**Court House Notes**

In the suit of W. J. Patten against Henry J. Powell and others, the court confirmed the sale of the real estate in question for \$505 to Clarence Van Patten. It was ordered that the surplus of the sale should be paid to the defendant, Henry J. Powell.

P. E. Fullerton, administrator of the estate of Lora M. Fullerton has filed a petition with the court asking for an order to sell lot 6, block 9 in Boise second addition to Salem. The court set May 5 as the date for the hearing of the petition.

The estate of Emma Moore has been appraised at \$1500. This consists of one lot in Hillsboro.

In the matter of the estate of Daniel A. Stewart, the executor Fred J. Stewart, files his semi-annual report showing cash on hand \$1344.76. The sums paid out during the past six months include \$190 a month to Mrs. D. A. Stewart. This is paid by the executor by order of the court.

but as Mr. Gram found it impossible to serve in this capacity, he was requested by the governor to name an alternative. Mr. Gram suggested W. H. Fitzgerald, his chief deputy in labor operations, and Governor Olcott has written Mr. Fitzgerald with regard to his appointment and also notified Secretary Wilson of the selection. Commissioner Gram left today for Portland to confer with the appointee with regard to the conference in Washington, which has for its chief object the establishment of a national employment service through which the federal authorities will be able to cooperate freely with state and municipal agencies in the adjustment of labor problems, and also to pave the way for both state and national legislation along this line.

The department of public instruction is today getting "repacked" lined up for the 1919 issue of the Oregon educational laws. The book will probably be a little larger than the last because of amendments to the existing laws. The book will not be issued until about the middle of June, so that teachers in making up their examination papers this year will make use of the 1917 laws as usual.

The state land board, after careful consideration and examination of the Teel irrigation project, near Echo, decided that they would not be justified in certifying the bond issue on the ground that the extent of work that must be done and the length of time that must elapse before actual results could be obtained so great that the project is in a degree precarious. However, as the ultimate success of the project promises so much return, the promoters will proceed with the work, relying upon private capital to carry it through. The land under this project is said to be among the finest in eastern Oregon, and will produce immensely under irrigation.

Prominent among the companies filing articles of incorporation during the past week was a foreign company—the Oregon Canner Co., of Waila Walla, Wash., which will have its headquarters at Homestead, Baker county, and will handle large milling interests in that section. Their capital stock is placed at \$200,000. Other firms are: The State Exchange, a corporation formed by the Central Labor Council, of Portland, for the purpose of conducting a system of education in the line of economics, political science, co-operative marketing and production, etc., for the benefit of laboring men and their families; The Doughboy Product Co., Portland, \$10,000; Nolin Elevator Co., Nolin, \$15,000; Myrick Elevator Co., Pendleton, \$25,000; Grand Auto Service Co., Portland, \$10,000; North Grand Auto Co., Portland, \$5,000; Hal-Emory Agency, Portland, \$30,000.

Governor Olcott is in receipt of a letter from Mrs. S. L. Clark, of Portland, in which she pleads with the executive to use his influence to secure a mitigation of the order by which four students of Oregon University were expelled from that institution, assuming that they were not only forbidden to return to the institution but that they would not be allowed to use their credits in any other institution. A representative of the Capital Journal in a personal interview with President Campbell learned that this was not the case—that is to say, that while the students are permanently expelled from the university, they will be allowed the use of their credits in finishing their education elsewhere.

At the meeting of the city council next Monday evening, an ordinance will be introduced providing for the foreclosure of the city liens in the Oaks addition. The improvement project of the Oaks addition was in 1911 when all kinds of improvements were put in at one time, costing in many instances, more than the value of the property. A few holders of property in this addition have paid their assessments and others are paying.

Nothing's ever wrong with my tummy says Bobby I eat POST TOASTIES

**PRINCE ALBERT**  
the national joy smoke

PUT it flush up to Prince Albert to produce more smoke happiness than you ever before collected! P. A.'s built to fit your smokeappetite like kids fit your hands! It has the jimdandiest flavor and coolness and fragrance you ever ran against!

Just what a whale of joy Prince Albert really is you want to find out the double-quickest thing you do next. And, put it down how you could smoke P. A. for hours without tongue biting or parching. Our exclusive patented process cuts out bite and parch.

Realize what it would mean to get set with a joy'us jimmy pipe or the papers every once and a while. And, puff to beat the cards! Without a comeback! Why, P. A. is so good you feel like you'd just have to eat that fragrant smokel R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

**STATE HOUSE NEWS**

In addition to the ten construction contracts awarded yesterday, the state highway commission have completed their work by letting the following: Jefferson to Beaver, in Marion county, seven miles, bitulthite paving, to A. D. Keenan, \$123,008; Central Point to Gold Hill, in Jackson county, 8.9 miles, bitulthite paving, Clark & Henry Construction company, \$231,089; Baker

to Middle Bridge in Baker county, 18.75 miles of grading, J. A. Hoskins, \$92,204; Seapooze to Deer Island in Columbia county, 14.2 miles grading, L. O. Herz, \$68,581; Stage Road Pass to Wolf Creek, Josephine county, 4.5 miles grading, Parola & Eiden, \$38,197; Division 12 Douglas county line in Lane county, 1.2 miles grading, J. H. Hawley, \$11,144; Myrtle Creek to Dillard in Douglas county, removal of slide, H. J. Hildeburn, \$19,750; John Day River bridge, wood construction, Portland Bridge Co., \$24,500; Myrtle Creek to Dillard in Douglas county, 12.8 miles paving, Oregon Houson Company, \$316,906; Amity to Holmes Gap in Yamhill county, 8.3

miles paving, Oregon Independent Paving company, \$244,170; Oakland to Yoncaia in Douglas county, paving 10.4 miles, Clark & Henry Construction company, \$273,341.

The last three units were held up at the opening of bids, but were later awarded when the bidders cut off generous amounts from their estimates. Although contractors showed by figures that materials and freight rates were vastly higher than they were two years ago, the commission was anything in its stipulations and in the wind-up succeeded in effecting a saving of about \$50,000.

Commissioner Booth moved that a mile and a half of paving be laid into Polk county on the proposed route from Corvallis. As the road between Jefferson and Monroe is not ready for paving this year, a nine-mile section north of Monroe will be advertised for the May meeting. As a matter of preparatory work a survey was authorized from Philomath to the coast through Lincoln county.

In order to relieve an urgent situation in Lake and Klamath counties, the commission decided to co-operate liberally with that section, which will require approximately 400 miles of highway.

For Lake county the state will put up \$209,050, the county will bond itself for \$200,000, which is its limit, and the government will be asked to contribute \$400,000. The contemplated road improvements in Klamath will cost an estimate of \$861,980. The county will turn over \$20,000 now on hand, and bond itself for \$360,000, and the Indian department will give at least \$25,000, as the road will go through the reservation. The rest of the money necessary will be raised by the state and the government.

Paving and widening of the road between Seaside and Astoria was declared a post road project and will be handled as such when the government approves. Clatsop county has \$63,000 to aid and the commission agreed to accept it toward the co-operation. The bridge across Young's bay, near Astoria, considered as part of the highway, will be aided by the commission.

In response to the request of Secretary Wilson, of the federal labor department, that a man be appointed to represent Oregon in a national conference at Washington with regard to employment problems, Governor Olcott first selected Labor Commissioner Gram as the most efficient representative;

**SOCIETY WOMEN LEARN HAIR CURLING SECRET**

"If your hair is straight, flat, dull looking, I need not ask if you long to possess perpetually wavy, light, fluffy, glossy tresses," says Gladys Coleman in Society World. "I'll tell you what to do. Tonight, after your hair has had its usual brushing, take a clean tooth brush, dip it in a saucer of pure liquid salicic acid and run this through the hair from crown to tip.

"When morning dawns and you have yawned yourself out of your downy cot, you will have a real surprise, quite an agreeable one. Your hair will have a prettier and more natural-looking curl and lustre than it has ever had before—and there will be nothing sticky, sticky, greasy or anything unpleasant about it. If you will get the liquid salicic acid from your drug list it will require no preparation at all, and four or five ounces will last for months. This is just the finest thing imaginable for the purpose."

**PERSONAL**

Lloyd W. Ivie, who recently received his discharge from Camp Lewis, arrived in the city yesterday, driving down from Portland in company with Mr. and Mrs. L. E. Klumpp, who are relatives of Mrs. Mae Ivie.

Representative W. H. Gore, of Medford, is a visitor in the city today.

K. F. Mandling, of Silverton, and Wm. Ivie, of Sebo, are registered at the Capital hotel today.

Mr. and Mrs. H. Lewis and D. S. Ledbetter are Portland citizens stopping at the Marion hotel today.

W. W. Colby came in from Newberg today on a business errand.

Milo C. K... of Gresham, is one of the transient visitors in Salem today.

**Japanese Troops 1,600 Strong Landed At Seoul**

Seoul, Korea, April 13.—(Delayed.)—More than 1,600 Japanese troops and a few hundred gendarmes arrived at Pusan this morning from Tokio for guard duty in connection with the Korean uprising. In addition to these forces, two complete divisions are on route here from Japan.

Lieutenant General Asakawa, in charge of Japanese military operations, issued a notification to Koreans that the dispatch of troops from Japan is necessary as a result of the growing violence and extent of the rioting by nationalists. He called upon the business interests to resume their business without fear.

Koreans are warned to refrain from meeting in mass numbers "lest the Japanese authorities be obliged to resort to decisive action."

**SWAMP-ROOT FOR KIDNEY AILMENTS**

There is only one medicine that really stands out pre-eminent as medicine for curable ailments of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Salem Daily Capital Journal.

**Why Dentistry is Costly**  
"The Double Cost"

Chapter I.  
Is Dentistry Costly? Yes.

It is, at present, costly for the dentist as well as the patient.

The standard of fees is higher than it need be. A reduction of 30 to 50 per cent can be made without lowering the quality of work or the income of the practitioner.

The average dentist doesn't make much money. Dentistry at present fails to attract the best minds in the country. It doesn't pay enough. Why? Is it because there are too many dentists? No!

Every man and woman in the United States needs the services of a dentist, not once but several times in life.

And let us not forget the children. It has been shown that more than 97 per cent of our school children have diseased or faulty mouths.

One-third of the men of military age in England were found unfit for military service on account of bad teeth.

Our condition in this respect is not much better, although we have the best dentists in the world.

Dentistry is too costly. Why it is so and how its cost can be reduced I shall explain in articles to follow.

Twenty-five years of my professional life have been spent in devising a system to reduce the cost of dentistry without lowering its quality.

Under the E. R. Parker System scientific dentistry is performed at the least cost.
