

You Can't Cure Rheumatism With Liniments and Lotions

Torturing Pains Promptly Return in All Their Intensity

You may as well throw your liniments to the winds, if you expect them to rid you of the pangs of rheumatism. In fact, the sooner you discard forever the use of all forms of local treatment, the sooner you will get on the right track which leads to rational means of relief.

For you can rub and rub from now until doomsday, and you will never make any progress toward ridding yourself of rheumatism, because such treatment does not approach the source of the disease.

Remember from the outset that the pangs of rheumatism come from a deep-seated cause, and that simply rubbing the painful parts of the body has no effect on the disease itself. But when you locate the cause of the disease, the real source of all these intense pains, you can then treat the disease intelligently.

And until you do treat your rheumatism intelligently, you will never be free from its disabling pangs.

So many people have found real, genuine and lasting relief from rheumatism by purifying the blood with S. S. S. that we are justified in recommending this splendid remedy to all who are afflicted. Perhaps your case is like thousands of others which are caused by millions of tiny disease germs in the blood. S. S. S. so thoroughly cleanses the blood, that it routes out completely and eliminates all disease germs that infect it.

In this way the source of the disease is reached, and its cause removed. Give your system a thorough cleansing with this reliable vegetable blood remedy, and you will be delighted to be free of the pangs of rheumatism. It has been used for more than fifty years and is sold at all drug stores. Begin its use today and you will have the same satisfactory experience as thousands of other sufferers.

Should you wish special advice about your own case, it can be had without cost by writing to Chief Medical Adviser, 101 Swift Laboratory, Atlanta, Ga.

MODART CORSETS Front Laced

ARE AN ECONOMICAL PURCHASE

The Modart Corset is essentially a figure-shaping garment. It is beautifully and symmetrically designed to train the figure into lines of beauty and to maintain those lines when once obtained. MODART Corsets are constructed of materials that will stand constant laundering, without losing their shape.

The boning and clasps have a rubberized covering that renders them impervious to water.

These features in the MODART are well worth considering for many corsets are made with uncovered steels or paper covered ones. Water melts the paper. Some corset cloths are so full of starch and other filling matter that they lose their shape when laundered. Not so with the MODART. It retains its shape until worn out.

To this end every woman should have at least two corsets, for all corsets should be laundered from time to time.

MODART prices are moderate considering the value delivered, and the prices range from those for the plainest of cottons to the fanciest of silks.

CALIFORNIA MAN GAINS 18 POUNDS

Smith Feels Like New Man Since Taking Tanlac—Suffered Thirty Years.

One of the strongest and most convincing evidences of the popularity of Tanlac throughout America is the large number of letters that are being received daily from well known men and women, telling of the remarkable results they have derived from its use.

Among the many received in the past few days is one from John Smith, 313 Eighth street, Richmond, California, which is especially interesting. Mr. Smith states that he had suffered for twenty years, with his stomach, liver and kidneys, and had reached the point where he wished each breath would be the last. He also says that when he began taking Tanlac he weighed only one hundred and forty eight pounds, but that he now weighs one hundred and sixty six—making a gain of eighteen pounds—and that he feels like a new man. Following is his letter in full:

"To whom it may concern: I, the undersigned, can truthfully say that the wonderful medicine known as Tanlac has done more for me in thirty days, than any other medicine I have ever taken before in all my life. I have been a sufferer from stomach, liver and kidney troubles for twenty years. I have taken six bottles of Tanlac, and today I feel like a new man.

"Before I started using Tanlac I didn't make any difference what I would eat or drink, it distressed me so much that I wished the next breath would be my last. Also when I started taking this wonderful medicine, I only weighed one hundred and forty eight pounds. Today I weigh one hundred and sixty six pounds—have gained eighteen pounds already—and am still gaining. Also before taking Tanlac I couldn't sleep either night or day, but now I average about nine hours steady sleep and I have an appetite like a horse. I am now fifty years of age and I can't praise Tanlac too much for what it has done for me."

Tanlac is sold in Hubbard by Hubbard Drug Co., in Mt. Angel by Jen Gnoch, in Gervais by John Kelly, in Turner by H. P. Cornelius, in Woodburn by Lyman H. Storey, in Salem by Dr. A. C. GABRIELSON TELLS OF SERVICE IN SIBERIA

Lieutenant Writes Of Wide Variety Of Experiences With Army In East.

First Lieutenant Carl D. Gabrielson, who is now with the 27th regiment, A. E. F. in Siberia, is having more experience in the war than has fallen to the lot of the average Salem man who was in the service.

He went into the service last summer and after taking the officers' training course at the Presidio, was among those who were sent to Vladivostok, Siberia, in a recent letter to friends he writes in part:

"I put in my spare time gathering material for the finest nest of lies I am going to have ready to offer to some of the weird tales I know I am going to have to listen to when the boys from France arrive in our fair city of Salem. My spare time isn't much, however, as I am adjutant of the first battalion of the Twenty-seventh, in command of a small detachment of the headquarters company and in charge of the German prison camp at this post.

"I came over last fall, arriving here on September 2, along with its officers and 1250 men from the Eighth infantry. We are filled up to war strength, but we can't find the damn war. However, I have enjoyed myself and had some good experiences, among them living in a boxcar from October 15 to December 15. I have seen some pretty good cities in my travels, have danced and drunk coffee with the baristas (you know—girls), attended dinners, etc., with Russians, Japanese, etc., officers, gone ice skating, watched the Japs butcher a frozen pig with an ax and, in fact, have had a real cosmopolitan time in the best cosmopolitan country on the globe.

"Economically and politically this country could give Mexico the joker in the hole and win all its money playing steel poker. The air feels like an earth quake is about to break loose, if you know what I mean. As for money making here, you would have to have a sack full of kopecks and put a padlock on the title to your property. Speaking of kopecks, rubles, etc., there are more kinds of money here than there are different kinds of nationalities to spend it. The biggest denomination we had was a 50-time coupon until they got next to it."

of the other forms of wealth have been hurled by cannons out of the country. Germany's industry begins with the decided advantage of being at the head of a hostile market, in addition to demoralization, Russia as a market is not over attractive at present, with money mostly worthless paper rubles. Germans realize that their recovery from the tremendous debt the country faces depends upon the field of commerce they can get in entente and neutral countries. They also realize that the German workman, who formerly was industrious and reliable, has deteriorated during the war—trench life has its effect. The future is not bright.

SHE SUFFERED FIVE YEARS

Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I found it to be the best medicine I ever tried because it made me well, and I can now do my housework. I am telling my friends about it."—Mrs. J. M. CARROLL, 726 Caroline St., Key West, Florida.

STUDENTS OF NORMAL OBSERVE JUNIOR DAY

Afternoon Pageant Is Chief Feature.—Hundreds Enjoy Big Program.

(Capital Journal Special Service.)
Monmouth, Or., April 9.—Junior day at the Oregon Normal school was celebrated last Thursday by the 1919 class. Early in the morning the bells began to ring, which was the signal for the dawn of the day of all days. From the first bell until late at night there was something doing every minute.

The principal feature of the day, however, so far as the general public was concerned, was the afternoon entertainment given in the normal auditorium and enjoyed by a large and appreciative audience. "The Light of the Jewel," a pageant depicting national ideals, was the inspiring theme; their development, through strife and turmoil was vividly portrayed and their final realization, when the proper conditions were brought about through education and co-operation, was a most fitting reward and a just and happy ending. The

"Back To School" Worker Is Speaker At Normal School

(Capital Journal Special Service.)
Monmouth, Or., April 9.—Miss Anne Davis, who is working for Uncle Sam in the "back to school" campaign, was a most interesting speaker at chapel last Wednesday. Miss Davis gave a reiteration of statistics regarding illiteracy and delinquency that the recent army examinations disclosed and which unbelievable conditions startled the whole nation. The seed now, said the speaker is to arouse ourselves to a thorough realization of the great per cent of illiteracy which amounts to one-fourth of all soldiers examined, and to remedy this appalling condition by a closer co-operation of parents and teachers in the "back to stay in school" campaign.
