HOW TO SAVE ON SHOES

'Out of curiosity I tried a pair of Neolin Soles,' writes W. P. Macartney of St. Louis, 'and today, after five months of hard service I fail to notice any real signs of wear on them.' This statement points the way to real economy in shoes. What your shoes cost, by the year, depends largely on how the soles wear and Neolin Soles do wear a very long time. Moreover, they are exceedingly comfortable and waterproof—scientifically made to be exactly what soles should be and so worn now by millions. They are available everywhere on new shoes and for re-soles. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.
