BRIEF SPORT NOTES.

The Hopper

of a concrete mixer has a good appetite and a great capacity at the top.

But all that goes into it must pass easily through the narrow outlet at the bottom. If the man on the job goes away and leaves the mixture to harden in the hopper—he gets fired—that's all.

And the machine is put out of working order for a time. It's easy for you to satisfy your appetite with food. But if you neglect yourself, and the food waste dries out, hardens and stagnates in your lower bowel—if you become constipated—your body machinery will suffer; and if you try to get rid of the mass by taking castor oil, pills, salts, mineral waters, etc., to force the bowels to move, you will only make matters were the process. you will only make matters worse.

You can't fire yourself for neglect. And you can't cure constipation by forming the habit of taking medicine every time you want your bowels to move. But you can overcome the trouble by taking Nujol.

Nujol brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug. Nujol brings about a return to Nature's methods by supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal.

Nujol makes you regular as clockwork—use it, and you'll not have to worry about the size of your appetite or the ability of your body machine to get rid of dangerous food waste.

Get a bottle of Nujol from your druggist today, and send for free booklet "Thirty Feet of Danger."

Warning. Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. At all druggists. Insist on Nujol. You may suffer from substitutes.
