Dallas Man Appointed On State Board Of Pharmacy

Governor Olcott today announced the appointment of Captain Conrad Strafrin of Dallas, as a member of the state board of pharmacy, to succeed Ross M. Plummer, of Portland. The appointment becomes effective May 1, immediately

succeeding the expiration of the term of Mr. Plummer. Mr. Plummer, who is secretary of the board, had expressed a desire not to serve further as a member. Captain Strafrin recently returned from France. He had a splendid record as captain of Company L of the old Third Oregon. When the war started his company was one of the first to be ready for service and Captain Strafrin

came back from France with the highest praise of his men. He was with the United States troops that were sent into France from France and saw service there. He is a prominent pharmacist of Dallas and has been active along many civic lines, as well as military. Captain Strafrin was also in the Mexican border with his company.

Hoquiam Man Kills Wife

Hoquiam, Wash., April 4.—Failing to persuade his wife to drop divorce proceedings, Alvin A. Sedgewick, 28, shot her late yesterday, turned the weapon on Sidney M. Heath, 60, her attorney, and then killed himself. All three are dead. The shooting took place in Heath's office where Sedgewick had gone with his wife in an effort to have her divorce suit dropped. He had just returned from an Everett sanitarium where he was under treatment for tu-

Chest Colds Sore Throats

Quick relief comes overnight when you apply Mustarine—the original improvement on the old fashioned mustard plaster. Mustarine contains true mustard. It cannot blister and there are no disagreeable fumes to irritate the nose and eyes. It's good for so many ailments removing congestion and reducing inflammation and swellings so quickly that no home can afford to do without it. One small box proves it. Always comes in yellow box. Be sure to ask for Regy's Mustarine.

berculosis. A note found in Sedgewick's pocket showed he planned the killing. "I have tried to persuade Louise to abandon her application for divorce, but she refused to do so. So I have decided to settle it by taking her along with me."

Do You Know---

That we have our first shipment of Ladies' shoes and part of them already gone before we placed them on display.

Our first shipment contains the following: Black and white pumps with attractive buckles and plain Doctor Reed's cushion insole shoes for sore feet; Keith Konqueror genuine white washable kid low and high heel; also the two tone shoes, and two styles of brown kid shoes.

Look at our window display or come in and see the display inside.

AND DO IT WELL

"You Don't Know Beans"

UNLESS YOU KNOW.

BURPEES STRINGLESS GREEN POD VARIETY—The beans that will make Oregon dehydrated beans famous. We are introducing this wonderful stringless bean, of highest table quality, into the market of the world.

ARE YOU READY, MR. FARMER—To do your part toward establishing this industry in the Willamette Valley? No matter whether you are a fruit grower or grain raiser you will find this crop profitable and also

A GREAT SOIL BUILDER—The Willamette Valley has been endowed with marvellous opportunities for raising fruits and vegetables of the highest quality and that farmer who has a vision is quickly adjusting his crops accordingly. Grain farming will soon become a secondary enterprise—in fact many soils in the Willamette Valley are running out through continued grain cropping. Cultivation and legume crops will restore them. Grow beans for the legume and they will pay better than grain.

LET EVERY FARMER PLANT BEANS whose soil is adapted. If unable to handle a large acreage grow at least an acre. We want beans this season and next, too, but beans this year is the paramount issue.

INTEREST YOUR BOYS AND GIRLS in growing beans. Let them care for the crop and share in profits.

WE DON'T REQUIRE "BABY BEANS" but take well developed pods, tender and brittle as picked for table use. This means easier picking and greater weight for the grower.

IF YOU ARE PLANTING BERRIES OR ORCHARDS this Spring, plant means between the rows. Their cultivation will be a big benefit to the berries and young trees, or if you intend planting these fruits next season there is nothing better than beans to put the soil in proper condition.

TWO BAD SEASONS both exceedingly dry, have discouraged some who tried beans but don't weaken, Mr. Farmer, the Willamette Valley always did grow fine crops of string beans and will grow them better than ever when you study their culture on a business basis.

USE FERTILIZER—It will greatly increase your yield and assist later crops. Intelligent fertilizing will determine in a large measure your success in farming. Ask us for information on proper kinds to use.

WE OFFER \$60.00 PER TON for beans f. o. b. our factory and will furnish containers. Send for any of the following free bulletins on culture. Beans, Carrots, Peas, Tomatoes, Spinach and Can Berries. All are written by practical men from actual experience. We supply seed at cost to our growers.

WE ARE IN THE MARKET FOR SEVERAL THOUSAND LOGANBERRY TIPS.

Did you lose that job through a poor skin

There's many a person whose chances in life are limited simply because of a skin that is blotchy and unrepresentative. Pimples, rough, red, ugly skins—skins that chap and burn easily—are usually most successfully treated with Resinol Ointment.

The joint use of Resinol Soap with Resinol Ointment usually produces the best results when facial blemishes are concerned, and is equally successful in treating other skin affections on limbs and body.

Resinol
