TOBACCO WILL GO HIGHER SAYS TRADE PAPER.

Declines are in the air, many have come already and for this reason many more are expected. Consumers are full of this idea and naturally are looking for lower prices on the smoking and chewing tobacco, not to speak of cigars and cigarettes.

As we have before explained in these columns, cigar and tobacco manufacturers do not base the price of their product upon the present price of raw leaf.

A process for producing said useful in building operations by sprinkling molten furnace slag with a salt solution has been patented in Europe.

PROFESSIONALISM VERSUS PRODUCTION.

Editorial Journal: Your paper seems to be open to comments on our high-brow educational system that we are spending millions on annually and do not seem to be getting anywhere in the real development of the industries of the state.

Now it is a well known fact that engineering and commercial professions are over-crowded, and some may ask why extend engineering and commercial courses in a farmer's college?

Why is land cheap around Corvallis? It was stated by a prominent fruit grower the other day that land in orchard could be bought there for one-half what it can be bought for at Salem.

Just as soon as you eat a tablet of Pape's Diapapsin never fails to make digestion and stomach distress ends. These pleasant, harmless tablets of Pape's Diapapsin never fail to make sick, upset stomachs feel fine at once, and they cost so little at drug stores.

THE CHURCH SHOULD PURGE HER SELF OF LICENSE VOTERS

To the Editor: A little heaven leaveth the whole lump.—I Cor. 6. Purge out the old leaven.—I Cor. 5:7. Do not ye judge them that are within?—I Cor. 5:12.

With a national government in partnership with the liquor traffic, or an other iniquity, all its money is necessarily tainted money. In such a case, the most important step for the church in the matter is to expel all her members who persist in voting with a license party that "by standing committed to put itself on record in an attitude of open hostility to the saloon," favors the continuance of the tainted money and all the other horrors of the whole wicked license system.

John Wesley called the slave trade "the sum of all villainies" said Henry Ward Beecher: "He consents to slavery who does not exhaust his energies in his endeavors to prevent it."

It is a worse offense to vote to license a saloon than it is to keep a saloon after it has been authorized by the people. The voter is the creator of the saloon and the creator is more responsible than his creature.

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind that Lydia E. Pinkham's Vegetable Compound has done for me."

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Pinkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

What does the devil care for resolutions?—Bishop Joseph F. Berry. "Nothing morally wrong can ever be politically right or expedient," temporizing will not do longer; now is the time for decision, for firm, persistent, resolute action.—Abraham Lincoln.

Editorial Journal: Many foolish assertions may be made and often are made without great harm resulting therefrom. The harmful results that sometimes follow such assertions depend largely upon the time and place of their utterance.

CHICAGO MAN BUYS FAMOUS CALIFORNIA ISLAND

Win. Wrigley, Jr. Heads Company Purchasing Santa Catalina.—Vast Resort Planned

Los Angeles, Cal., March 22.—One of the biggest real estate deals ever put over in California is now an assured fact and details can be furnished by the interested parties.

Included in the transfer are practically all of the 48,000 acres of the island, the new \$400,000 Ste. Catherine hotel and its appendages, ten thousand head of sheep, two large steamers which ply between San Pedro and the island, fleet of glass-bottom power boats and other property of the Santa Catalina Island company.

This news is of interest to every present and prospective visitor to California; in fact, it is of particular interest to the country at large, for it presages an era of expansion and development in our home resorts in keeping with the tendency to cultivate domestic tourist travel which the war has so strongly intensified.

There are many unique features found at "Catalina," as the island is called locally. In one vast expanse are the frames of 650 tent cottages which in summer are covered with canvas, furnished completely and rented by the day or week just as hotel rooms are rented. This is the famous Island Villa.

With the cherry trees beginning to bloom, and everywhere active signs of a "re-construction period," would not this year be a good one to revive the Salem Cherry Fair? We have a season of prosperity ahead of us and I think it is opportune to bring back one of Salem's best advertisements.

Joseph F. Rutherford, president of the International Bible Students Association, and his associates, also official members of that religious organization, are held in the Atlanta penitentiary, although their case is still pending in the courts, even bail being refused them. Their crime consisted in the publication of their sincere belief and understanding of the Bible, which interpretation was written before the United States entered the war, and before the espionage law was passed.

marine gardens—through these boats the visitor gets such signs of a great ocean world of vegetation and fish as can be had nowhere else. Here is a realm peopled with brilliant colored inhabitants swimming through forests of feathery verdure. High tree-like forms water and bend with the motion of the water. Great stalks of kelp touch the bottom of the boat. From the strange "sea-cucumber" that clings to the ocean floor and is said to be one of the lowest forms of animal life, to giant tuna fish the sea bass, which are the delight of sportsmen, the range of species, size and appearance of these creatures of the deep is utterly astounding.
