\*\*\*\*\* ALKALI IN SOAP BAD FOR THE HAIR \*\*\*\*\* Soap should be used very carefully, if you want to keep your hair looking its best.

The best thing for steady use is just ordinary mulctified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil.

You can get mulctified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

TELLS DYSPYPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisulphated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisulphated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a purgative. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation.

CREEL WILL RETURN SOON TO PRIVATE LIFE

Expects To Do This As Soon As He Completes Report To President.

By Robert J. Bender.

(United Press Staff Correspondent.) Washington, March 14.—George Creel, chairman of the committee on public information and during his term a storm center involving congress and the press, has returned to Washington to complete a report on his work and to turn over money to the treasury department, preliminary to retirement.

In an interview today, Creel disclosed the following interesting facts: "As soon as I complete report to the president, I will return to private life. I believe this country is big enough to house an independent writer who wishes to help delouse public life.

"The two remaining divisions of the committee on public information—the service bureau and the official bulletin will quit April 1st.

"All the foreign of the committee on public information have been wiped out save those in New York, Paris and London, which are being used for setting agencies for the vast detail work that accumulates during America's fight for world opinion.

"Will Wilson win? Of course he will win. They might as well try to stop a tidal wave as to stem the world's demand for permanent peace and reduced armaments."

Irregular Fluctuations In Today's Stock Market

New York, March 14.—The New York Evening Sun financial review today says:

The irregular fluctuations of stocks in today's trading signified merely that prices cannot move in one direction indefinitely, even though there is no news to change their course. The unsettledness which the market displayed at times, particularly in the early afternoon, was the logical outcome of a somewhat weakened technical position.

There was practically nothing new for speculative consideration and stock movements throughout the session were influenced by special pool operators and conditions within the market itself.

Buying for the advance was again of broad proportions at the outset of trading. By early afternoon, however, offerings exceeded the demand and prices gave way quite generally.

Senators Ask Information Concerning Transportation

Washington, March 14.—The railroad administration and the shipping board were asked by members of congress for information concerning plans to coordinate rail and inland water transportation.

In a letter to Director General Hines, senators and members of the house who yesterday conferred on the subject, asked:

1. What the views of the railroad administration are concerning the use of inland waterways and what the policy is to be in promoting interchange of traffic between rail and water lines.

2. What the policy is to be concerning adjustment of competitive rates between rail and water lines.

3. What amount has been allotted by the railroad administration toward construction of boats for use on inland waterways.

4. What the future policy with relation to such boats is to be.

In a letter to Chairman Hurley of the shipping board these members asked concerning progress of the construction of boats for use on the upper Mississippi between St. Louis and Minneapolis.

FINAL PERFORMANCE ELKS PLAY TONIGHT

Last Night's Show Was Even Better Received Than On First Night.

The curtain at the Grand theatre will rise on the third and final performance of the 1919 Elks' play "Officer 666," promptly at 8:30 this evening.

The performance last evening was even better than that of Wednesday and incidentally it may be stated that the audience was better also. They thrived out much more quickly, and the actors were quick to take advantage of this melting process.

It is the general verdict that this year's Elks play is the biggest hit ever, and those who were unable to get seats for either of the preceding performances are advised not to let this final opportunity slip by.
