The city fathers will hold a busy session this evening. It is understood several important matters will come up for consideration. One will be that of submitting to the people a change in the charter of the city, whereby the city council will fix the salaries of the city recorder and the city marshal. All city salaries are in the hands of the council excepting these two. In order to make it uniform and to permit the council to decide what a city officer should be paid, the amendment will

be submitted to the people and will be on the June 3 ballot. The only way the city charter may be amended is by a vote of the people.
