

When the Baby Needs a Laxative---

No one knows better than the ever-watchful mother—the natural doctor of the family in all the small ills—that when the baby is out of sorts it is usually due to indigestion or constipation.

It is always well, in any of its illnesses, to look for this cause. The diet may have to be changed, but before good can result from it, the bowels must be moved.

The mother has the choice of many medicines—cathartics, purgatives, bitter-waters, pills, physics, etc. But the little body doesn't need such harsh remedies for they wrench the system and do only temporary good, so often followed by an unpleasant reaction.

A better plan is to employ a mild, gentle laxative of which only a little is required. There is a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin that thousands of mothers have used successfully for baby's constipation and its accompanying ills, such as belching, wind colic, restlessness, sleeplessness, etc.

The nursing mother will also find it ideal for herself, and it is especially important that she be free from constipation.

Syrup Pepsin is guaranteed to do as promised or the druggist will refund the money. Thousands of cautious families have it in the house, secure against the little ills.

Dr. Caldwell's SYRUP PEPSIN The Perfect Laxative

PRICE AS ALWAYS

In spite of greatly increased laboratory costs due to the war, by sacrificing profits and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 20 years. Two sizes—50c and \$1.00.

FREE SAMPLES

If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. B. Caldwell, 468 Washington St., Monticello, Ill. If there are babies at home, ask for a copy of Dr. Caldwell's "The Care of Baby."

BRUSH COLLEGE NEWS

(Capital Journal Special Service.)

Brush College, March 11.—The Parent Teacher association had a get-together meeting at their last meeting and a very enjoyable evening was spent. Refreshments of wafers and mackerel were served. Every one came back to the next meeting and bring someone with you. The next meeting will be this Friday in March. Let each one do their best to make these meetings a community success.

The Brush College Hooplers meet with Mrs. C. A. Park two weeks ago and re-organized for the year. There were quite a number of ladies present. The club will meet once a month with Mrs. Park for Bible study and once a month with the other ladies to sew or quilt. All the ladies are invited to come. Come and meet with one another in a social way.

Brush college has long been noted for her hospitality. Now that the war is over let us get back to our reputation of having the best time in the state.

Ensign Chittick of the artillery division arrived in Salem Monday from France and Thursday he called on Mr. and Mrs. E. C. Bailey, also Mr. and Mrs. Wm. Pelker.

Mr. Chittick tells some very interesting stories about the war. We are glad he returned safe and sound.

W. A. Bailey recently received a letter from his brother A. O. Bailey of the 90th division of the army of occupation in Germany. Mr. Bailey is cook and says the ovens are large enough to cook a quarter of a beef in at a time. He said he did not have much to do—only 165 men to cook for at present. House wives think they have a lot when they have eight or ten to do for, three or four.

Mr. and Mrs. D. M. Eby spent the week end in Portland last week.

Mr. A. B. Ewing is the proud possessor of an auto, a Mitchell.

Mr. and Mrs. Francis Miller have purchased a new car, a Ford.

Elmer Smith has went to work for a Mr. Crawford of Spring Valley. Elmer has worked on the Wallace ranch for a number of years and it seems some-thing not to see him, but we wish him success in his new place.

Mr. and Mrs. C. H. Smith have com-

pany from Iowa. We have not learned their names.

Mrs. Buell and daughter, Mrs. Arnold Smith, called on Mrs. W. A. Bailey Monday.

Mrs. W. E. Ball and children of Jefferson Way spent several days with Mrs. Bailey's brother, W. A. Bailey, the past week.

Andrew Hodges of Seattle, Wash., is visiting his sister, Margaret Hodges. Her mother, Mrs. Hodges, is seriously ill at the T. B. sanatorium.

MT. ANGEL LOCALS

(Capital Journal Special Service.)

Mt. Angel, Mar. 11.—Julius Kenmoreck, formerly of Mt. Angel, recently received his discharge from the marines, stationed at Newport, R. I. He visited friends here a few days.

Mr. Prange and Leo Gier were Sunday visitors at home.

Miss Agnes Brantley and Miss Rita Mielke left for Portland today, where they intend to work for several months.

Sylvester Smith, mayor of St. Paul, spent Sunday with his mother and brother.

Mrs. Weidinger's brother is visiting here.

Monday, Aloys May leaves for eastern Oregon to again take up his work as surveyor.

Lawyer Brown of Salem was here on business Sunday.

Otto Oswald, who has received his discharge, returned home Sunday from Camp Lewis. His sister, Anna, accompanied him from Portland.

Lawrence and George Rothenfluch of the marines, are on a furlough from

the radio station at Lemon Grove, Cal. Paul Backholz left for California last week to join the marines.

Bernard Maloney of Camp Lewis visited his friend, Ed Unger, last week.

On Tuesday evening, Lieutenant Charles Goghan, thru the invitation of the Knights of Columbus, gave an interesting account of his experiences in France. He spoke in the parish hall to a large audience.

Sunday, Mrs. Warren Gould of Seattle, gave a surprise party for Mr. and Mrs. Jacob Berntold.

Mr. and Mrs. Bruno Smith have moved to the house vacated by Dr. Donnelly.

Bernard Travis and Bernard Weis, accompanied by Ed Unger, took a picnic trip to Silverton Sunday afternoon.

Louis Uhlman, after boarding at the college for several weeks, is staying at home and attending the college as a day scholar.

CATARRH

Quickly Ended by a Pleasant, Healing Antiseptic

The little Hyomei inhaler is made of hard rubber and can easily be carried in pocket or purse. It will last a life time.

Into this inhaler you pour a few drops of magical Hyomei.

This is absorbed by the antiseptic gauze within and now you are ready to breathe it in over the germ infested membrane where it will speedily begin its work of banishing catarrhal germs.

Hyomei is made of Australian eucalyptol combined with other antiseptics and is very pleasant to breathe.

It is guaranteed to banish catarrh, bronchitis, sore throat, croup, coughs and colds or money back. It often cleans out a stuffed up head in two minutes.

Sold by D. J. Fry and druggists everywhere.

Complete outfit, including inhaler and one bottle of Hyomei, costs but little, while extra bottles, if afterward needed, may be obtained of any druggist.

Mrs. Catherine Marison, for 49 years a resident of Coos Bay, is dead at Marshfield, aged 9 years.

Three farms west of Vader, Wash., have been leased to a company of men who will open up a coal mine.

SEES ONLY PAPER MONEY IN SIBERIA

Arthur V. White Writes Interesting Letter From Northern Russia.

Mr. and Mrs. J. F. White, 1566 North Commercial, have recently received a long letter from their son, Arthur V. White, who is now stationed with the American marines at Vladivostok, Siberia. He enlisted about a year ago, served for ten months at Mare Island, went from there to Honolulu with the transport Sherman, and later was sent on to Siberia to help out the Huns from that region. He says in part:

"We are now located in the Y. M. C. A. headquarters, which is about the only warm place in town. Of all the places I have seen this has the whole world bent in some respects. They have nothing but paper money here; one never sees any silver or gold. Yesterday money was eight and a half rubles on the dollar; today it is nine and a half. Every day it varies from one to four rubles.

"We have taken pictures of nearly everything of any interest and will send all of them to you from Cavite. You would hardly believe the way the ocean freezes here unless you could see it. We were a day late getting into port because the ice was so thick we had to have boats go ahead and break it. People were standing within a few feet of the ship while we were breaking through. A person would hardly think the salt water would freeze two feet and a half thick but we were in that kind of ice for more than a day before we got in.

See Some Sights.

Geel I wish you folks could see some of the sights here and in Japan. It is some sights, believe me. We have just been to a good show and had a grand time, with plenty to eat. The fellows all stick around the Y. M. C. A. because it is always warm and everybody speaks English.

"There are three foreign battleships here—two American, British and Japanese each—besides all the Russian ships, and they are all frozen in. There are a lot of American soldiers stationed here and none of them like the place. There are also a lot of sailors from the battleship Brooklyn. To me this is sure a treat, and I only wish I was going further, though I prefer another ship.

"While in Kobe port I got acquainted with a Japanese girl who had been in England and the United States and could speak good English. She was one of the most charming womanly foreigners I have ever met with. She dresses in English clothes and has nothing to do with the Japs at all. While there she invited me and my friends to her house and we had a grand time. She was some cook and gave us a meal that we will never forget, and we spent a lot of time talking over places she had visited. She did so hate to see me leave, and down at the ship she kissed me on both cheeks and gave me her address so I could write to her.

To go to Nagasaki.

It is rumored that we will go from here to Nagasaki and then come back with a load of coal for the Brooklyn, but we cannot tell. We expect to go then to Manila, which is only three days from Nagasaki, so we will soon hit warm weather.

This town has the marks of the Russo Jap war left. There is a Japanese battleship stationed here that was captured by the Russians. They have no use for the Japs here. I have seen many of the Cosacks here and they look just like they are shown in the pictures. It is all very interesting here but I imagine it would get very old if I fellow had to stay any length of time. It sure is cold outside, and I wouldn't walk around the block for \$5.

Am going to sit by the fireplace for a while and then go to bed. Will write again from Nagasaki.

Yours as ever, ARTHUR.

Students Of Psychology Detect Criminal Traits

Moscow, Idaho, Mar. 11.—Students of Dr. Reed's psychology course at the University of Idaho have proved themselves successful detectives. They were given the problems of determining which of a group of 12 persons were "guilty." It was known that six of them had committed a "crime," and it was up to the students to determine which ones.

The suspects were subjected to an ordeal that only lacked the severity of the third degree. Following the associative method made famous by the psychologists Jung and Munsterberg, each of the 12 suspects responded to each word pronounced by the examiner, with the first word that came into his mind. The class recorded the response, and the reaction time, or the number of seconds that elapsed between stimulus and response. There were 20 words in the list, half of which were criminal and related to the circumstances of the crime. It mattered not how trivial the misdemeanor may have been, the criminal's guilt was unmistakably brought to light.

Believe Radical Element Would Overthrow Government

Washington, Mar. 10.—"Radical elements in the United States are united in the plan to overthrow the American government by a bloody revolution and set up a bolshevik republic," according to a memorandum submitted today to the senate committee investigating bolshevism by Solicitor Lamar of the postoffice department.

The memorandum said that for the first time the anarchists, I. W. W.'s and bolsheviks have made common cause under the name of "bolsheviks" for this one purpose.

Lamar submitted clippings from a

"Your Nose Knows"

All smoking tobaccos use some flavoring. The Encyclopaedia Britannica says about the manufacture of smoking tobacco, "...on the Continent and in America certain 'sauces' are employed ...the use of the 'sauces' is to improve the flavour and burning qualities of the leaves." Tuxedo uses chocolate—the purest, most wholesome and delicious of all flavorings! Everybody likes chocolate—we all know that chocolate added to any- thing as a flavoring always makes that thing still more enjoyable. That is why a dash of chocolate, added to the most carefully selected and properly aged burley tobacco, makes Tuxedo more enjoyable —"Your Nose Knows."

Try This Test: Rub a little Tuxedo briskly in the palm of your hand to bring out its full aroma. Then smell it deep—its delicious, pure fragrance will convince you. Try this test with any other tobacco and we will let Tuxedo stand or fall on your judgment—

"Your Nose Knows"

Have you tried Tuxedo in the New Tea Foil Package? It has many advantages—Handier—fits the pocket. No digging the tobacco out with the fingers. Keeps the pure fragrance of Tuxedo to the last pipeful. Not quite as much tobacco as in the tin, but—10c.

Two big things about Grape-Nuts

are—wonderful flavor & sturdy nourishment. But you can get a better idea of Grape-Nuts by eating it than you can by reading about it.

Sold by Grocers Everywhere

INFLAMMATION and CONGESTION

Begy's Mustarine contains true yellow mustard and where inflammation or congestion is indicated it more than takes the place of the good old fashioned plaster or liniment of days gone by. It cannot blister and there are no disagreeable fumes to irritate the nose and eyes.

Just rub it on—that's all. Use it to stop headache, backache, carache and neuralgia. Rub it on those tortured rheumatic joints for blessed relief—a local application can take its place. Always in the yellow box. Be sure to ask for Begy's Mustarine.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician. If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent catharsis, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones. Every man and woman, sick or well, should drink each evening before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Limestone phosphate does not restrict the diet like salami, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, leaving you feeling fit day in and day out.
