

JAPS KEPT IGNORANT OF KOREA'S BRUTALITY

Home People Know Little Of Military Outrages In Provinces.

Tokio, April 19.—(United Press)—Numerous reports from reliable and impartial sources indicate the Japanese people have been kept ignorant of the brutality of the Japanese military party in Korea.

Reports are current here that Gen. Harman, unprovoked, have shot into crowds, killing and wounding women and children.

The wounded have not been given treatment, these reports state, except in the police court prison where the treatment is of the crudest type. The hospitals are unable to accommodate the many wounded.

A rigid censorship of news from Korea has been established. Everyone leaving Korea is searched, and foreigners arriving fear to tell what they know.

News is Suppressed One prominent foreigner, following a personal investigation, declares the Japanese are making a serious error in suppressing the news. Martial law has practically been established, he says, with new orders being issued daily.

The Korean national association in San Francisco on April 12 published a cable from Korea which declared over 1000 unarmed people had been killed in Seoul during a three hour demonstration. Several thousand persons had been killed by Japanese since March 27, the cable stated. Naked women, it said, had been beaten before crowds. The above Tokio cable indicates that this situation has been kept from the knowledge of the Japanese people.

FINE SPRING TONIC IS DR. CARTER'S K.B. TEA

Dr. Carter's K & B Tea Best Spring System Cleanser—Make It at Home Yourself—Costs Almost Nothing

After the long winter months, nearly everyone needs a spring medicine that will drive out accumulated impurities and put the system in good condition.

One of the best spring builders and regulators we know of, is made of roots and herbs and is called Dr. Carter's K & B Tea—your grandmother can tell you all about it.

Get a package of this tea at any drug store and brew a steaming cup before you go to bed tonight—you'll like it.

It's splendid for the liver and bowels, sick headache and biliousness. The kiddies like it too, and it does them lots of good, because it never acts harshly. You can get Dr. Carter's K & B Tea at any drug store.

Court House Notes

The Abiqua & Marquam Mutual Telephone company is having troubles of its own, or rather the members of the company are. In the suit entitled Floyd Davenport et al versus J. N. Van Arman et al, it is claimed in an answer filed by the defendants, that the plaintiffs in the suit took down four miles of the line and connected it with the Interurban Telephone company of Silverton. And that by making this connection, those on the line are now obliged to pay five cents to the Silverton line. The defendants ask that the case be dismissed, that the plaintiffs be required to restore the four miles of wire and that they be compelled to pay \$300 to the defendants. In reply to these allegations, the plaintiffs to the suit allege that the four miles of wire was taken down by consent of the officers as it had been so voted when two-thirds of the members of the company were present. The answer states "there was discussion between the two parties which was violent and lasting and there was no hope of a settlement by sale or otherwise." Hence the courts will have the pleasure of untangling the affairs of the Abiqua and Marquam Mutual Telephone company.

Albert E. Egan comes into court and asks that his interests as lessee of 159 acres be protected in the suit brought by the Alliance Trust company against Laura Krebs. The trust company asks for foreclosure. Mr. Egan states that

he had leased the land in question and had performed all his contracts. That if the foreclosure goes through the courts, that his rights as lessee be properly acknowledged.

A cablegram from President Wilson is interpreted as authority for the industrial board of the department of commerce to continue its general price stabilization program.

The United States department of agriculture has announced the appointment of Francis W. Peck of the Uni-

versity of Minnesota to the position of farm economist in the office of farm management.

Mobilization of naval effort for the proposed flight of seaplanes across the Atlantic ocean next month probably is more extensive than any heretofore undertaken in peace time. Every bureau of the department is aiding in the work.

Yaklun bakers threaten a strike unless they are paid an additional wage of \$1 a day.
