

For Rheumatic Agony, Lumbago and Neuralgia

No Choking, Blinding Fumes Accompany Its Use--Contains Real Mustard.

The pain of rheumatism and gout--the swelling--the soreness--are relieved quicker by *Begy's Mustard* than by any liniment or plaster.

When you begin to feel those occasional pains in the chest, with tightness and soreness, the best thing to do right away is to rub on *Begy's Mustard*.

The chances are it will save you from pleurisy, bronchitis and perhaps pneumonia.

Mustarine (Begy's) is the original mustard preparation compounded to take the place of mustard plasters--far better--for it has twice the strength and can be kept on until all inflammation, soreness, aches and pains have disappeared.

And it cannot blister--not even the tenderest skin.

You ought to have a box of *Begy's*

Mustarine in the house, because it stops headache, earache, toothache and backache in half the time it takes ordinary remedies.

It's simply wonderful how quickly it brings relief in neuralgia, neuritis, sciatica, lumbago.

While for strains, sprains, sore muscles, cramps in legs, stiff neck, inflamed and frosted feet it is without an equal.

A small box costs but a trifle and will do the work of 50 mustard plasters.

Be sure it's *Begy's Mustarine*--always in the yellow box.

Hence he asks the court for the legal right to change the word "Woestefeld" to "Westfield". The court ordered that the usual notice of change of name be published four weeks in a Woodburn paper and then a hearing will be held before the county court and if everything is all right, the spelling and change of name will be legally granted.

WON'T GIVE UP DALMATIA

Budapest, March 21.--Gabriele D'Annunzio, Italian poet and army aviator, interviewed by the Rome correspondent of *Azest*, declared Italy would fight to retain Dalmatia.

"Italy will never renounce Dalmatia," D'Annunzio was quoted as saying. "Another war is possible if an attempt is made to force Italy to relinquish her claims. Personally, I am ready to offer my life for every stone in this Latin province."

Recent Paris dispatches said a tentative compromise had been arranged whereby Italy would renounce her claims of Dalmatia in return for an undisputed title to Fiume.

Lanuch Prosecution Of Seattle Undertaker

Seattle, Wash., March 21.--With the jury selected, the prosecution's attack launched and the defense ready for its statement, the trial of G. M. "Bert" Butterworth, undertaker, is continuing in Judge Jeremiah Neterer's department of the United States district court here today.

Butterworth, manager of E. R. Butterworth & Sons, one of the largest undertaking establishments in the northwest, is charged with profiteering from the government and parents of dead sailors and marines on coffin sales and burial arrangements.

From yesterday morning at 10 o'clock until late afternoon, examination of veniremen for the jury occupied the attention of the court. The room was jammed with people, who patiently waited for something to "turn up."

The most exciting incidents were occasional admonitory sentences from Judge Neterer to a venireman.

The examination of the veniremen was done with microscopic detail by Assistant District Attorney Ben L. Moore for the prosecution, and Attorney William Tucker for the defense. Thirty-three men were examined before both sides decided the body was qualified to render a fair and impartial verdict.

Series Of Conferences To Bring Prices Down Begins

Washington, Mar. 19.--With the aim of bringing down war prices, the government today began a series of conferences with the various industries.

Today's conference is with the new industrial board and the steel men, headed by Judge Gary and Charles M. Schwab. The expected result is a new schedule of steel and iron prices much lower than the present price and probably somewhat above the pre-war figure. Tables of the board show that steel and iron average about 120 per cent higher than in 1914.

The plan of the board, which the steel men have tentatively agreed to is to make one reduction that will stand for some time, so that the users of steel will feel safe in going ahead with large purchases. The steel men are preparing a new schedule to submit to the board, and if this is approved all government purchases will be made at the figures submitted, including the large amount of steel needed for railroad work which is about 35 per cent of the output.

Twelve steel kings were expected for today's conference. They are E. H. Gary, Charles M. Schwab, James A. Farrell, A. C. Diney, Eugene C. Grace, John A. Topping, L. E. Block, James E. Burden, U. H. McCullough, Jr., A. C. Dalton, A. C. Houston and William L. King.

British Take Steps Toward Making Trans-Atlantic Flight With Big Airplane

London, Mar. 19.--The British have taken first steps toward making a trans-Atlantic airplane flight. The Mail announces that a secretly built 375 horsepower plane with a pilot and navigator has been shipped to St. John's N. F., to start from there within a few days on a voyage over the Atlantic. The pilot is understood to be Harry G. Hawker, an Australian, with wide experience in long distance non-stop flying. Commander Mackenzie Grieve is being sent along as navigator.

The flight is being planned from New Foundland to Ireland because of the favorable wind which at this season of the year blows strongly from west to east at a certain altitude. The British contestants believe this sale will aid greatly in making the proposed flight a success.

The Nassau police force has been augmented by 15 New York city police and several private detective agencies in the search for Dr. Wilkins, missing since Sunday last.
