Sacramento, Cal., March 21.—With the adding of Marty McGaffigan, Bill Rodgers' ball players will have another husky voice and a valuable asset at short. Marty who has been playing with the Philadelphia Nationals, was to your son by our medical department. He died of a very easy death, and did not suffer. For many months your son was assigned to duty with the enlisted force at post headquarters, and was personally known to the commanding officer of this school. He always performed his work in a cheerful and ready manner, thereby winning for himself their confidence and respect. You have every reason to be proud of the record of your son at this post. He was a true soldier in every sense of the word, and his bright disposition won for him many friends both among the officers and enlisted men. He was beloved by his mates in the squadron and by all who knew him. It should be a comfort to you to know that he died in the line of duty and in so doing placed his name on the roll of honor in letters so indelible that time cannot efface them, but rather will add to their lustre.

Says Exporters Should Extend Time For Payment On Goods Shipped to Brazil

Rio De Janeiro, Mar. 22.—J. E. Phillips, United States commercial attaché said today that exporters should extend the time for payment on shipments of goods to Brazil in order to avoid cancellation of many contracts.

But the rejection of goods is largely due to the fear of falling prices and the impossibility of paying immediately the duty on shipments which are greatly in excess of ordinary requirements."

Purpose And System Of State Library Explained

The State Library does not loan books directly to people who live in towns which have public libraries, but lends through those libraries. The people in Medford, Ashland, Salem, The Dalles, Baker, all have exactly the same use of the State Library, as they apply to their own librarians for the books. If the book is in the Public Library it is not necessary for them to make applications to the State Library, but if it is not, the librarian always tell the borrower that she will ask the State Library to loan the book to her library for his use, and every Public Library in the state has this sign near its loan desk. "This library is a station of the Oregon State Library, which loans books free of charge throughout the state. If you do not see the books you need, ask to have them borrowed from the State Library, through this library, for your use." The rule applies to Salem, as well as to other towns. If it were not applied it would be necessary for the State Library to keep two or three people simply to wait on local borrowers and the Salem Public Library would be greatly weakened through its competition. It is the object of the State Library simply to reinforce and supplement the Public Libraries in the state, and to loan books directly upon request, to all those people who live in the country or in towns which do not have Public Libraries. The State Library is sort of a wholesale or jobbing library, which lends through Public and Traveling Libraries throughout Marion and Polk counties as far as possible. Country people do call directly at the library for their books and books are also loaned directly to teachers, state officials, ministers, and others who are doing intellectual work, who are familiar with the Public Library and know its contents and limitations. Arrangement is made with the librarians of the Salem Library whereby these use their cards at the State Library. There is no intention of restricting the use of the books of the State Library. They are free to all citizens of Oregon. It simply is a question of the method of lending the books, and it has been necessary because of lack of help to lend through other libraries, and to make this service as simple and effective as possible. All readers are welcome at the State Library, and the librarians are at all times pleased to show people what they have on any subject, and to have people come in to browse among the books. It is a great pleasure to feel that the people have an opportunity to see the numbers of new books which are received at the State Library. The statement is made because someone was refused a book Saturday and thought the ruling unjust. The librarian will be glad to see the person who had this refusal as there was a misunderstanding.
