GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and acids creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisourated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisourated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Three Times a Week for Three Weeks

After the long winter months, too much rich food and too little exercise, practically everyone feels the necessity for a good Spring Tonic and Blood Purifier. The very best spring medicine you can take is the king of tonic laxatives—

CELERY KING

Three times a week for three weeks, brew a cup of this purely vegetable laxative tea and drink it just before retiring. Gently, yet effectively, it will drive out all impurities and not only make you feel better, but look better, right away giving you a sweet breath, clear skin and a healthy appetite.

As a result of an investigation of the payroll of a Japanese section gang which has headquarters in The Dalles, the entire gang of 31 men was discharged by the railroad officials last Sunday.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

Serge Suits for Young Ladies and Women

In the group are five smart models—all quite new this Spring, and all of exceptionally good dark blue serge. And we've just unpacked them!

Their lines are good, all are well tailored, and all are either bound with silk braid or effectively trimmed with it. And they are most carefully made and finished, from the little hand-done button holes to the soft silks which line them.

There are rather plain tailored suits, suits in blouse style, suits with the new narrow belts, and suits that are very straight and new as to silhouette.

This rain seems to please every one, according to the generally expressed opinion. In the first place, it pleases the farmer, especially in the hill lands. Fruit growers are satisfied with it coming now rather than after the prunes and cherries are in bloom. And now just to make everything look 100 per cent, all that is asked is a week or two of fine weather for the blooming period. Last year there was about three weeks of ideal weather during the blooming time. Yesterday afternoon and last night three quarters of an inch of water fell in Salem.
