YOU'LL not be forgetting the Symphony orchestra concert tonight at the Opera house, will you? After all that's been said about it and all that you've heard about it, surely there can be no doubt in your mind that it will be well worth your time. The Symphony orchestra is helping put Salem on the map, musically, and Salem is your city. And, honestly, don't you hate a "piker"?

Mrs. Allan Bynon (Florence Hofer) left Portland yesterday for Chicago where she will meet her husband, Captain Bynon, who has recently returned from France. Complimenting Mrs. A. T. Wallace of Salem, Mrs. J. T. Henry entertained with four tables of progressive cards in the ballroom of the Volheim apartments in Portland Saturday afternoon. The room was prettily decorated with daffodils and pussy willows, as was Mrs. Henry's attractive apartment. Mrs. Wallace is the wife of a well known Salem man, and they will go to San Francisco to make their home after April 1. She was formerly Miss Dora Patterson, a popular Portland girl. The affair Saturday afternoon was a farewell party at which the hostess was assisted by Mrs. James Gillis. Mrs. Henry is the wife of Captain John Tyler Henry, who is still in service overseas.

Mrs. Edward Lampert left for San Francisco last evening where she will reside until June. She expects to meet her son, Lieutenant Merle Lampert, who will arrive from Chicago to be mustered out of the service at the Presidio. His many Salem friends are eagerly awaiting his discharge and his return home.

**A SIMPLE WAY TO REMOVE DANDRUFF**

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

**Professor McGruder Talked Comprehensively On League**

The auditorium of the public library was crowded to its limit last night with people interested in the lecture by Frank McGruder, of Corvallis, who discussed in a most thorough manner the league of nations and the problem it confronted it. In addition to an outline of the activities of the body Mr. McGruder went exhaustively into the labyrinth of political and industrial changes brought about by the world war. Following this he went on to demonstrate how impossible it would be to readjust itself on a stable political and industrial basis through any other means than by such a league and the compact which it proposes to the world. And he especially emphasized the point that it was impossible for America to avoid her full share of responsibility in old world reconstruction and peace, since the nations are now so closely and indissolubly associated through commerce and communication that discord at any point would lead to trouble to every nation. He showed that if America drew out of the movement at this time it leaves a group of small nations in a position to continue in strife for decades to come. Unless the greater powers at this time are willing to act with the "big brother" spirit toward the weak republics there will be a hornet's nest in the old world—a constant menace to the peace of civilization.

Friends of the late Mrs. Louis Weeksler (Elizabeth Halderman) are offering their sincere sympathy to Captain Louis Weeksler of the American expeditionary forces in Siberia, who arrived from overseas yesterday to attend the funeral of his wife, Mrs. Weeksler, before her marriage, was one of the most popular of Salem's young set and was greatly missed in junior social circles when she went to the Philippine Islands to become the bride of Mr. Weeksler. At the outbreak of the recent hostilities, her husband, who belongs to the regular army, was promoted to his present rank and sent to Siberia and Mrs. Weeksler returned to Salem with her infant daughter where she resided with her sister, Mrs. Ralph Hensley at the Hensley residence on South Commercial street, until her death in the early part of February. Owing to the breaking of the trans-Pacific cable about that time it was nearly impossible to get word to the captain but a cable was finally got through by way of London, with the help of Senator Charles McNary where upon Captain Weeksler sailed immediately for the states.

# What Happens to the food you eat?

During digestion certain kinds of food containing proteins, such as meat, egg white, milk casein, wheat gluten, etc., are split into many different substances.

Some of these the body uses to rebuild damaged or dead tissues; some, however, are not only useless and harmful but in some cases actually poisonous. Regular, thorough bowel evacuation gets rid of the latter.

Constipation permits stagnation and absorption of these poisons into the blood, with injury to the whole body.

Taking castor oil, pills, salts, mineral waters, etc., in order to force the bowels to move does not—cannot cure constipation—but makes it worse.

On the other hand Nujol overcomes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug.

Nujol brings about a return to Nature's methods of supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal and protection of the defensive properties of the blood itself.

Nujol has no deleterious after effects, produces no bad habits, makes the bowels regular as clockwork.

Nujol is efficient at any age—under any conditions—is satisfactory and safe.

How and Why Nujol overcomes constipation is described in an interesting and authoritative booklet, "Thirty Feet of Danger" free on request. Send for it and get a bottle of Nujol from your druggist today.
