OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL HAZELDEN OIL has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL HAZELDEN OIL is enclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL HAZELDEN OIL CAPSULES will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. At the first sign that your kidneys are not working properly, go to your druggist and get a box of GOLD MEDAL HAZELDEN OIL CAPSULES. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

SUBSTITUTE CHAMPAGNE NEXT

Chicago, March 27.—No sparkling champagne will be wasted in christening battleships after July 1. A regular champagne bottle will be broken across the bow of the ship—but it will be filled with crude oil.

This announcement was made here today by officials of the National Petroleum congress. The new U. S. S. Tanager—named for the Oklahoma oil center—will be christened by Miss Lulu Cross-

bie, daughter of a Tulsa oil operator, when it is ready to launch. She will use oil from one of her father's wells.

The United States is arranging for a 99 year lease of two islands off the coast of Colombia for a military base. The payment is said to be \$10,000,000.

Statistics furnished by the war department show that the government has on hand 487,100,540 pounds of wool remaining to be disposed of.

acres in K. O. Johnson claim, township 6-1 W.

D. F. Jerzman to D. W. Bushnell, lot 6, block 10, Capital Park addition Salem.

Senators Hitchcock Says Reed and Borah Would Have America Hermit Nation

Chicago, Mar. 26.—America would be a hermit nation if Senators Borah and Reed and other opponents of the league of nations had their way, according to Senator Hitchcock of Nebraska today. Hitchcock spoke before the Chicago Association of Commerce.

"The opposition in the senate will collapse," said Hitchcock. "Members are not going to follow any such radical leaders as Borah and Reed. It is generally conceded that opposition in the senate is largely political and those classed as opponents now are ready to join in support of the plan."

"In fact some of them are waiting only for some slight change—even the crossing of a 't' or the dotting of an 'i'—to withdraw opposition."

"Such men as Borah and Reed want the United States to draw away to ourselves and have nothing to do with the rest of the world. Such a doctrine is out of date."

Real-Fruit Desserts

Jiffy-Jell is flavored with fruit juice essences in liquid form, in vials.

A wealth of fruit juice is condensed to flavor each dessert. So it brings you true-fruit dainties, healthful and delicious, at a trifling cost.

Simply add boiling water.

Compare it with the old-style gelatine desserts. It will be a delightful revelation.

Get the right kind—

The War and Your Gasoline

The first of a series of three statements

For obvious reasons the following facts of interest to the public could not be published during the war. They affected a vital war necessity regarding which the Government required secrecy. But now that the war is won, we are at liberty to make the following statement of facts:

Highly volatile gasoline for fighting-aeroplanes was one of the war needs. The output of this special gasoline by all the refineries east of the Rocky Mountains was not enough, so California was called upon to furnish a large part of the supply. At the request of the United States Government the Pacific Coast Petroleum War Service Committee apportioned California's quota among such of the large refiners as were able to make this special gasoline.

The Standard Oil Company, being the largest of these, had the greatest quota to fill. We were glad to do our part. We supplied more than our quota of aviation gasoline.

Aeroplane engines, operating high in the air under conditions of extreme cold and rarefied atmosphere, require a different gasoline from engines operating on the ground. In fact, the needs are so special that the gasoline manufactured for aeroplane use (often used at altitudes of from 20,000 to 25,000 feet) would be utterly indifferent for use in automobile or other internal-combustion engines operated on land or sea.

Aviation gasoline has to be highly volatile. It must vaporize rapidly even in the extreme cold of very high alti-

tudes. On its rapid vaporization alone must often depend the lives of the men in the aeroplane. This gasoline would not be good for general use. It would lack power on the ground, its loss in storage by evaporation would be great, and it would be expensive.

Making aviation gasoline for the Government took a very considerable part of the low boiling point or highly volatile constituents of the crude oil, and, as a result, the gasoline left available for regular use lacked those qualities which assure easy starting of the automobile engine.

The Government's demand for aviation gasoline reached its maximum in the late fall of 1918, and then for a period of about six weeks the deficiency of Red Crown gasoline in low boiling-point constituents or easy-starting qualities was most apparent.

Now that the war is won and the great demand for aviation gasoline has ceased, we are again able to offer the same grade of Red Crown gasoline as formerly, with the same full and continuous chain of boiling points—from the low to the high—which is necessary for easy starting, quick and smooth acceleration, high power and long mileage.

DAILY HEALTH TALKS.

Better Be Careful About Your Kidneys

(By N. B. COOK, M. D.)

Food taken into the stomach goes through various chemical changes, and some of these changes are poisons that must be sifted out and disposed of. It is the duty of the kidneys to do this. When the kidneys do not fully perform their vital work, death may be only a few hours away. Happily, Nature has provided warning alarms telling people when their kidneys are not well. These warnings come in the form of dragging pains in the small of the back, weak stomach, low spirits, chills, nausea, headache, scanty urine and frequent desire to pass it, short breath, numbness, cramps, coated tongue, bad breath, puffs under the eyes, thin blood, dry skin, ringing in the ears, spots before the eyes and many other symptoms. All come from the one cause of kidneys that are not filtering the poisons out of the system. To overcome these troubles, Dr. Pierce of Buffalo, N. Y., compounded what he calls Anurie Tablets. No other kidney medicine is its equal in giving relief and reestablishing healthful work in the kidneys. The treatment is very simple, as you need nothing except water when taking Anurie Tablets—a glass of water with each tablet. This washes and flushes the kidneys while the medicine itself is dissolving the uric acid poisons and driving them out. Anurie Tablets are made double strength, so that they dissolve uric acid the same as hot water dissolves salt or sugar. Most people need Anurie Tablets because most people have uric acid. Better get that poison out of your body for safety's sake, and better begin today.

To really and greatly coax the bowels back into normal activity, take Dr. Pierce's Pleasant Pellets. They are just as good for constiveness as his Anurie Tablets are good for kidney disorders, and that is saying a great deal.

DRIVE AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can it affect stomach and heart, as some internal medicines do.

Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds of the chest (it often prevents pneumonia).

NOTICE OF SALE OF GOVERNMENT TIMBER

General Land Office Washington, D. C.

February 14, 1919.

Notice is hereby given that subject to the conditions and limitations of the act of June 9, 1916, (39 Stat., 218), and the instructions of the Secretary of the Interior of September 15, 1917, the timber on the following lands will be sold April 8, 1919, at 10 o'clock a. m., at public auction at the United States land office at Portland, Oregon, to the highest bidder at not less than the appraised value as shown by this notice, said to be subject to the approval of the Secretary of the Interior. The purchase price, with an additional sum of one fifth of one per cent thereof, being commissions allowed, must be deposited at time of sale, money to be returned if sale is not approved, otherwise patent will issue for the timber which must be removed within ten years. Bids will be received from citizens of the United States, associations of such citizens and corporations organized under the laws of the United States or any state, territory or district thereof only. Upon application of a qualified purchaser, the timber on any legal subdivision will be offered separately before being included in any offer of a larger unit, T. 9 S., R. 3 E., Sec. 5, NE¼ NE¼, fir 1800 M., hemlock 270 M., NW¼ NE¼, fir 850 M., hemlock 160 M., SW¼ NE¼, fir 1170 M., hemlock 250 M., SE¼ NE¼, fir 2300 M., hemlock 200 M., NE¼ SE¼, fir 1170 M., hemlock 120 M., NW¼ SE¼, fir 1800 M., hemlock 60 M., SW¼ SE¼, fir 700 M., SE¼ SE¼, fir 1190 M., hemlock 30 M., NE¼ NW¼, fir 630 M., hemlock 150 M., NW¼ NW¼, fir 630 M., NW¼ SW¼, fir 1800 M., SW¼ SW¼, fir 1270 M., SE¼ SW¼, fir 1650 M., none of the fir to be sold for less than \$1.50 per M., and none of the hemlock to be sold for less than 75 cents per M.
