Tri-color day in Salem by proclamation of Mayor C. E. Albina. This is due to the fact that the French band of 40 pieces will give a concert this evening at the armory and also to the fact that every one of the men bear service stripes and several of the men wear stripes. Every man in the band is a graduate of the Conservatory of Music in Paris, six of the soloists receiving special honors. This is the first time there has appeared in Salem so many musicians with a national French reputation. Salem was fortunate in securing the band from the act that in coming from San Francisco to Portland it required so much time that in order to save one night, it was necessary to stop over night on the way.

Marion county poultry raisers, who have been in doubt as to whether the gains is worth following up this season, might gain a little encouragement from the statement of H. W. Sanborn, of the department of agriculture, who, after making a careful survey of the world's markets, predicts that the next five years will be the most profitable period for the poultry industry ever known. He points to the fact that poultry was largely cleaned out of all Europe during the war, and it will take time for them to get established again on a shipping basis. This coupled with the fact that there will be an immense surplus of grain in the United States, makes a hopeful outlook for poultry business here.

Wilford Allen of the Industrial accident commission, is once more back in his office at the state house, after a period of illness.

ACID STOMACH IS DANGEROUS

Often Followed by Serious Gastric Ulcers, Says Authority. Most Frequent Cause of Dyspepsia and Indigestion. Strya Keep Stomach Sweet With Magnesia. "Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused nine times in ten by chronic 'acid stomach,'" says a well known authority. Burning hydrochloric acid develops in the stomach at an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis accompanied by dangerous stomach ulcers. Don't dose an acid stomach with pepsin or artificial digestants that only give temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines. The acid, which caused the trouble, remains in your stomach as dangerous as ever.
